Authority for Publishing Session Laws and Resolutions

Section 2.030, Revised Statutes of Missouri, 2007. — Legislative Research to provide for printing and binding of laws. — The joint committee on legislative research shall annually collate, index, print, and bind all laws and resolutions passed or adopted by the general assembly and all measures approved by the people since the last publication of the session laws. Any edition of the session laws published pursuant to this section is a part of the official laws and resolutions of the general assembly at which the laws and resolutions were passed.

Section 2.040, Revised Statutes of Missouri, 2007. — Duties of Legislative Research in printing and binding. — The joint committee on legislative research shall provide copies of all laws, measures and resolutions duly enacted by the general assembly and all amendments to the constitution and all measures approved by the people since the last publication of the session laws pursuant to section 2.030, giving the date of the approval or adoption thereof. The joint committee on legislative research shall headnote, collate, index the laws, resolutions and constitutional amendments, and compare the proof sheets of the printed copies with the original rolls. The revisor of statutes shall insert therein an attestation under the revisor's hand that the revisor has compared the laws, resolutions, constitutional amendments and measures therein contained with the original rolls and copies in the office of the secretary of state and that the same are true copies of such laws, measures, resolutions and constitutional amendments as the same appear in the original rolls in the office of the secretary of state. The joint committee on legislative research shall cause the completed laws, resolutions and constitutional amendments to be printed and bound.

ATTESTATION

STATE OF MISSOURI)
) ss.
City of Jefferson)

I, Patricia L. Buxton, Revisor of Statutes, hereby certify that I have collated carefully the laws and resolutions passed by the Ninety-fourth General Assembly of the State of Missouri, convened in first extraordinary session and second regular session, as they are contained in the following pages, and have compared them with the original rolls and have corrected them thereby. Headnotes are used for the convenience of the reader and are not part of the laws they precede.

IN TESTIMONY WHEREOF, I have hereunto set my hand at my office in the City of Jefferson this seventeenth day of July A.D. two thousand eight.

PATRICIA L. BUXTON
REVISOR OF STATUTES

EFFECTIVE DATE OF LAWS

Section 29, Article III of the Constitution provides:

“No law passed by the general assembly, except an appropriation act, shall take effect until ninety days after the adjournment of the session in either odd-numbered or even-numbered years at which it was enacted. However, in case of an emergency which must be expressed in the preamble or in the body of the act, the general assembly by a two-thirds vote of the members elected to each house, taken by yeas and nays may otherwise direct; and further except that, if the general assembly recesses for thirty days or more it may prescribe by joint resolution that laws previously passed and not effective shall take effect ninety days from the beginning of the recess.”

The Ninety-fourth General Assembly, First Extraordinary Session, convened Monday, August 20, 2007, and adjourned Thursday, August 30, 2007. Both bills passed during this extraordinary session contained emergency clauses. House Bill 1 only contained an emergency clause for 3 sections which became effective September 4, 2007, the remainder of the bill became effective November 28, 2007. House Bill 2 contained an emergency clause and became effective September 4, 2007.

The Ninety-fourth General Assembly, Second Regular Session, convened Wednesday, January 9, 2008, and adjourned May 30, 2008. All laws passed by it (other than appropriation acts, those having emergency clauses or different effective dates) became effective ninety days thereafter on August 28, 2008.

JOINT RESOLUTIONS AND INITIATIVE PETITIONS

Section 2(b), Article XII of the Constitution provides:

“All amendments proposed by the general assembly or by the initiative shall be submitted to the electors for their approval or rejection by official ballot title as may be provided by law, on a separate ballot without party designation, at the next general election, or at a special election called by the governor prior thereto, at which he may submit any of the amendments..... If a majority of the votes cast thereon is in favor of any amendment, the same shall take effect at the end of thirty days after the election. More than one amendment at the same election shall be so submitted as to enable the electors to vote on each amendment separately.”

The Ninety-fourth General Assembly, Second Regular Session, passed one Joint Resolution. Resolutions are to be published as provided in Section 116.340, RSMo 2000, which reads:

“116.340. Publication of approved measures. — When a statewide ballot measure is approved by the voters, the secretary of state* shall publish it with the laws enacted by the following session of the general assembly, and the revisor of statutes shall include it in the next edition or supplement of the revised statutes of Missouri. Each of the measures printed above shall include the date of the proclamation or statement of approval under section 116.330.”

*The publication of session laws was delegated to the Joint Committee on Legislative Research in 1997 by Senate Bill 459, section 2.040.

The headnotes used to describe sections printed in this volume may not be identical with the headnotes which appear in the 2008 Supplement to the Revised Statutes of Missouri. Every attempt has been made to develop headnotes which adequately describe the textual material contained in the section.

The Joint Committee on Legislative Research
is pleased to state that the *2008 Session Laws*
is produced with soy-based ink.

The department of economic development shall limit the monetary amount of qualified equity investments permitted under this section to a level necessary to limit tax credit utilization at no more than fifteen million dollars of tax credits in any fiscal year. 3. The issuer of the qualified equity investment shall certify to the department of economic development the anticipated dollar amount of such investments to be made in this state during the first twelve-month period following the initial credit allowance date. If on the second credit allowance date, the actual dollar amount of such investments is different than the amount estimated, the department of economic development shall adjust the credits arising on the second allowance date to account for such difference.

4. The department of economic development shall recapture the tax credit allowed under this section with respect to such qualified equity investment under this section if:

6. For fiscal years following fiscal year 2010, qualified equity investments shall not be made under this section unless reauthorization is made pursuant to this subsection. For all fiscal years following fiscal year 2010, unless the general assembly adopts a concurrent resolution granting authority to the department of economic development to approve qualified equity investments for the Missouri new markets development program and clearly describing the amount of tax credits available for the next fiscal year, or otherwise complies with the provisions of this subsection, no qualified equity investments may be permitted to be made under this section. The amount of available tax credits contained in such a resolution shall not exceed the limitation provided under subsection 2 of this section. In any year in which the provisions of this section shall sunset pursuant to subsection 7 of this section, reauthorization shall be made by general law and not by concurrent resolution. Nothing in this subsection shall preclude a taxpayer who makes a qualified equity investment prior to the expiration of authority to make qualified equity investments from claiming tax credits relating to such qualified equity investment for each applicable credit allowance date.

7. Under section 23.253, RSMo, of the Missouri sunset act:

[(11)] (13) "NAICS", the 1997 edition of the North American Industry Classification System as prepared by the Executive Office of the President, Office of Management and Budget. Any NAICS sector, subsector, industry group or industry identified in this section shall include its corresponding classification in subsequent federal industry classification systems;

[(12)] (14) "New business facility", a facility that satisfies the following requirements:

(a) Such facility is employed by the taxpayer in the operation of an enhanced business enterprise. Such facility shall not be considered a new business facility in the hands of the taxpayer if the taxpayer's only activity with respect to such facility is to lease it to another person or persons. If the taxpayer employs only a portion of such facility in the operation of an enhanced business enterprise, and leases another portion of such facility to another person or persons or does not otherwise use such other portions in the operation of an enhanced business enterprise, the portion employed by the taxpayer in the operation of an enhanced business enterprise shall be considered a new business facility, if the requirements of paragraphs (b), (c), and (d) of this subdivision are satisfied;

(b) Such facility is acquired by, or leased to, the taxpayer after December 31, 2004. A facility shall be deemed to have been acquired by, or leased to, the taxpayer after December 31, 2004, if the transfer of title to the taxpayer, the transfer of possession pursuant to a binding contract to transfer title to the taxpayer, or the commencement of the term of the lease to the taxpayer occurs after December 31, 2004;

(c) If such facility was acquired by the taxpayer from another taxpayer and such facility was employed immediately prior to the acquisition by another taxpayer in the operation of an enhanced business enterprise, the operation of the same or a substantially similar enhanced business enterprise is not continued by the taxpayer at such facility; and

[(13)] (15) "New business facility employee", an employee of the taxpayer in the operation of a new business facility during the taxable year for which the credit allowed by section 135.967 is claimed, except that truck drivers and rail and barge vehicle operators and other operators of rolling stock for hire shall not constitute new business facility employees;

[(14)] (16) "New business facility investment", the value of real and depreciable tangible personal property, acquired by the taxpayer as part of the new business facility, which is used by the taxpayer in the operation of the new business facility, during the taxable year for which the credit allowed by 135.967 is claimed, except that trucks, truck-trailers, truck semitrailers, rail vehicles, barge vehicles, aircraft and other rolling stock for hire, track, switches, barges, bridges, tunnels, and rail yards and spurs shall not constitute new business facility investments. The total value of such property during such taxable year shall be:

(a) Its original cost if owned by the taxpayer; or

(b) Eight times the net annual rental rate, if leased by the taxpayer. The net annual rental rate shall be the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals. The new business facility investment shall be determined by dividing by twelve the sum of the total value of such property on the last business day of each calendar month of the taxable year. If the new business facility is in operation for less than an entire taxable year, the new business facility investment shall be determined by dividing the sum of the total value of such property on the last business day of each full calendar month during the

portion of such taxable year during which the new business facility was in operation by the number of full calendar months during such period;

A new facility shall be deemed to replace an old facility if the following conditions are met:

(a) The old facility was operated by the taxpayer or a related taxpayer during the taxpayer's or related taxpayer's taxable period immediately preceding the taxable year in which commencement of commercial operations occurs at the new facility; and

(b) The old facility was employed by the taxpayer or a related taxpayer in the operation of an enhanced business enterprise and the taxpayer continues the operation of the same or substantially similar enhanced business enterprise at the new facility. Notwithstanding the preceding provisions of this subdivision, a facility shall not be considered a replacement business facility if the taxpayer's new business facility investment, as computed in subdivision [(14)] (16) of this section, in the new facility during the tax period for which the credits allowed in section 135.967 are claimed exceed one million dollars and if the total number of employees at the new facility exceeds the total number of employees at the old facility by at least two;

[(17)] (23) "Same or substantially similar enhanced business enterprise", an enhanced business enterprise in which the nature of the products produced or sold, or activities conducted, are similar in character and use or are produced, sold, performed, or conducted in the same or similar manner as in another enhanced business enterprise.

135.963. IMPROVEMENTS EXEMPT, WHEN — AUTHORIZING RESOLUTION, CONTENTS — PUBLIC HEARING REQUIRED, NOTICE — CERTAIN PROPERTY EXEMPT FROM AD VALOREM TAXES, DURATION — TIME PERIOD — PROPERTY AFFECTED — ASSESSOR'S DUTIES. — 1. Improvements made to real property as such term is defined in section 137.010, RSMo, which are made in an enhanced enterprise zone subsequent to the date such zone or expansion thereto was designated, may, upon approval of an authorizing resolution by the governing authority having jurisdiction of the area in which the improvements are made, be exempt, in whole or in part, from assessment and payment of ad valorem taxes of one or more affected political subdivisions. **In addition to enhanced business enterprises, a speculative industrial or warehouse building constructed by a public entity or a private entity if the land is leased by a public entity may be subject to such exemption.**

2. Such authorizing resolution shall specify the percent of the exemption to be granted, the duration of the exemption to be granted, and the political subdivisions to which such exemption is to apply and any other terms, conditions, or stipulations otherwise required. A copy of the resolution shall be provided to the director within thirty calendar days following adoption of the resolution by the governing authority.

3. No exemption shall be granted until the governing authority holds a public hearing for the purpose of obtaining the opinions and suggestions of residents of political subdivisions to be affected by the exemption from property taxes. The governing authority shall send, by certified mail, a notice of such hearing to each political subdivision in the area to be affected and shall publish notice of such hearing in a newspaper of general circulation in the area to be affected by the exemption at least twenty days prior to the hearing but not more than thirty days prior to the hearing. Such notice shall state the time, location, date, and purpose of the hearing.

4. Notwithstanding subsection 1 of this section, at least one-half of the ad valorem taxes otherwise imposed on subsequent improvements to real property located in an enhanced enterprise zone **of enhanced business enterprises or speculative industrial or warehouse buildings as indicated in subsection 1 of this section** shall become and remain exempt from assessment and payment of ad valorem taxes of any political subdivision of this state or municipality thereof for a period of not less than ten years following the date such improvements were assessed, provided the improved properties are used for enhanced business enterprises. **The exemption for speculative buildings is subject to the approval of the governing authority for a period not to exceed two years, if the building is owned by a private entity and five years if the building is owned or ground leased by a public entity. This shall not preclude the building receiving an exemption for the remaining time period established by the governing authority if it was occupied by an enhanced business enterprise. The two and five year time periods indicated for speculative buildings shall not be an addition to the local abatement time period for such facility.**

5. No exemption shall be granted for a period more than twenty-five years following the date on which the original enhanced enterprise zone was designated by the department.

6. The provisions of subsection 1 of this section shall not apply to improvements made to real property begun prior to August 28, 2004.

7. The abatement referred to in this section shall not relieve the assessor or other responsible official from ascertaining the amount of the equalized assessed value of all taxable property annually as required by section 99.855, 99.957, or 99.1042, RSMo, and shall not have the effect of reducing the payments in lieu of taxes referred to in subdivision (2) of subsection 1 of section 99.845, RSMo, subdivision (2) of subsection 3 of section 99.957, RSMo, or subdivision (2) of subsection 3 of section 99.1042, RSMo, unless such reduction is set forth in the plan approved by the governing body of the municipality pursuant to subdivision (1) of subsection 1 of section 99.820, section 99.942, or section 99.1027, RSMo.

135.967. TAX CREDIT ALLOWED, DURATION — PROHIBITION ON RECEIVING OTHER TAX CREDITS — LIMITATIONS ON ISSUANCE OF TAX CREDITS — CAP — ELIGIBILITY OF

CERTAIN EXPANSIONS — EMPLOYEE CALCULATIONS — COMPUTATION OF CREDIT — FLOW-THROUGH TAX TREATMENTS — CREDITS MAY BE CLAIMED, WHEN — CERTIFICATES — REFUNDS — VERIFICATION PROCEDURES.

1. A taxpayer who establishes a new business facility may, upon approval by the department, be allowed a credit, each tax year for up to ten tax years, in an amount determined as set forth in this section, against the tax imposed by chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo. No taxpayer shall receive multiple ten-year periods for subsequent expansions at the same facility.

2. Notwithstanding any provision of law to the contrary, any taxpayer who establishes a new business facility in an enhanced enterprise zone and is awarded state tax credits under this section may not also receive tax credits under sections 135.100 to 135.150, sections 135.200 to 135.268, or section 135.535.

3. No credit shall be issued pursuant to this section unless:

(1) The number of new business facility employees engaged or maintained in employment at the new business facility for the taxable year for which the credit is claimed equals or exceeds two; and

(2) The new business facility investment for the taxable year for which the credit is claimed equals or exceeds one hundred thousand dollars.

4. The annual amount of credits allowed for an approved enhanced business enterprise shall be the lesser of:

(1) The annual amount authorized by the department for the enhanced business enterprise, which shall be limited to the projected state economic benefit, as determined by the department; or

(2) The sum calculated based upon the following:

(a) A credit of four hundred dollars for each new business facility employee employed within an enhanced enterprise zone;

(b) An additional credit of four hundred dollars for each new business facility employee who is a resident of an enhanced enterprise zone;

(c) An additional credit of four hundred dollars for each new business facility employee who is paid by the enhanced business enterprise a wage that exceeds the average wage paid within the county in which the facility is located, as determined by the department; and

(d) A credit equal to two percent of new business facility investment within an enhanced enterprise zone.

5. Prior to January 1, 2007, in no event shall the department authorize more than four million dollars annually to be issued for all enhanced business enterprises. After December 31, 2006, in no event shall the department authorize more than [seven] **fourteen** million dollars annually to be issued for all enhanced business enterprises.

6. If a facility, which does not constitute a new business facility, is expanded by the taxpayer, the expansion shall be considered eligible for the credit allowed by this section if:

(1) The taxpayer's new business facility investment in the expansion during the tax period in which the credits allowed in this section are claimed exceeds one hundred thousand dollars and if the number of new business facility employees engaged or maintained in employment at the expansion facility for the taxable year for which credit is claimed equals or exceeds two, and the total number of employees at the facility after the expansion is at least two greater than the total number of employees before the expansion; and

(2) The taxpayer's investment in the expansion and in the original facility prior to expansion shall be determined in the manner provided in subdivision [(12)] **(14)** of section 135.950.

7. The number of new business facility employees during any taxable year shall be determined by dividing by twelve the sum of the number of individuals employed on the last business day of each month of such taxable year. If the new business facility is in operation for less than the entire taxable year, the number of new business facility employees shall be determined by dividing the sum of the number of individuals employed on the last business day of each full calendar month during the portion of such taxable year during which the new

business facility was in operation by the number of full calendar months during such period. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility under subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision [(12)] (14) of section 135.950, or subdivision [(16)] (22) of section 135.950, the number of new business facility employees at such facility shall be reduced by the average number of individuals employed, computed as provided in this subsection, at the facility during the taxable year immediately preceding the taxable year in which such expansion, acquisition, or replacement occurred and shall further be reduced by the number of individuals employed by the taxpayer or related taxpayer that was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

8. In the case where a new business facility employee who is a resident of an enhanced enterprise zone for less than a twelve-month period is employed for less than a twelve-month period, the credits allowed by paragraph (b) of subdivision (2) of subsection 4 of this section shall be determined by multiplying four hundred dollars by a fraction, the numerator of which is the number of calendar days during the taxpayer's tax year for which such credits are claimed, in which the employee was a resident of an enhanced enterprise zone, and the denominator of which is three hundred sixty-five.

9. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility pursuant to subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision [(12)] (14) of section 135.950 or subdivision [(16)] (22) of section 135.950, the amount of the taxpayer's new business facility investment in such facility shall be reduced by the average amount, computed as provided in subdivision [(12)] (14) of section 135.950 for new business facility investment, of the investment of the taxpayer, or related taxpayer immediately preceding such expansion or replacement or at the time of acquisition. Furthermore, the amount of the taxpayer's new business facility investment shall also be reduced by the amount of investment employed by the taxpayer or related taxpayer which was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

10. For a taxpayer with flow-through tax treatment to its members, partners, or shareholders, the credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the taxpayer's tax period.

11. Credits may not be carried forward but shall be claimed for the taxable year during which commencement of commercial operations occurs at such new business facility, and for each of the nine succeeding taxable years for which the credit is issued.

12. Certificates of tax credit authorized by this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department. The sale price cannot be less than seventy-five percent of the par value of such credits.

13. The director of revenue shall issue a refund to the taxpayer to the extent that the amount of credits allowed in this section exceeds the amount of the taxpayer's income tax.

14. Prior to the issuance of tax credits, the department shall verify through the department of revenue, or any other state department, that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits,

except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance, or any other state department, concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

For purposes of this section, "direct care services" include but are not limited to increasing the quality of care and service for children through improved employee compensation and training;

Any agency that operates more than one facility or at more than one location shall be eligible for the tax credit under this section only for any eligible donation made to facilities or locations of the agency which are licensed and accredited;
- (5) "Taxpayer", any of the following individuals or entities who make an eligible donation to an agency:

3. For all taxable years beginning on or after January 1, 2007, any taxpayer shall be allowed a credit against the taxes otherwise due under chapter 147, 148, or 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo, in an amount equal to fifty percent of the amount of an eligible donation, subject to the restrictions in this section. The

amount of the tax credit claimed shall not exceed the amount of the taxpayer's state income tax liability in the tax year for which the credit is claimed. Any amount of credit that the taxpayer is prohibited by this section from claiming in a tax year shall not be refundable, but may be carried forward to any of the taxpayer's four subsequent taxable years.

4. To claim the credit authorized in this section, an agency may submit to the department an application for the tax credit authorized by this section on behalf of taxpayers. The department shall verify that the agency has submitted the following items accurately and completely:

- (1) A valid application in the form and format required by the department;
- (2) A statement attesting to the eligible donation received, which shall include the name and taxpayer identification number of the individual making the eligible donation, the amount of the eligible donation, and the date the eligible donation was received by the agency; and
- (3) Payment from the agency equal to the value of the tax credit for which application is made.

If the agency applying for the tax credit meets all criteria required by this subsection, the department shall issue a certificate in the appropriate amount.

5. An agency may apply for tax credits in an aggregate amount that does not exceed forty percent of the payments made by the department to the agency in the preceding twelve months.

Whenever a certificate is assigned, transferred, sold, or otherwise conveyed, a notarized endorsement shall be filed with the department specifying the name and address of the new owner of the tax credit or the value of the credit.

7. The department shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

8. Under section 23.253, RSMo, of the Missouri sunset act:

- (1) The provisions of the new program authorized under this section shall automatically sunset six years after August 28, 2006, unless reauthorized by an act of the general assembly; and
- (2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and
- (3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

(1) Motor fuel or special fuel subject to an excise tax of this state, unless all or part of such excise tax is refunded pursuant to section 142.824, RSMo; or upon the sale at retail of fuel to be consumed in manufacturing or creating gas, power, steam, electrical current or in furnishing water to be sold ultimately at retail; or feed for livestock or poultry; or grain to be converted into foodstuffs which are to be sold ultimately in processed form at retail; or seed, limestone or fertilizer which is to be used for seeding, liming or fertilizing crops which when harvested will be sold at retail or will be fed to livestock or poultry to be sold ultimately in processed form at retail; economic poisons registered pursuant to the provisions of the Missouri pesticide registration law (sections 281.220 to 281.310, RSMo) which are to be used in connection with the growth or production of crops, fruit trees or orchards applied before, during, or after planting, the crop of which when harvested will be sold at retail or will be converted into foodstuffs which are to be sold ultimately in processed form at retail;

The material recovery processing plant shall qualify under the provisions of this section regardless of ownership of the material being recovered;

(5) Machinery and equipment, and parts and the materials and supplies solely required for the installation or construction of such machinery and equipment, purchased and used to establish new or to expand existing manufacturing, mining or fabricating plants in the state if such machinery and equipment is used directly in manufacturing, mining or fabricating a product which is intended to be sold ultimately for final use or consumption;

2. For tax years beginning on or after January 1, 2001, the director of the department of economic development may authorize a taxpayer to receive a tax credit against the tax otherwise due pursuant to chapter 143, RSMo, or chapter 148, RSMo, other than the taxes withheld pursuant to sections 143.191 to 143.265, RSMo, in an amount up to six and one-half percent of the excess of the taxpayer's qualified research expenses, as certified by the director of the department of economic development, within this state during the taxable year over the average of the taxpayer's qualified research expenses within this state over the immediately preceding three taxable years; except that, no tax credit shall be allowed on that portion of the taxpayer's qualified research expenses incurred within this state during the taxable year in which the credit is being claimed, to the extent such expenses exceed two hundred percent of the taxpayer's average qualified research expenses incurred during the immediately preceding three taxable years.

The tax credit authorized by this section may be claimed by the taxpayer to offset the tax liability imposed by chapter 143, RSMo, or chapter 148, RSMo, that becomes due in the tax year during which such qualified research expenses were incurred. Where the amount of the credit exceeds the tax liability, the difference between the credit and the tax liability may only be carried forward for the next five succeeding taxable years or until the full credit has been claimed, whichever first occurs. A qualified company may receive additional periods for subsequent new jobs at the same facility after the full initial period if the minimum thresholds are met as set forth in sections 620.1875 to 620.1890. There is no limit on the number of periods a qualified company may participate in the program, as long as the minimum thresholds are achieved and the qualified company provides the department with the required reporting and is in proper compliance for this program or other state programs. A qualified company may elect to file a notice of intent to start a new project period concurrent with an existing project period if the minimum thresholds are achieved and the qualified company provides the department with the required reporting and is in proper compliance for this program and other state programs; however, the qualified company may not receive any further benefit under the original [proposal] **approval** for jobs created after the date of the new notice of intent, and any jobs created before the new notice of intent may not be included as new jobs for the purpose of benefit calculation in relation to the new [proposal] **approval**.

2. Notwithstanding any provision of law to the contrary, any qualified company that is awarded benefits under this program may not [also] **simultaneously** receive tax credits or exemptions under sections 135.100 to 135.150, sections 135.200 to 135.286, section 135.535, or sections 135.900 to 135.906, RSMo, [for the same new jobs] at the **same** project facility. The benefits available to the company under any other state programs for which the company is eligible and which utilize withholding tax from the new jobs of the company must first be credited to the other state program before the withholding retention level applicable under the Missouri quality jobs act will begin to accrue. These other state programs include, but are not limited to, the new jobs training program under sections 178.892 to 178.896, RSMo, the job

retention program under sections 178.760 to 178.764, RSMo, the real property tax increment allocation redevelopment act, sections 99.800 to 99.865, RSMo, or the Missouri downtown and rural economic stimulus act under sections 99.915 to 99.980, RSMo. If any qualified company also participates in the new jobs training program in sections 178.892 to 178.896, RSMo, the company shall retain no withholding tax, but the department shall issue a refundable tax credit for the full amount of benefit allowed under this subdivision. **The calendar year annual maximum amount of tax credits which may be issued to a qualifying company that also participates in the new job training program shall be increased by an amount equivalent to the withholding tax retained by that company under the new jobs training program. However, if the combined benefits of the quality jobs program and the new jobs training program exceed the projected state benefit of the project, as determined by the department of economic development through a cost-benefit analysis, the increase in the maximum tax credits shall be limited to the amount that would not cause the combined benefits to exceed the projected state benefit. Any taxpayer who is awarded benefits under this program who knowingly hires individuals who are not allowed to work legally in the United States shall immediately forfeit such benefits and shall repay the state an amount equal to any state tax credits already redeemed and any withholding taxes already retained.**

3. The types of projects and the amount of benefits to be provided are:

(1) Small and expanding business projects: in exchange for the consideration provided by the new tax revenues and other economic [stimulus] **stimuli** that will be generated by the new jobs created by the program, a qualified company may retain an amount equal to the withholding tax **as calculated under subdivision (32) of section 620.1878** from the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, for a period of three years from the date the required number of new jobs were created if the average wage of the new payroll equals or exceeds the county average wage or for a period of five years from the date the required number of new jobs were created if the average wage of the new payroll equals or exceeds one hundred twenty percent of the county average wage;

(2) Technology business projects: in exchange for the consideration provided by the new tax revenues and other economic [stimulus] **stimuli** that will be generated by the new jobs created by the program, a qualified company may retain an amount equal to a maximum of five percent of new payroll for a period of five years from the date the required number of jobs were created from the withholding tax of the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, if the average wage of the new payroll equals or exceeds the county average wage. An additional one-half percent of new payroll may be added to the five percent maximum if the average wage of the new payroll in any year exceeds one hundred twenty percent of the county average wage in the county in which the project facility is located, plus an additional one-half percent of new payroll may be added if the average wage of the new payroll in any year exceeds one hundred forty percent of the average wage in the county in which the project facility is located. The department shall issue a refundable tax credit for any difference between the amount of benefit allowed under this subdivision and the amount of withholding tax retained by the company, in the event the withholding tax is not sufficient to provide the entire amount of benefit due to the qualified company under this subdivision. The calendar year annual maximum amount of tax credits that may be issued to any qualified company for a project or combination of projects is five hundred thousand dollars;

(3) High impact projects: in exchange for the consideration provided by the new tax revenues and other economic [stimulus] **stimuli** that will be generated by the new jobs created by the program, a qualified company may retain an amount from the withholding tax of the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, equal to three percent of new payroll for a

period of five years from the date the required number of jobs were created if the average wage of the new payroll equals or exceeds the county average wage of the county in which the project facility is located. The percentage of payroll allowed under this subdivision shall be three and one-half percent of new payroll if the average wage of the new payroll in any year exceeds one hundred twenty percent of the county average wage in the county in which the project facility is located. The percentage of payroll allowed under this subdivision shall be four percent of new payroll if the average wage of the new payroll in any year exceeds one hundred forty percent of the county average wage in the county in which the project facility is located. An additional one percent of new payroll may be added to these percentages if local incentives equal between ten percent and twenty-four percent of the new direct local revenue; an additional two percent of new payroll is added to these percentages if the local incentives equal between twenty-five percent and forty-nine percent of the new direct local revenue; or an additional three percent of payroll is added to these percentages if the local incentives equal fifty percent or more of the new direct local revenue. The department shall issue a refundable tax credit for any difference between the amount of benefit allowed under this subdivision and the amount of withholding tax retained by the company, in the event the withholding tax is not sufficient to provide the entire amount of benefit due to the qualified company under this subdivision. The calendar year annual maximum amount of tax credits that may be issued to any qualified company for a project or combination of projects is seven hundred fifty thousand dollars. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a project or combination of projects may be increased up to one million dollars **if the number of new jobs will exceed five hundred and** if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development. In considering such a request, the task force shall rely on economic modeling and other information supplied by the department when requesting the increased limit on behalf of the project;

(4) Job retention projects: a qualified company may receive a tax credit for the retention of jobs in this state, provided the qualified company and the project meets all of the following conditions:

(a) For each of the twenty-four months preceding the year in which application for the program is made the qualified company must have maintained at least one thousand full-time[, year-round] employees at the employer's site in the state at which the jobs are based, and the average wage of such employees must meet or exceed the county average wage;

(b) The qualified company retained at the project facility the level of full-time[, year-round] employees that existed in the taxable year immediately preceding the year in which application for the program is made;

(c) The qualified company is considered to have a significant statewide effect on the economy, and has been determined to represent a substantial risk of relocation from the state by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development;

(d) The qualified company in the project facility will cause to be invested a minimum of seventy million dollars in new investment prior to the end of two years or will cause to be invested a minimum of thirty million dollars in new investment prior to the end of two years and maintain an annual payroll of at least seventy million dollars during each of the years for which a credit is claimed; and

(e) The local taxing entities shall provide local incentives of at least fifty percent of the new direct local revenues created by the project over a ten-year period.

The quality jobs advisory task force may recommend to the department of economic development that appropriate penalties be applied to the company for violating the agreement. The amount of the job retention credit granted may be equal to up to fifty percent of the amount of withholding tax generated by the full-time[, year-round] jobs at the project facility for a period of five years. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a job retention project or combination of job retention projects shall be seven hundred fifty thousand dollars per year, but the maximum amount may be increased up to one million dollars if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development. In considering such a request, the task force shall rely on economic modeling and other information supplied by the department when requesting the increased limit on behalf of the job retention project. In no event shall the total amount of all tax credits issued for the entire job retention program under this subdivision exceed three million dollars annually. Notwithstanding the above, no tax credits shall be issued for job retention projects approved by the department after August 30, 2007;

(5) Small business job retention and flood survivor relief: a qualified company may receive a tax credit under sections 620.1875 to 620.1890 for the retention of jobs and flood survivor relief in this state for each job retained over a three-year period, provided that:

(a) The qualified company did not receive any state or federal benefits, incentives, or tax relief or abatement in locating its facility in a flood plain;

(b) The qualified company and related companies have fewer than one hundred employees at the time application for the program is made;

(c) The average wage of the qualified company's and related companies' employees must meet or exceed the county average wage;

(d) All of the qualified company's and related companies' facilities are located in this state;

(e) The facilities at the primary business site in this state have been directly damaged by flood water rising above the level of a five hundred year flood at least two years, but fewer than eight years, prior to the time application is made;

(f) The qualified company made significant efforts to protect the facilities prior to any impending danger from rising floodwaters;

(g) For each year it receives tax credits under sections 620.1875 to 620.1890, the qualified company and related companies retained, at the company's facilities in this state, at least the level of full-time, year- round employees that existed in the taxable year immediately preceding the year in which application for the program is made; and

(h) In the years it receives tax credits under sections 620.1875 to 620.1890, the company cumulatively invests at least two million dollars in capital improvements in facilities and equipment located at such facilities that are not located within a five hundred year flood plain as designated by the Federal Emergency Management Agency, and amended from time to time.

The amount of the small business job retention and flood survivor relief credit granted may be equal to up to one hundred percent of the amount of withholding tax generated by the full-time jobs at the project facility for a period of three years. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a small business job retention and survivor relief project shall be two hundred fifty thousand dollars per year, but the maximum amount may be increased up to five hundred thousand dollars if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887. In considering such a request, the task force shall rely on economic modeling and other information supplied by

the department when requesting an increase in the limit on behalf of the small business job retention and flood survivor relief project. In no event shall the total amount of all tax credits issued for the entire small business job retention and flood survivor relief program under this subdivision exceed five hundred thousand dollars annually. Notwithstanding the provisions of this subdivision to the contrary, no tax credits shall be issued for small business job retention and flood survivor relief projects approved by the department after August 30, 2010.

4. The qualified company shall provide an annual report of the number of jobs and such other information as may be required by the department to document the basis for the benefits of this program. The department may withhold the approval of any benefits until it is satisfied that proper documentation has been provided, and shall reduce the benefits to reflect any reduction in full-time[, year-round] employees or new payroll. Upon approval by the department, the qualified company may begin the retention of the withholding taxes when it reaches the minimum number of new jobs and the average wage exceeds the county average wage. Tax credits, if any, may be issued upon satisfaction by the department that the qualified company has exceeded the county average wage and the minimum number of new jobs. In such annual report, if the average wage is below the county average wage, the qualified company has not maintained the employee insurance as required, or if the number of new jobs is below the minimum, the qualified company shall not receive tax credits or retain the withholding tax for the balance of the benefit period. In the case of a qualified company that initially filed a notice of intent and received an approval from the department for high impact benefits and the minimum number of new jobs in an annual report is below the minimum for high impact projects, the company shall not receive tax credits for the balance of the benefit period but may continue to retain the withholding taxes if it otherwise meets the requirements of a small and expanding business under this program.

5. The maximum calendar year annual tax credits issued for the entire program shall not exceed [twelve] **forty** million dollars. Notwithstanding any provision of law to the contrary, the maximum annual tax credits authorized under section 135.535, RSMo, are hereby reduced from ten million dollars to eight million dollars, with the balance of two million dollars transferred to this program. There shall be no limit on the amount of withholding taxes that may be retained by approved companies under this program.

6. The department shall allocate the annual tax credits based on the date of the [proposal] **approval**, reserving such tax credits based on the department's best estimate of new jobs and new payroll of the project, and the other factors in the determination of benefits of this program. However, the annual issuance of tax credits is subject to the annual verification of the actual new payroll. The allocation of tax credits for the period assigned to a project shall expire if, within two years from the date of commencement of operations, or [proposal] **approval** if applicable, the minimum thresholds have not been achieved. The qualified company may retain authorized amounts from the withholding tax under this section once the minimum new jobs thresholds are met for the duration of the project period. No benefits shall be provided under this program until the qualified company meets the minimum new jobs thresholds. In the event the qualified company does not meet the minimum new job threshold, the qualified company may submit a new notice of intent or the department may provide a new [proposal] **approval** for a new project of the qualified company at the project facility or other facilities.

7. For a qualified company with flow-through tax treatment to its members, partners, or shareholders, the tax credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the qualified company's tax period.

8. Tax credits may be claimed against taxes otherwise imposed by chapters 143 and 148, RSMo, and may not be carried forward but shall be claimed within one year of the close of the taxable year for which they were issued, **except as provided under subdivision (4) of subsection 3 of this section.**

9. Tax credits authorized by this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department.

10. **Prior to the issuance of tax credits, the department shall verify through the department of revenue, or any other state department, that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits, except that at issuance credits shall be first applied to the delinquency and any amount issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance, or any other state department, concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.**

11. **Except as provided under subdivision (4) of subsection 3 of this section,** the director of revenue shall issue a refund to the qualified company to the extent that the amount of credits allowed in this section exceeds the amount of the qualified company's income tax.

[11.] 12. An employee of a qualified company will receive full credit for the amount of tax withheld as provided in section [143.221] **143.211**, RSMo.

[12.] 13. If any provision of sections 620.1875 to 620.1890 or application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or application of these sections which can be given effect without the invalid provisions or application, and to this end, the provisions of sections 620.1875 to 620.1890 are hereby declared severable.

(1) By ordinance introduced in the governing body of the municipality within fourteen to ninety days from the completion of the hearing required in section 99.825, approve redevelopment plans and redevelopment projects, and designate redevelopment project areas pursuant to the notice and hearing requirements of sections 99.800 to 99.865. No redevelopment project shall be approved unless a redevelopment plan has been approved and a redevelopment area has been designated prior to or concurrently with the approval of such redevelopment project and the area selected for the redevelopment project shall include only those parcels of real property and improvements thereon directly and substantially benefited by the proposed redevelopment project improvements;

(2) Make and enter into all contracts necessary or incidental to the implementation and furtherance of its redevelopment plan or project;

necessary to achieve the objectives of the redevelopment plan. No conveyance, lease, mortgage, disposition of land or other property, acquired by the municipality, or agreement relating to the development of the property shall be made except upon the adoption of an ordinance by the governing body of the municipality. Each municipality or its commission shall establish written procedures relating to bids and proposals for implementation of the redevelopment projects. Furthermore, no conveyance, lease, mortgage, or other disposition of land or agreement relating to the development of property shall be made without making public disclosure of the terms of the disposition and all bids and proposals made in response to the municipality's request. Such procedures for obtaining such bids and proposals shall provide reasonable opportunity for any person to submit alternative proposals or bids;

(b) Surplus economic activity taxes shall be distributed to taxing districts in the redevelopment area which impose economic activity taxes, on a basis that is proportional to the amount of such economic activity taxes the taxing district would have received from the redevelopment area had tax increment financing not been adopted;

(c) Surplus revenues, other than payments in lieu of taxes and economic activity taxes, deposited in the special allocation fund, shall be distributed on a basis that is proportional to the total receipt of such other revenues in such account in the year prior to disbursement;

(13) If any member of the governing body of the municipality, a member of a commission established pursuant to subsection 2 of this section, or an employee or consultant of the municipality, involved in the planning and preparation of a redevelopment plan, or redevelopment project for a redevelopment area or proposed redevelopment area, owns or controls an interest, direct or indirect, in any property included in any redevelopment area, or proposed redevelopment area, which property is designated to be acquired or improved pursuant to a redevelopment project, he or she shall disclose the same in writing to the clerk of the municipality, and shall also so disclose the dates, terms, and conditions of any disposition of any such interest, which disclosures shall be acknowledged by the governing body of the municipality and entered upon the minutes books of the governing body of the municipality. If an individual holds such an interest, then that individual shall refrain from any further official involvement in regard to such redevelopment plan, redevelopment project or redevelopment area, from voting on any matter pertaining to such redevelopment plan, redevelopment project or redevelopment area, or communicating with other members concerning any matter pertaining

to that redevelopment plan, redevelopment project or redevelopment area. Furthermore, no such member or employee shall acquire any interest, direct or indirect, in any property in a redevelopment area or proposed redevelopment area after either (a) such individual obtains knowledge of such plan or project, or (b) first public notice of such plan, project or area pursuant to section 99.830, whichever first occurs;

(14) Charge as a redevelopment cost the reasonable costs incurred by its clerk or other official in administering the redevelopment project. The charge for the clerk's or other official's costs shall be determined by the municipality based on a recommendation from the commission, created pursuant to this section.

2. Prior to adoption of an ordinance approving the designation of a redevelopment area or approving a redevelopment plan or redevelopment project, the municipality shall create a commission of nine persons if the municipality is a county or a city not within a county and not a first class county with a charter form of government with a population in excess of nine hundred thousand, and eleven persons if the municipality is not a county and not in a first class county with a charter form of government having a population of more than nine hundred thousand, and twelve persons if the municipality is located in or is a first class county with a charter form of government having a population of more than nine hundred thousand, to be appointed as follows:

(1) In all municipalities two members shall be appointed by the school boards whose districts are included within the redevelopment plan or redevelopment area. Such members shall be appointed in any manner agreed upon by the affected districts;

(3) In all municipalities six members shall be appointed by the chief elected officer of the municipality, with the consent of the majority of the governing body of the municipality;

(4) In all municipalities which are not counties and not in a first class county with a charter form of government having a population in excess of nine hundred thousand, two members shall be appointed by the county of such municipality in the same manner as members are appointed in subdivision (3) of this subsection;

(5) In a municipality which is a county with a charter form of government having a population in excess of nine hundred thousand, three members shall be appointed by the cities in the county which have tax increment financing districts in a manner in which the cities shall agree;

(6) In a municipality which is located in the first class county with a charter form of government having a population in excess of nine hundred thousand, three members shall be appointed by the county of such municipality in the same manner as members are appointed in subdivision (3) of this subsection;

(7) Effective January 1, 2008, in a municipality which is in a county under the authority of the East-West Gateway Council of Governments, except any municipality in any county of the first classification with more than ninety-three thousand eight hundred but fewer than ninety-three thousand nine hundred inhabitants, the municipality shall create a commission in the same manner as the commission for any county with a charter form of government and with more than one million inhabitants, such commission shall have twelve members with two such members appointed by the school boards whose districts are included in the county in a manner in which such school boards agree, with one such member to represent all other districts levying ad valorem taxes in a manner in which all such districts agree, six such members appointed either by the county executive or county commissioner, and three such members appointed by the cities in the county which have tax increment financing districts in a manner in which the cities shall agree;

(8) Effective January 1, 2008, when any city, town, or village under the authority of the East-West Gateway Council of Governments desires to implement a tax increment financing project, such city, town, or village shall first obtain the permission of the county tax increment financing commission created in this subsection within which the city, town, or village is located. In the event such commission votes in opposition to the redevelopment project, such redevelopment project shall not be approved unless at least two-thirds of the governing body of the city, town, or village votes to approve such project;

(9) At the option of the members appointed by the municipality, the members who are appointed by the school boards and other taxing districts may serve on the commission for a term to coincide with the length of time a redevelopment project, redevelopment plan or designation of a redevelopment area is considered for approval by the commission, or for a definite term pursuant to this subdivision. If the members representing school districts and other taxing districts are appointed for a term coinciding with the length of time a redevelopment project, plan or area is approved, such term shall terminate upon final approval of the project, plan or designation of the area by the governing body of the municipality. Thereafter the commission shall consist of the six members appointed by the municipality, except that members representing school boards and other taxing districts shall be appointed as provided in this section prior to any amendments to any redevelopment plans, redevelopment projects or designation of a redevelopment area. If any school district or other taxing jurisdiction fails to appoint members of the commission within thirty days of receipt of written notice of a proposed redevelopment plan, redevelopment project or designation of a redevelopment area, the remaining members may proceed to exercise the power of the commission. Of the members first appointed by the municipality, two shall be designated to serve for terms of two years, two shall be designated to serve for a term of three years and two shall be designated to serve for a term of four years from the date of such initial appointments. Thereafter, the members appointed by the municipality shall serve for a term of four years, except that all vacancies shall be filled for unexpired terms in the same manner as were the original appointments.

3. The commission, subject to approval of the governing body of the municipality, may exercise the powers enumerated in sections 99.800 to 99.865, except final approval of plans, projects and designation of redevelopment areas. The commission shall hold public hearings and provide notice pursuant to sections 99.825 and 99.830. The commission shall vote on all proposed redevelopment plans, redevelopment projects and designations of redevelopment areas, and amendments thereto, within thirty days following completion of the hearing on any such plan, project or designation and shall make recommendations to the governing body within ninety days of the hearing referred to in section 99.825 concerning the adoption of or amendment to redevelopment plans and redevelopment projects and the designation of redevelopment areas. The requirements of subsection 2 of this section and this subsection shall not apply to redevelopment projects upon which the required hearings have been duly held prior to August 31, 1991.]

Any person, firm, or corporation who resells or offers to resell any ticket for admission, or any other evidence of the right of entry, to any public sporting event for a price in excess of the price printed on the ticket is guilty of the offense of ticket scalping. For purposes of this section, if a seller requires, as a precondition of the resale of a ticket, the purchase or rental of other goods or services at a price in excess of the fair market value of such goods or services, the excess amount shall be deemed to be part of the purchase price of the ticket.

2. Nothing in this section shall prohibit nor shall be deemed to prohibit a seller, with consent of the sponsor of such sporting event, from collecting a reasonable service charge from a ticket purchaser in return for services actually rendered.

AN ACT to repeal section 227.107, RSMo, and to enact in lieu thereof one new section relating to state highways and transportation commission design-build state highway project bond requirements, with an emergency clause.

SECTION

- A. Enacting clause.
- 227.107. Design-build project contracts permitted, limitations, definitions — written procedures required — submission of detailed disadvantaged business enterprise participation plan — bid process — rulemaking authority — status report to general assembly — cost estimates to be published.
- B. Emergency Clause

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 227.107, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 227.107, to read as follows:

227.107. DESIGN-BUILD PROJECT CONTRACTS PERMITTED, LIMITATIONS, DEFINITIONS — WRITTEN PROCEDURES REQUIRED — SUBMISSION OF DETAILED DISADVANTAGED BUSINESS ENTERPRISE PARTICIPATION PLAN — BID PROCESS — RULEMAKING AUTHORITY — STATUS REPORT TO GENERAL ASSEMBLY — COST ESTIMATES TO BE PUBLISHED. — 1. Notwithstanding any provision of section 227.100 to the contrary, as an alternative to the requirements and procedures specified by sections 227.040 to 227.100, the state highways and transportation commission is authorized to enter into highway design-build project contracts. The authority granted to the state highways and transportation commission by this section shall be limited to a total of three design-build project contracts. Two design-build projects authorized by this section shall be selected by the highways and transportation commission from 1992 fifteen year plan projects. Authority to enter into design-build projects granted by this section shall expire on July 1, 2012, unless extended by statute or upon completion of three projects, whichever is first.

2. For the purpose of this section a "design-builder" is defined as an individual, corporation, partnership, joint venture or other entity, including combinations of such entities making a proposal to perform or performing a design-build highway project contract.

3. For the purpose of this section, "design-build highway project contract" is defined as the procurement of all materials and services necessary for the design, construction, reconstruction

or improvement of a state highway project in a single contract with a design-builder capable of providing the necessary materials and services.

4. For the purpose of this section, "highway project" is defined as the design, construction, reconstruction or improvement of highways or bridges under contract with the state highways and transportation commission, which is funded by state, federal or local funds or any combination of such funds.

5. In using a design-build highway project contract, the commission shall establish a written procedure by rule for prequalifying design-builders before such design-builders will be allowed to make a proposal on the project.

6. In any design-build highway project contract, whether involving state or federal funds, the commission shall require that each person submitting a request for qualifications provide a detailed disadvantaged business enterprise participation plan. The plan shall provide information describing the experience of the person in meeting disadvantaged business enterprise participation goals, how the person will meet the department of transportation's disadvantaged business enterprise participation goal and such other qualifications that the commission considers to be in the best interest of the state.

7. The commission is authorized to issue a request for proposals to a maximum of five design-builders prequalified in accordance with subsection 5 of this section.

8. The commission may require approval of any person performing subcontract work on the design-build highway project.

9. The bid bond and performance bond requirements of section 227.100 and the payment bond requirements of section 107.170, RSMo, shall apply to the design-build highway project.

10. **The requirements of subsection 9 of this section may be modified by the commission for any design-build highway project contract which is designated by the commission as a "design-build-finance-maintain" project, and for which the contract with the design-builder exceeds twenty-five years. For such projects, the commission shall require the design-builder to provide, or cause to be provided by the construction entity or entities providing construction services under contract to the design-builder directly, such bonds, or such other security, in such terms, durations, and amounts as the commission may determine to be adequate for its protection and provided by a surety, sureties, or financial institution or institutions satisfactory to the commission, including but not limited to:**

(1) A bid or proposal bond, or other security authorized under subsection 2 of section 227.100, in an amount of not less than five million dollars;

(2) A performance bond or bonds for the construction period specified in the design-build highway project contract in an aggregate amount of not less than two hundred million dollars or twenty-five percent of a reasonable estimate of the cost of construction work, whichever amount is lower, except the commission may allow other security in lieu of or in addition to any bond or bonds, including but not limited to letters of credit or other negotiable instruments, such other or additional security to be on such terms, for such durations, and in such amounts as the commission may determine to be adequate for the protection of the commission, and to be provided by sureties or financial institutions satisfactory to the commission; and

(3) A payment bond or bonds that shall be enforceable under section 522.300, RSMo, for the protection of persons supplying labor and material in carrying out the construction work provided for in the design-build highway project contract. The aggregate amount of the payment bond or bonds shall equal a reasonable estimate of the total amount payable for the cost of construction work under the terms of the design-build highway project contract unless the commission determines in writing supported by specific findings that a payment bond or bonds in such amount is impractical, in which case the commission shall establish the amount of the payment bond or bonds; except that the amount of the payment bond or bonds shall not be less than the aggregate amount of the

performance bond or bonds and the additional security to such performance bond or bonds, or in the amount of the other security used in lieu of the performance bond or bonds.

11. The commission is authorized to prescribe the form of the contracts for the work.

[11.] **12.** The commission is empowered to make all final decisions concerning the performance of the work under the design-build highway project contract, including claims for additional time and compensation.

[12.] **13.** The provisions of sections 8.285 to 8.291, RSMo, shall not apply to the procurement of architectural, engineering or land surveying services for the design-build highway project, except that any person providing architectural, engineering or land surveying services for the design-builder on the design-build highway project must be licensed in Missouri to provide such services.

[13.] **14.** The commission shall pay a reasonable stipend to prequalified responsive design-builders who submit a proposal, but are not awarded the design-build highway project.

[14.] **15.** The commission shall comply with the provisions of any act of congress or any regulations of any federal administrative agency which provides and authorizes the use of federal funds for highway projects using the design-build process.

[15.] **16.** The commission shall promulgate administrative rules to implement this section or to secure federal funds. Such rules shall be published for comment in the Missouri Register and shall include prequalification criteria, the make-up of the prequalification review team, specifications for the design criteria package, the method of advertising, receiving and evaluating proposals from design-builders, the criteria for awarding the design-build highway project based on the design criteria package and a separate proposal stating the cost of construction, and other methods, procedures and criteria necessary to administer this section.

[16.] **17.** The commission shall make a status report to the members of the general assembly and the governor following the award of the design-build project, as an individual component of the annual report submitted by the commission to the joint transportation oversight committee in accordance with the provisions of section 21.795, RSMo. The annual report prior to advertisement of the design-build highway project contracts shall state the goals of the project in reducing costs and/or the time of completion for the project in comparison to the design-bid-build method of construction and objective measurements to be utilized in determining achievement of such goals. Subsequent annual reports shall include: the time estimated for design and construction of different phases or segments of the project and the actual time required to complete such work during the period; the amount of each progress payment to the design-builder during the period and the percentage and a description of the portion of the project completed regarding such payment; the number and a description of design change orders issued during the period and the cost of each such change order; upon substantial and final completion, the total cost of the design-build highway project with a breakdown of costs for design and construction; and such other measurements as specified by rule. The annual report immediately after final completion of the project shall state an assessment of the advantages and disadvantages of the design-build method of contracting for highway and bridge projects in comparison to the design-bid-build method of contracting and an assessment of whether the goals of the project in reducing costs and/or the time of completion of the project were met.

[17.] **18.** The commission shall give public notice of a request for qualifications in at least two public newspapers that are distributed wholly or in part in this state and at least one construction industry trade publication that is distributed nationally.

[18.] **19.** The commission shall publish its cost estimates of the design-build highway project award and the project completion date along with its public notice of a request for qualifications of the design-build project.

[19.] **20.** If the commission fails to receive at least two responsive submissions from design-builders considered qualified, submissions shall not be opened and it shall readvertise the project.

SECTION B. EMERGENCY CLAUSE.— Because immediate action is necessary to ensure public safety in the state, section A of this act is deemed necessary for the immediate preservation of the public health, welfare, peace, and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and section A of this act shall be in full force and effect upon its passage and approval.

Changes in federal law have diverted Child Support Enforcement Funds, which have come to states to support child support activities. Until the full impact of these changes is determined, diverting funding from core responsibilities of child support activities to mediation could undermine the child support program.

Prohibits any person who is in arrears for any unpaid city taxes or municipal-user fees from filing a declaration of intent to be a write-in candidate for election to any municipal office

AN ACT to repeal section 115.453, RSMo, and to enact in lieu thereof one new section relating to write-in candidates.

SECTION

A. Enacting clause.

115.453. Procedure for counting votes for candidates.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 115.453, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 115.453, to read as follows:

115.453. PROCEDURE FOR COUNTING VOTES FOR CANDIDATES. — Election judges shall count votes for all candidates in the following manner:

(1) No candidate shall be counted as voted for, except a candidate before whose name a cross (X) mark appears in the square preceding the name and a cross (X) mark does not appear in the square preceding the name of any candidate for the same office in another column. Except as provided in this subdivision and subdivision (2) of this section, each candidate with a cross (X) mark in the square preceding his or her name shall be counted as voted for.

(2) If cross (X) marks appear next to the names of more candidates for an office than are entitled to fill the office, no candidate for the office shall be counted as voted for. If more than one candidate is to be nominated or elected to an office, and any voter has voted for the same candidate more than once for the same office at the same election, no votes cast by the voter for the candidate shall be counted.

(3) No vote shall be counted for any candidate that is not marked substantially in accordance with the provisions of this section. The judges shall count votes marked substantially in accordance with this section and section 115.456 when the intent of the voter seems clear. Regulations promulgated by the secretary of state shall be used by the judges to determine voter intent. No ballot containing any proper votes shall be rejected for containing fewer marks than are authorized by law.

(4) Write-in votes shall be counted only for candidates for election to office who have filed a declaration of intent to be a write-in candidate for election to office with the proper election authority, who shall then notify the proper filing officer of the write-in candidate prior to 5:00 p.m. on the second Friday immediately preceding the election day; except that, write-in votes shall be counted only for candidates for election to state or federal office who have filed a declaration of intent to be a write-in candidate for election to state or federal office with the secretary of state pursuant to section 115.353 prior to 5:00 p.m. on the second Friday immediately preceding the election day. No person who filed as a party or independent candidate for nomination or election to an office may, without withdrawing as provided by law, file as a write-in candidate for election to the same office for the same term. No candidate who files for nomination to an office and is not nominated at a primary election may file a declaration of intent to be a write-in candidate for the same office at the general election. When declarations are properly filed with the secretary of state, the secretary of state shall promptly transmit copies of all such declarations to the proper election authorities for further action pursuant to this section.

The election authority shall furnish a list to the election judges and counting teams prior to election day of all write-in candidates who have filed such declaration. This subdivision shall not apply to elections wherein candidates are being elected to an office for which no candidate has filed. **No person shall file a declaration of intent to be a write-in candidate for election to any municipal office unless such person is qualified to be certified as a candidate under section 115.346.**

(5) Write-in votes shall be cast and counted for a candidate without party designation. Write-in votes for a person cast with a party designation shall not be counted. Except for candidates for political party committees, no candidate shall be elected as a write-in candidate unless such candidate receives a separate plurality of the votes without party designation regardless of whether or not the total write-in votes for such candidate under all party and without party designations totals a majority of the votes cast.

(6) When submitted to the election authority, each declaration of intent to be a write-in candidate for the office of United States president shall include the name of a candidate for vice president and the name of nominees for presidential elector equal to the number to which the state is entitled. At least one qualified resident of each congressional district shall be nominated as presidential elector. Each such declaration of intent to be a write-in candidate shall be accompanied by a declaration of candidacy for each presidential elector in substantially the form set forth in subsection 3 of section 115.399. Each declaration of candidacy for the office of presidential elector shall be subscribed and sworn to by the candidate before the election official receiving the declaration of intent to be a write-in, notary public or other officer authorized by law to administer oaths.

If such a lift request is received outside of normal business hours, the consumer credit reporting agency shall lift the security freeze within fifteen minutes of the start of the next normal business day.

(2) A consumer credit reporting agency shall temporarily lift a security freeze within three days of receiving such a request from a consumer, if that request is made in accordance with subdivisions (1), (3), and (4) of subsection 6 of this section.

(3) The time frame in which a consumer credit reporting agency shall comply with a request to lift a security freeze under this subsection may be extended in the event of an act of God, an unauthorized or illegal act by a third party, operational interruption due to electrical failure or hardware or software failure, government action, or reasonable unexpected maintenance of the agency's systems, provided that the lifting of a security freeze shall occur within a reasonable time after resumption of normal business operations.

8. A consumer credit reporting agency shall permanently remove a security freeze within three days of receiving such a request from a consumer, if that request is made:

(1) In writing, where delivery by standard U.S. Postal Service mail service shall be sufficient; or

(2) By reliable means, including, but not limited to, Internet, telephone, facsimile, or other electronic means if any such other means are provided by the consumer credit reporting agency; and

(3) Proper identification is presented to adequately identify the requestor as the consumer subject to the credit report, which shall include the unique personal identification number or password issued to the consumer under subsection 3 of this section.

9. A consumer credit reporting agency may assess a fee of up to five dollars to temporarily lift a security freeze, except that at no time shall a fee be assessed for a request to temporarily lift a security freeze that was placed in conjunction with an incident report under subsection 2 of this section. No fee shall be assessed for a request to permanently remove a security freeze.

10. At any time a consumer is required to receive a summary of rights under 15 U.S.C. Section 1681g(d), the following notice shall be included:

"Missouri Consumers Have the Right to Obtain a Security Freeze.

You have a right to place a "security freeze" on your credit report, which will prohibit a consumer credit reporting agency from releasing information in your credit report without your express authorization. A security freeze must be requested in writing by mail or via other approved methods. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, government services or payments, rental housing, employment, investment, license, cellular phone, utilities, digital signature, Internet credit card transaction, or other services, including an extension of credit at point of sale. When you place a security freeze on your credit report, you will be provided a personal identification number or password to use if you choose to remove the freeze on your credit report or authorize the release of your credit report for a period of time after the freeze is in place. To provide that authorization you must contact the consumer credit reporting agency and provide all of the following:

- (1) The personal identification number or password;
- (2) Proper identification to verify your identity;
- (3) The proper information regarding the period of time for which the report shall be available.

A consumer credit reporting agency must authorize the release of your credit report no later than fifteen minutes after receiving the above information, under certain circumstances.

A security freeze does not apply to a person or entity, or its affiliates, or collection agencies acting on behalf of the person or entity, with which you have an existing account, that requests information in your credit report for the purposes of reviewing or collecting the account. Reviewing the account includes activities related to account maintenance, monitoring, credit line increases, and account upgrades and enhancements.

You have a right to bring civil action against anyone, including a consumer credit reporting agency, who improperly obtains access to a file, knowingly misuses file data, or fails to correct inaccurate file data."

407.1384. AGENCY LIABILITY FOR FAILURE TO COMPLY, DAMAGES AND EQUITABLE RELIEF. — 1. Any consumer credit reporting agency that knowingly fails to comply with the provisions of sections 407.1380 to 407.1384 shall be liable to the consumer who is subject to the credit report in an amount equal to:

- (1) Any actual damages sustained by the consumer due to such failure; and

(2) Any court costs and fees assessed in maintaining the action, as well as reasonable attorney's fees.

2. In addition to the foregoing monetary sums, a court, upon request of the damaged consumer, shall award such equitable relief as may be necessary to restore the damaged consumer's credit and to discourage future violations of sections 407.1380 to 407.1384 by the consumer credit reporting agency.

407.1385. PROCESSING OF APPLICATIONS FOR CREDIT — EFFECT OF SECURITY FREEZE. — It shall not be considered a violation of any law that requires an application for credit to be processed within a specified time frame if a creditor is unable to meet this time frame because of inability to access a credit report due to a security freeze.

570.222. IDENTITY THEFT — RIGHTS OF VICTIMS — DEFINITION — INCIDENT REPORTS, DISCRETION OF LAW ENFORCEMENT NOT AFFECTED. — 1. Notwithstanding that jurisdiction may lie elsewhere for investigation and prosecution of a crime of identity theft, victims of identity theft have the right to contact the local law enforcement agency where the victim is domiciled and request that an incident report about the identity theft be prepared and filed. The victim may also request from the local law enforcement agency to receive a copy of the incident report. The law enforcement agency may share the incident report with law enforcement agencies located in other jurisdictions.

2. As used in this section "incident report" means a loss or other similar report prepared and filed by a local law enforcement agency.

3. Nothing in this section shall interfere with the discretion of a local law enforcement agency to allocate resources for investigations of crimes or to provide an incident report as permitted in this section. An incident report prepared and filed under this section shall not be an open case for purposes of compiling open case statistics.

570.380. MANUFACTURE OR POSSESSION OF FIVE OR MORE FAKE IDs PROHIBITED, PENALTY. — Any person who manufactures or possesses five or more fictitious or forged means of identification, as defined in section 570.223, with the intent to distribute to others for the purpose of committing a crime shall be guilty of a class C felony.

AN ACT to repeal sections 390.071 and 622.095, RSMo, and to enact in lieu thereof one new section relating to implementing the unified carrier registration plan and agreement to conform with the Unified Carrier Registration Act of 2005.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Sections 390.071 and 622.095, RSMo, are repealed and one new section enacted in lieu thereof, to be known as section 390.021, to read as follows:

390.021. UCR AGREEMENT — DEFINITIONS — COMMISSION AUTHORITY — PRECEDENCE OF AGREEMENT — FILING OF FORMS AND REGISTRATION FEE-ENFORCEMENT AUTHORITY — AUTHORIZED EXEMPTIONS. — 1. The provisions of this section shall be applicable, notwithstanding any provisions of section 390.030 to the contrary.

2. As used in chapter 622, RSMo, and in this section, except when the context clearly requires otherwise, the following terms shall mean:

(1) "UCR implementing regulations", includes the regulations issued by the United States Secretary of Transportation under 49 U.S.C.A. Section 13908, the rules and regulations issued by the board of directors of the Unified Carrier Registration (UCR) plan under 49 U.S.C.A. Section 14504a, and the administrative rules adopted by the state highways and transportation commission under this section;

(2) "Unified Carrier Registration Act", or "UCR Act", Sections 4301 to 4308 of the Unified Carrier Registration Act of 2005, within subtitle C of title IV of the "Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy For Users" or "SAFETEA-LU", Public Law 109-59 (119 Stat. 1761), as those sections have been and periodically may be amended.

3. Except when the context clearly requires otherwise, the definitions of words in 49 U.S.C. Sections 13102, 13908, and 14504a shall apply to and determine the meaning of those words as used in this section.

4. In carrying out and being subject to the provisions of the UCR Act, the Unified Carrier Registration (UCR) agreement, the UCR implementing regulations, and this section, but notwithstanding any other provisions of law to the contrary, the state highways and transportation commission may:

(1) Submit to the proper federal authorities, amend and carry out a state plan to qualify as a base-state and to participate in the UCR plan and administer the UCR agreement, and take other necessary actions as the designated representative of the state of Missouri so that:

(a) Missouri domiciled entities who must register and pay UCR registration fees are not required to register and pay those fees in a base-state other than the state of Missouri;

(b) The state of Missouri does not forfeit UCR registration fee revenues; and

(c) The state of Missouri may maintain its eligibility to receive the maximum allowable allocations of revenues derived under the UCR agreement;

(2) Administer the UCR registration of Missouri domiciled motor carriers, motor private carriers, brokers, freight forwarders and leasing companies, and such persons domiciled in non-participating states who have designated this state as their base-state under the UCR Act;

(3) Receive, collect, process, deposit, transfer, distribute, and refund UCR registration fees relating to any of the persons and activities described in this section. Notwithstanding any provisions of law to the contrary, these UCR registration fees collected by the commission are hereby designated as "nonstate funds" within the meaning of section 15, article IV, Constitution of Missouri, and the commission shall transmit these funds to the state department of revenue for deposit to the credit of the state highways and transportation department fund. The commission shall, from time to time, direct the payment of, and the director of revenue shall pay, the fees so deposited, in accordance with the provisions of the UCR Act, the UCR agreement, and the UCR implementing regulations. The director of revenue shall credit all income derived from the investment of these funds to the state highways and transportation department fund;

(4) Exercise all other powers, duties, and functions the UCR Act requires of or allows a participating state or base-state;

(5) Promulgate administrative rules and issue specific orders relating to any of the persons and activities described in this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2008, shall be invalid and void;

(6) Enter into agreements with any agencies or officers of the United States, or of any state that participates or intends to enter into the UCR agreement; and

(7) Delegate any or all of the powers, duties, and functions of the commission under this section to any agent or contractor.

5. After the commission has entered into the UCR plan on behalf of this state, the requirements in the UCR agreement shall take precedence over any conflicting requirements under chapter 622, RSMo, or this chapter.

6. Notwithstanding any other provisions of law to the contrary, every motor carrier, motor private carrier, broker, freight forwarder, and leasing company that has its principal place of business within this state, and every such person who has designated this state as the person's base-state under the provisions of the UCR Act, shall timely complete and file with the state highways and transportation commission all the forms required by the UCR agreement and the UCR implementing regulations, and shall pay the required UCR registration fees to the commission.

7. All powers of the commission under section 226.008, RSMo, are hereby made applicable to the enforcement of this section with reference to any person subject to any provision of this section. The chief counsel shall not be required to exhaust any administrative remedies before commencing any enforcement actions under this section. The provisions of chapter 622, RSMo, shall apply to and govern the practice and procedures before the courts in those actions.

8. Except as required by the UCR Act, the UCR agreement, or the UCR implementing regulations, the provisions of this section and the rules adopted by the commission under this section shall not be construed as exempting any motor carrier, or any person controlled by a motor carrier, from any of the requirements of chapter 622, RSMo, or this chapter, relating to the transportation of passengers or property in intrastate commerce.

9. Notwithstanding any other provision of this section to the contrary, Missouri elects to not apply the provisions of the UCR Act, the UCR Agreement, and the UCR implementing regulations to motor carriers and motor private carriers that operate solely in intrastate commerce transporting farm or dairy products, including livestock, from a farm, or property from farm to farm, or stocker and feeder livestock from farm to farm, or from market to farm.

[390.071. MOTOR CARRIERS INTERSTATE PERMITS, WHEN ISSUED. — 1. No person shall engage in the business of a motor carrier in interstate commerce on any public highway in this state unless there is in force with respect to such carrier a permit issued by the division of motor carrier and railroad safety authorizing such operations.

2. Upon application to the division in writing, containing such information as the division may by rule require, accompanied by a copy of applicant's certificate of public convenience and necessity or permit issued by the Interstate Commerce Commission, the filing of such liability insurance policy or bond and other formal documents as the division shall by rule require, the division, if it finds applicant qualified, shall, with or without hearing, issue a permit authorizing the proposed interstate operations.]

[622.095. DIVISION AUTHORIZED TO CONTRACT WITH OTHER JURISDICTIONS — UNIFORM ADMINISTRATION OF CERTAIN INTERSTATE VEHICLES — POWERS — BASE STATE REGISTRATION FUND ESTABLISHED — PROPERLY REGISTERED VEHICLE OPERATION ALLOWED — FEES MAY BE STAGGERED AND PRORATED. — 1. In addition to its other powers, the state highways and transportation commission may negotiate and enter into fair and equitable cooperative agreements or contracts with other states, the District of Columbia, territories and possessions of the United States, foreign countries, and any of their officials, agents or instrumentalities, to promote cooperative action and mutual assistance between the participating jurisdictions with regard to the uniform administration and registration, through a single base jurisdiction for each registrant, of Federal Motor Carrier Safety Administration operating authority and exempt operations by motor vehicles operated in interstate commerce. Notwithstanding any other provision of law to the contrary, and in accordance with the provisions of such agreements or contracts between participating jurisdictions, the commission may:

(1) Delegate to other participating jurisdictions the authority and responsibility to collect and pay over statutory registration, administration or license fees; to receive, approve and maintain the required proof of public liability insurance coverage; to receive, process, maintain and transmit registration information and documentation; to issue evidence of proper registration in lieu of certificates, licenses, or permits which the commission may issue motor vehicle licenses or identifiers in lieu of regulatory licenses under section 390.136, RSMo; and to suspend or revoke any credential, approval, registration, certificate, permit, license, or identifier referred to in this section, as agents on behalf of the commission with regard to motor vehicle operations by persons having a base jurisdiction other than this state;

(2) Assume the authority and responsibility on behalf of other jurisdictions participating in such agreements or contracts to collect and direct the department of revenue to pay over to the appropriate jurisdictions statutory registration, administration or license fees, and to perform all other activities described in subdivision (1) of this subsection, on its own behalf or as an agent

on behalf of other participating jurisdictions, with regard to motor vehicle operations in interstate commerce by persons having this state as their base jurisdiction;

(3) Establish or modify dates for the payment of fees and the issuance of annual motor vehicle licenses or identifiers in conformity with such agreements or contracts, notwithstanding any provisions of section 390.136, RSMo, to the contrary; and

(4) Modify, cancel or terminate any of the agreements or contracts.

2. Notwithstanding the provisions of section 390.136, RSMo, statutory registration, administration or license fees collected by the commission on behalf of other jurisdictions under such agreements or contracts are hereby designated as "nonstate funds" within the meaning of section 15, article IV, Constitution of Missouri, and shall be immediately transmitted to the department of revenue of the state for deposit to the credit of a special fund which is hereby created and designated as the "Base State Registration Fund". The commission shall direct the payment of, and the director of revenue shall pay, the fees so collected to the appropriate other jurisdictions. All income derived from the investment of the base state registration fund by the director of revenue shall be credited to the state highways and transportation department fund.

3. "Base jurisdiction", as used in this section, means the jurisdiction participating in such agreements or contracts where the registrant has its principal place of business.

4. Every person who has properly registered his or her interstate operating authority or exempt operations with his or her base jurisdiction and maintains such registration in force in accordance with such agreements or contracts is authorized to operate in interstate commerce within this state any motor vehicle which is accompanied by a valid annual license or identifier issued by his base jurisdiction in accordance with such agreements or contracts, notwithstanding any provision of section 390.071, 390.126 or 390.136, RSMo, or rules of the commission to the contrary.

5. Notwithstanding any provision of law to the contrary, the commission may stagger and prorate the payment and collection of license fees pursuant to this section for the purposes of:

(1) Coordinating the issuance of regulatory licenses under this section with the issuance of other motor carrier credentials; and

(2) Complying with any federal law or regulation.]

Removes the requirement that the Missouri Public Service Commission prepare an annual economic impact report on certificates of public convenience and necessity for certain telecommunication companies

AN ACT to repeal section 392.410, RSMo, and to enact in lieu thereof one new section relating to the public service commission.

SECTION

A. Enacting clause.

392.410. Certificate of public convenience and necessity required, exception — certificate of interexchange service authority, required when — duration of certificates — temporary certificates, issued when — political subdivisions restricted from providing certain telecommunications services or facilities.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 392.410, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 392.410, to read as follows:

392.410. CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY REQUIRED, EXCEPTION — CERTIFICATE OF INTEREXCHANGE SERVICE AUTHORITY, REQUIRED WHEN — DURATION OF CERTIFICATES — TEMPORARY CERTIFICATES, ISSUED WHEN — POLITICAL SUBDIVISIONS RESTRICTED FROM PROVIDING CERTAIN TELECOMMUNICATIONS SERVICES OR FACILITIES. — 1. A telecommunications company not possessing a certificate of public convenience and necessity from the commission at the time this section goes into effect shall have not more than ninety days in which to apply for a certificate of service authority from the commission pursuant to this chapter unless a company holds a state charter issued in or prior to the year 1913 which charter authorizes a company to engage in the telephone business. No telecommunications company not exempt from this subsection shall transact any business in this state until it shall have obtained a certificate of service authority from the commission pursuant to the provisions of this chapter, except that any telecommunications company which is providing telecommunications service on September 28, 1987, and which has not been granted or denied a certificate of public convenience and necessity prior to September 28, 1987, may continue to provide that service exempt from all other requirements of this chapter until a certificate of service authority is granted or denied by the commission so long as the telecommunications company applies for a certificate of service authority within ninety days from September 28, 1987.

2. No telecommunications company offering or providing, or seeking to offer or provide, any interexchange telecommunications service shall do so until it has applied for and received a certificate of interexchange service authority pursuant to the provisions of subsection 1 of this section. No telecommunications company offering or providing, or seeking to offer or provide, any local exchange telecommunications service shall do so until it has applied for and received a certificate of local exchange service authority pursuant to the provisions of section 392.420.

3. No certificate of service authority issued by the commission shall be construed as granting a monopoly or exclusive privilege, immunity or franchise. The issuance of a certificate of service authority to any telecommunications company shall not preclude the commission from issuing additional certificates of service authority to another telecommunications company providing the same or equivalent service or serving the same geographical area or customers as any previously certified company, except to the extent otherwise provided by section 392.450.

4. Any certificate of public convenience and necessity granted by the commission to a telecommunications company prior to September 28, 1987, shall remain in full force and effect unless modified by the commission, and such companies need not apply for a certificate of service authority in order to continue offering or providing service to the extent authorized in such certificate of public convenience and necessity. Any such carrier, however, prior to substantially altering the nature or scope of services provided under a certificate of public convenience and necessity, or adding or expanding services beyond the authority contained in such certificate, shall apply for a certificate of service authority for such alterations or additions pursuant to the provisions of this section.

5. The commission may review and modify the terms of any certificate of public convenience and necessity issued to a telecommunications company prior to September 28, 1987, in order to ensure its conformity with the requirements and policies of this chapter. Any certificate of service authority may be altered or modified by the commission after notice and hearing, upon its own motion or upon application of the person or company affected. Unless exercised within a period of one year from the issuance thereof, authority conferred by a certificate of service authority or a certificate of public convenience and necessity shall be null and void.

6. The commission may issue a temporary certificate which shall remain in force not to exceed one year to assure maintenance of adequate service or to serve particular customers, without notice and hearing, pending the determination of an application for a certificate.

7. No political subdivision of this state shall provide or offer for sale, either to the public or to a telecommunications provider, a telecommunications service or telecommunications facility used to provide a telecommunications service for which a certificate of service authority is required pursuant to this section. Nothing in this subsection shall be construed to restrict a political subdivision from allowing the nondiscriminatory use of its rights-of-way including its poles, conduits, ducts and similar support structures by telecommunications providers or from providing to telecommunications providers, within the geographic area in which it lawfully operates as a municipal utility, telecommunications services or telecommunications facilities on a nondiscriminatory, competitively neutral basis, and at a price which covers cost, including imputed costs that the political subdivision would incur if it were a for-profit business. Nothing in this subsection shall restrict a political subdivision from providing telecommunications services or facilities:

- (1) For its own use;
- (2) For 911, E-911 or other emergency services;
- (3) For medical or educational purposes;
- (4) To students by an educational institution; or
- (5) Internet-type services.

[8. The public service commission shall annually study the economic impact of the provisions of this section and prepare and submit a report to the general assembly by December thirty-first of each year.]

A complaint which alleges a violation solely or primarily on the basis of national origin, ethnicity, or race shall be deemed invalid and shall not be enforced.

3. Upon receipt of a valid complaint, the attorney general shall, within fifteen business days, request identity information from the business entity regarding any persons alleged to be unauthorized aliens. Such request shall be made by certified mail. The attorney general shall direct the applicable municipal or county governing body to suspend any applicable license, permit, or exemptions of any business entity which fails, within fifteen business days after receipt of the request, to provide such information.

4. The attorney general, after receiving the requested identity information from the business entity, shall submit identity data required by the federal government to verify, under 8 U.S.C. 1373, the immigration status of such persons, and shall provide the business entity with written notice of the results of the verification request:

At no point shall any state official attempt to make an independent determination of any alien's legal status without verification from the federal government.

5. 6. The correction of a violation with respect to the employment of an unauthorized alien shall include the following actions:

(1) (a) The business entity terminates the unauthorized alien's employment. If the business entity attempts to terminate the unauthorized alien's employment and such termination is challenged in a court of the state of Missouri, the fifteen-business-day period for providing information to the attorney general referenced in subsection 3 of this section shall be tolled while the business entity pursues the termination of the unauthorized alien's employment in such forum; or

(b) The business entity, after acquiring additional information from the employee, requests a secondary or additional verification by the federal government of the employee's authorization, under the procedures of a federal work authorization program. While this verification is pending, the fifteen-business-day period for providing information to the attorney general referenced in subsection 3 of this section shall be tolled; and

(2) A legal representative of the business entity submits, at an office designated by the attorney general, the following:

(a) A sworn affidavit stating that the violation has ended that shall include a description of the specific measures and actions taken by the business entity to end the violation, and the name, address, and other adequate identifying information for any unauthorized aliens related to the complaint; and

(b) Documentation acceptable to the attorney general which confirms that the business entity has enrolled in and is participating in a federal work authorization program.

7. The suspension of a business license or licenses under subsection 5 of this section shall terminate one business day after a legal representative of the business entity submits the affidavit and other documentation required under subsection 6 of this section following any period of restriction required under subsection 5 of this section.

8. For an entity that violates subsection 1 of section 285.530 for a second time, the court shall direct the applicable municipal or county governing body to suspend, for one year, the business permit, if such exists, and any applicable license or exemptions of the business entity. 9. In addition to the penalties in subsections 5 and 8 of this section:

(1) Upon the first violation of subsection 1 of section 285.530 by any business entity awarded a state contract or grant or receiving a state-administered tax credit, tax abatement, or loan from the state, the business entity shall be deemed in breach of contract and the state may terminate the contract and suspend or debar the business entity from doing business with the state for a period of three years. Upon such termination, the state may withhold up to twenty-five percent of the total amount due to the business entity;

(2) Upon a second or subsequent violation of subsection 1 of section 285.530 by any business entity awarded a state contract or grant or receiving a state-administered tax credit, tax abatement, or loan from the state, the business entity shall be deemed in breach of contract and the state may terminate the contract and permanently suspend or debar the business entity from doing business with the state. Upon such termination, the state may withhold up to twenty-five percent of the total amount due to the business entity.

10. Sections 285.525 to 285.550 shall not be construed to deny any procedural mechanisms or legal defenses included in a federal work authorization program.

11. Any business entity subject to a complaint and subsequent enforcement under sections 285.525 to 285.540, or any employee of such a business entity, may challenge the enforcement of this section with respect to such entity or employee in the courts of the state of Missouri.

12. If the court finds that any complaint is frivolous in nature or finds no probable cause to believe that there has been a violation, the court shall dismiss the case. For purposes of this subsection, "frivolous" shall mean a complaint not shown by clear and convincing evidence to be valid. Any person who submits a frivolous complaint shall be liable for actual, compensatory, and punitive damages to the alleged violator for holding the alleged violator before the public in a false light. If the court finds that a complaint is frivolous or that there is not probable cause to believe there has been a violation, the attorney general shall issue a public report to the complainant and the alleged violator stating with particularity its reasons for dismissal of the complaint. Upon such issuance, the complaint and all materials relating to the complaint shall be a public record as defined in chapter 610, RSMo.

13. The determination of whether a worker is an unauthorized alien shall be made by the federal government. A determination of such status of an individual by the federal government shall create a rebuttable presumption as to that individual's status in any judicial proceedings brought under this section or section 285.530. The court may take judicial notice of any verification of an individual's status previously provided by the federal government and may request the federal government to provide automated or testimonial verification.

14. Compensation, whether in money or in kind or in services, knowingly provided to any unauthorized alien shall not be allowed as a business expense deduction from any income or business taxes of this state.

This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly under chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of

4. The public body shall specify the requirements of this section in the resolution or ordinance and in the call for bids for the contract. The contractor to whom the contract

driver's license to an illegal alien nor to any person who cannot prove his or her lawful presence pursuant to the provisions of this chapter and the regulations promulgated thereunder. A driver's license issued to an illegal alien in another state shall not be honored by the state of Missouri and the department of revenue for any purpose. The state of Missouri hereby declares that granting driver's licenses to illegal aliens is repugnant to the public policy of Missouri and therefore Missouri shall not extend full faith and credit to out-of-state driver's licenses issued to illegal aliens. As used in this section, the term "illegal alien" shall mean an alien who is not lawfully present in the United States, according to the terms of 8 U.S.C. Section 1101, et seq.

A commercial driver's instruction permit shall allow the holder of a valid license to operate a commercial motor vehicle when accompanied by the holder of a commercial driver's license valid for the vehicle being operated and who occupies a seat beside the individual, or reasonably near the individual in the case of buses, for the purpose of giving instruction in driving the commercial motor vehicle. A commercial driver's instruction permit shall be valid for the vehicle being operated for a period of not more than six months, and shall not be issued until the permit holder has met all other requirements of sections 302.700 to 302.780, except for the driving test. A permit holder, unless otherwise disqualified, may be granted one six-month renewal within a one-year period. The fee for such permit or renewal shall be five dollars. In the alternative, a commercial driver's instruction permit shall be issued for a thirty-day period to allow the holder of a valid driver's license to operate a commercial motor vehicle if the applicant has completed all other requirements except the driving test. The permit may be renewed for one additional thirty-day period and the fee for the permit and for renewal shall be five dollars.

2. No person may be issued a commercial driver's license until he has passed written and driving tests for the operation of a commercial motor vehicle which complies with the minimum federal standards established by the Secretary and has satisfied all other requirements of the Commercial Motor Vehicle Safety Act of 1986 (Title XII of Pub. Law 99-570), as well as any other requirements imposed by state law. Applicants for a hazardous materials endorsement must also meet the requirements of the U.S. Patriot Act of 2001 (Title X of Public Law 107-56) as specified and required by regulations promulgated by the Secretary. Nothing contained in this subsection shall be construed as prohibiting the director from establishing alternate testing formats for those who are functionally illiterate; provided, however, that any such alternate test must comply with the minimum requirements of the Commercial Motor Vehicle Safety Act of 1986 (Title XII of Pub. Law 99-570) as established by the Secretary.

The department shall provide written notice and an opportunity for the third-party tester to be heard in substantially the same manner as provided in chapter 536, RSMo. If any applicant submits evidence that he has successfully completed a test administered by a third-party tester, the actual driving test for a commercial driver's license may then be waived.

(4) Every applicant for renewal of a commercial driver's license shall provide such certifications and information as required by the secretary and if such person transports a hazardous material must also meet the requirements of the U.S. Patriot Act of 2001 (Title X of Public Law 107-56) as specified and required by regulations promulgated by the Secretary. Such person shall be required to take the written test for such endorsement. A twenty-five dollar examination fee shall be paid upon completion of such tests.

(5) The director shall have the authority to waive the driving skills test for any qualified military applicant for a commercial driver's license who is currently licensed at the time of application for a commercial driver's license. The director shall impose conditions and limitations to restrict the applicants from whom the department may accept alternative requirements for the skills test described in federal regulation 49 C.F.R. 383.77. An applicant must certify that, during the two-year period immediately preceding application for a commercial driver's license, all of the following apply:

- (a) The applicant has not had more than one license;
- (b) The applicant has not had any license suspended, revoked, or cancelled;

- (d) The applicant has not had more than one conviction for any type of motor vehicle for serious traffic violations;

- (i) The applicant must meet all federal and state qualifications to operate a commercial vehicle; and
- (j) The applicant will be required to complete all applicable knowledge tests.

3. A commercial driver's license may not be issued to a person while the person is disqualified from driving a commercial motor vehicle, when a disqualification is pending in any state or while the person's driver's license is suspended, revoked, or canceled in any state; nor may a commercial driver's license be issued unless the person first surrenders in a manner

prescribed by the director any commercial driver's license issued by another state, which license shall be returned to the issuing state for cancellation.

4. Beginning July 1, 2005, the director shall not issue an instruction permit under this section unless the director verifies that the applicant is lawfully present in the United States before accepting the application. The director may, by rule or regulation, establish procedures to verify the lawful presence of the applicant under this section. No rule or portion of a rule promulgated pursuant to the authority of this section shall become effective unless it has been promulgated pursuant to chapter 536, RSMo.

2. There shall be a presumption that releasing the person under any conditions as provided by section 544.455 shall not reasonably assure the appearance of the person as required if the circuit judge or associate circuit judge reasonably believes that the person is an alien unlawfully present in the United States. If such presumption exists, the person shall be committed to the jail, as provided in subsection 1 of this section, until such person provides verification of his or her lawful presence in the United States to rebut such presumption. If the person adequately proves his or her lawful presence, the circuit judge or associate circuit judge shall review the issue of release, as provided under section 544.455, without regard to previous issues concerning whether the person is lawfully present in the United States. 6. When a petition has been dismissed thereby permitting a child to be prosecuted under the general law, the jurisdiction of the juvenile court over that child is forever terminated, except as provided in subsection 10 of this section, for an act that would be a violation of a state law or municipal ordinance.

10. If a petition has been dismissed thereby permitting a child to be prosecuted under the general law and the child is found not guilty by a court of general jurisdiction, the juvenile court shall have jurisdiction over any later offense committed by that child which would be considered a misdemeanor or felony if committed by an adult, subject to the certification provisions of this section.

11. If the court does not dismiss the petition to permit the child to be prosecuted under the general law, it shall set a date for the hearing upon the petition as provided in section 211.171.

There is hereby specifically exempted from the provisions of sections 144.010 to 144.525 and from the computation of the tax levied, assessed or payable pursuant to sections 144.010 to 144.525 such retail sales as may be made in commerce between this state and any other state of the United States, or between this state and any foreign country, and any retail sale which the state of Missouri is prohibited from taxing pursuant to the Constitution or laws of the United States of America, and such retail sales of tangible personal property which the general assembly of the state of Missouri is prohibited from taxing or further taxing by the constitution of this state.

2. There are also specifically exempted from the provisions of the local sales tax law as defined in section 32.085, RSMo, section 238.235, RSMo, and sections 144.010 to 144.525 and 144.600 to 144.761 and from the computation of the tax levied, assessed or payable pursuant to the local sales tax law as defined in section 32.085, RSMo, section 238.235, RSMo, and sections 144.010 to 144.525 and 144.600 to 144.745:

(1) Motor fuel or special fuel subject to an excise tax of this state, unless all or part of such excise tax is refunded pursuant to section 142.824, RSMo; or upon the sale at retail of fuel to be consumed in manufacturing or creating gas, power, steam, electrical current or in furnishing water to be sold ultimately at retail; or feed for livestock or poultry; or grain to be converted into

foodstuffs which are to be sold ultimately in processed form at retail; or seed, limestone or fertilizer which is to be used for seeding, liming or fertilizing crops which when harvested will be sold at retail or will be fed to livestock or poultry to be sold ultimately in processed form at retail; economic poisons registered pursuant to the provisions of the Missouri pesticide registration law (sections 281.220 to 281.310, RSMo) which are to be used in connection with the growth or production of crops, fruit trees or orchards applied before, during, or after planting, the crop of which when harvested will be sold at retail or will be converted into foodstuffs which are to be sold ultimately in processed form at retail;

(2) Materials, manufactured goods, machinery and parts which when used in manufacturing, processing, compounding, mining, producing or fabricating become a component part or ingredient of the new personal property resulting from such manufacturing, processing, compounding, mining, producing or fabricating and which new personal property is intended to be sold ultimately for final use or consumption; and materials, including without limitation, gases and manufactured goods, including without limitation, slagging materials and firebrick, which are ultimately consumed in the manufacturing process by blending, reacting or interacting with or by becoming, in whole or in part, component parts or ingredients of steel products intended to be sold ultimately for final use or consumption;

There shall be a rebuttable presumption that the raw materials used in the primary manufacture of automobiles contain at least twenty-five percent recovered materials. For purposes of this subdivision, "processing" means any mode of treatment, act or series of acts performed upon materials to transform and reduce them to a different state or thing, including treatment necessary to maintain or preserve such processing by the producer at the production facility;

Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092, RSMo, and such other rules and regulations as determined by the commissioner of education, excepting such waivers shall be confined to the school and not other schools in the district unless such other schools meet the criteria established by the state board of education consistent with subsection 3 of this section and the waivers shall not include the requirements contained in this section and section 160.514. Any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the criteria established by the state board of education consistent with subsection 3 of this section.

The state board of education shall identify or, if necessary, establish one or more developmentally appropriate alternate assessments for students who receive special educational services, as that term is defined pursuant to section 162.675, RSMo. In the development of such alternate assessments, the state board shall establish an advisory panel consisting of a majority of active special education teachers and other education professionals as appropriate to research

available assessment options. The advisory panel shall attempt to identify preexisting developmentally appropriate alternate assessments but shall, if necessary, develop alternate assessments and recommend one or more alternate assessments for adoption by the state board. The state board shall consider the recommendations of the advisory council in establishing such alternate assessment or assessments. Any student who receives special educational services, as that term is defined pursuant to section 162.675, RSMo, shall be assessed by an alternate assessment established pursuant to this subsection upon a determination by the student's individualized education program team that such alternate assessment is more appropriate to assess the student's knowledge, skills and competencies than the assessment developed pursuant to subsection 1 of this section. The alternate assessment shall evaluate the student's independent living skills, which include how effectively the student addresses common life demands and how well the student meets standards for personal independence expected for someone in the student's age group, sociocultural background, and community setting.

7. The state board of education shall also develop recommendations regarding alternate assessments for any military dependent who relocates to Missouri after the commencement of a school term, in order to accommodate such student while ensuring that he or she is proficient in the knowledge, skills, and competencies adopted under section 160.514.

8. Notwithstanding the provisions of subsections 1 to [6] 7 of this section, no later than June 30, 2006, the state board of education shall administer the following adjustments to the statewide assessment system:

Grade-level expectations shall be considered when the state board of education establishes performance standards.

[8.] **9.** By July 1, 2006, the state board of education shall examine its rules and regulations and revise them to permit waivers of resource and process standards based upon achievement of performance profiles consistent with accreditation status.

In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her Senior year, then the provisions of Article VII, Section C shall apply.

C. Transfers during Senior year - Should a military student transferring at the beginning or during his or her Senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

168.021. ISSUANCE OF TEACHERS' LICENSES — EFFECT OF CERTIFICATION IN ANOTHER STATE AND SUBSEQUENT EMPLOYMENT IN THIS STATE. — 1. Certificates of license to teach in the public schools of the state shall be granted as follows:

(1) By the state board, under rules and regulations prescribed by it,

(a) Upon the basis of college credit;
(b) Upon the basis of examination;
(2) By the state board, under rules and regulations prescribed by the state board with advice from the advisory council established by section 168.015 to any individual who presents to the state board a valid doctoral degree from an accredited institution of higher education accredited by a regional accrediting association such as North Central Association. Such certificate shall be limited to the major area of postgraduate study of the holder, shall be issued only after successful completion of the examination required for graduation pursuant to rules adopted by the state board of education, and shall be restricted to those certificates established pursuant to subdivision (1) of subsection 3 of this section; or

(3) By the state board, which shall issue the professional certificate classification in both the general and specialized areas most closely aligned with the current areas of certification approved by the state board, commensurate with the years of teaching experience of the applicant, and based upon the following criteria:

(a) Recommendation of a state-approved baccalaureate-level teacher preparation program;
(b) Successful attainment of the Missouri qualifying score on the exit assessment for teachers or administrators designated by the state board of education. Applicants who have not successfully achieved a qualifying score on the designated examinations will be issued a two-year nonrenewable provisional certificate; and

(c) Upon completion of a background check and possession of a valid teaching certificate in the state from which the applicant's teacher preparation program was completed.

2. All valid teaching certificates issued pursuant to law or state board policies and regulations prior to September 1, 1988, shall be exempt from the professional development requirements of this section and shall continue in effect until they expire, are revoked or suspended, as provided by law. When such certificates are required to be renewed, the state board or its designee shall grant to each holder of such a certificate the certificate most nearly equivalent to the one so held. Anyone who holds, as of August 28, 2003, a valid PC-I, PC-II, or continuous professional certificate shall, upon expiration of his or her current certificate, be issued the appropriate level of certificate based upon the classification system established pursuant to subsection 3 of this section.

3. Certificates of license to teach in the public schools of the state shall be based upon minimum requirements prescribed by the state board of education. The state board shall provide for the following levels of professional certification: an initial professional certificate and a career continuous professional certificate.

(1) The initial professional certificate shall be issued upon completion of requirements established by the state board of education and shall be valid based upon verification of actual teaching within a specified time period established by the state board of education. The state board shall require holders of the four-year initial professional certificate to:

(a) Participate in a mentoring program approved and provided by the district for a minimum of two years;

(b) Complete thirty contact hours of professional development, which may include hours spent in class in an appropriate college curriculum; and

(c) Participate in a beginning teacher assistance program;

(2) (a) The career continuous professional certificate shall be issued upon verification of completion of four years of teaching under the initial professional certificate and upon verification of the completion of the requirements articulated in paragraphs (a), (b), and (c) of subdivision (1) of this subsection.

(b) The career continuous professional certificate shall be continuous based upon verification of actual employment in an educational position as provided for in state board guidelines and completion of fifteen contact hours of professional development per year which may include hours spent in class in an appropriate college curriculum. Should the possessor of a valid career continuous professional certificate fail, in any given year, to meet the fifteen-hour

professional development requirement, the possessor may, within two years, make up the missing hours. In order to make up for missing hours, the possessor shall first complete the fifteen-hour requirement for the current year and then may count hours in excess of the current year requirement as make-up hours. Should the possessor fail to make up the missing hours within two years, the certificate shall become inactive. In order to reactivate the certificate, the possessor shall complete twenty-four contact hours of professional development which may include hours spent in the classroom in an appropriate college curriculum within the six months prior to or after reactivating his or her certificate. The requirements of this paragraph shall be monitored and verified by the local school district which employs the holder of the career continuous professional certificate.

(c) A holder of a career continuous professional certificate shall be exempt from the professional development contact hour requirements of paragraph (b) of this subdivision if such teacher has a local professional development plan in place within such teacher's school district and meets two of the three following criteria:

- a. Has ten years of teaching experience as defined by the state board of education;
- b. Possesses a master's degree; or
- c. Obtains a rigorous national certification as approved by the state board of education.

4. Policies and procedures shall be established by which a teacher who was not retained due to a reduction in force may retain the current level of certification. There shall also be established policies and procedures allowing a teacher who has not been employed in an educational position for three years or more to reactivate his or her last level of certification by completing twenty-four contact hours of professional development which may include hours spent in the classroom in an appropriate college curriculum within the six months prior to or after reactivating his or her certificate.

5. The state board shall, upon an appropriate background check, issue a professional certificate classification in the areas most closely aligned with an applicant's current areas of certification, commensurate with the years of teaching experience of the applicant, to any person who is hired to teach in a public school in this state and who possesses a valid teaching certificate from another state, provided that the certificate holder shall annually complete the state board's requirements for such level of certification, and shall establish policies by which residents of states other than the state of Missouri may be assessed a fee for a certificate license to teach in the public schools of Missouri. Such fee shall be in an amount sufficient to recover any or all costs associated with the issuing of a certificate of license to teach. **The board shall promulgate rules to authorize the issuance of a provisional certificate of license, which shall allow the holder to assume classroom duties pending the completion of a criminal background check under section 168.133, for any applicant who:**

- (1) Is the spouse of a member of the armed forces stationed in Missouri;**
- (2) Relocated from another state within one year of the date of application;**
- (3) Underwent a criminal background check in order to be issued a teaching certificate of license from another state; and**
- (4) Otherwise qualifies under this section.**

6. The state board may assess to holders of an initial professional certificate a fee, to be deposited into the excellence in education revolving fund established pursuant to section 160.268, RSMo, for the issuance of the career continuous professional certificate. However, such fee shall not exceed the combined costs of issuance and any criminal background check required as a condition of issuance.

7. Any member of the public school retirement system of Missouri who entered covered employment with ten or more years of educational experience in another state or states and held a certificate issued by another state and subsequently worked in a school district covered by the public school retirement system of Missouri for ten or more years who later became certificated in Missouri shall have that certificate dated back to his or her original date of employment in a Missouri public school.

In the 1990-91 school year and each year thereafter, local school districts maintaining high schools shall comply with the provisions of this section by offering in grade nine, ten, eleven, or twelve a course of instruction in the institutions, branches and functions of the government of the state of Missouri, including local governments, and of the government of the United States, and in the electoral process. A local school district maintaining such a high school shall require that prior to the completion of the twelfth grade each pupil, who receives a high school diploma or certificate of graduation on or after January 1, 1994, shall satisfactorily complete such a course of study. Such course shall be of at least one semester in length and may be two semesters in length. The department of elementary and secondary education may provide assistance in developing such a course if the district requests assistance. **A school district may elect to waive the requirements of this subsection for any student who transfers from outside the state to a Missouri high school if the student can furnish documentation deemed acceptable by the school district of the student's successful completion in any year from the ninth through the twelfth grade of a course of instruction in the institutions, branches, and functions of state government, including local governments, and of the government of the United States, and in the electoral process.**

2. American history courses at the elementary and secondary levels shall include in their proper time-line sequence specific referrals to the details and events of the racial equality movement that have caused major changes in United States and Missouri laws and attitudes.

3. 4. In the 1990-91 school year and each year thereafter, each school district maintaining a high school may annually nominate to the state board of education a student who has demonstrated knowledge of the principles of government and citizenship through academic achievement, participation in extracurricular activities, and service to the community. Annually, the state board of education shall select fifteen students from those nominated by the local school districts and shall recognize and award them for their academic achievement, participation and service.

5. [The state commissioner of education and the state commissioner of higher education shall make arrangements for carrying out the provisions of this section and prescribe a list of suitable texts adapted to the needs of the school grades and college courses, respectively.

6. The willful neglect of any superintendent, principal or teacher to observe and carry out the requirements of this section is sufficient cause for termination of his contract.

7.] The provisions of this section shall not apply to students from foreign countries who are enrolled in public or private high schools in Missouri, if such students are foreign exchange students sponsored by a national organization recognized by the department of elementary and secondary education.

173.234. DEFINITIONS — GRANTS TO BE AWARDED, WHEN, DURATION — DUTIES OF THE BOARD — RULEMAKING AUTHORITY — ELIGIBILITY CRITERIA — SUNSET PROVISION.

- (7) "War veteran", a person who served in armed combat in the military and to whom the following criteria shall apply:
 - (a) The veteran was a Missouri resident when first entering the military service and at the time of death or injury; and

2. Within the limits of the amounts appropriated therefor, the coordinating board for higher education shall award annually up to twenty-five grants to survivors of war veterans to attend institutions of postsecondary education in this state, which shall continue to be awarded annually to eligible recipients as long as the recipient achieves and maintains a cumulative grade point average of at least two and one-half on a four point scale, or its equivalent. If the waiting list of eligible survivors exceeds fifty, the coordinating board may petition the general assembly to expand the quota. If the quota is not expanded, then the eligibility of survivors on the waiting list shall be extended.

3. A survivor may receive a grant under this section only so long as the survivor is enrolled in a program leading to a certificate, or an associate or baccalaureate degree. In no event shall a survivor receive a grant beyond the completion of the first baccalaureate degree, regardless of age.

4. The coordinating board for higher education shall:

- (1) Promulgate all necessary rules and regulations for the implementation of this section; and

5. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo,

6. In order to be eligible to receive a grant under this section, a survivor shall be certified as eligible by the Missouri veterans' commission. In the case of an illness-related death, such certification shall be made upon qualified medical certification by a Veterans' Administration medical authority that the illness was both a direct result of the veteran's combat service and a substantial factor in the cause of the resulting death of the veteran.

7. A survivor who is enrolled or has been accepted for enrollment as an undergraduate postsecondary student at an approved institution of postsecondary education, and who is selected to receive a grant under this section, shall receive the following:

(3) The actual cost of books, up to a maximum of five hundred dollars per semester.

8. A survivor who is a recipient of a grant may transfer from one approved public institution of postsecondary education to another without losing his or her entitlement under this section. The board shall make necessary adjustments in the amount of the grant. If a grant recipient at any time withdraws from the institution of postsecondary education so that under the rules and regulations of that institution he or she is entitled to a refund of any tuition, fees, room and board, books, or other charges, the institution shall pay the portion of the refund to which he or she is entitled attributable to the grant for that semester or similar grading period to the board.

9. If a survivor is granted financial assistance under any other student aid program, public or private, the full amount of such aid shall be reported to the board by the institution and the eligible survivor.

10. Nothing in this section shall be construed as a promise or guarantee that a person will be admitted to an institution of postsecondary education or to a particular institution of postsecondary education, will be allowed to continue to attend an institution of postsecondary education after having been admitted, or will be graduated from an institution of postsecondary education.

11. The benefits conferred by this section shall be available to any academically qualified surviving spouse or children of war veterans. Surviving children who are eligible shall be permitted to apply for full benefits conferred by this section until they reach twenty-five years of age.

12. Pursuant to section 23.253, RSMo, of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall sunset automatically six years after the effective date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall sunset automatically twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

- (2) The veteran was discharged from military service under honorable conditions.

3. All public institutions of higher education that receive any state funds appropriated by the general assembly shall limit the amount of tuition such institutions charge to combat veterans to fifty dollars per credit hour, as long as the veteran achieves and maintains a cumulative grade point average of at least two and one-half on a four point scale, or its equivalent. The tuition limitation shall only be applicable if the combat veteran is enrolled in a program leading to a certificate, or an associate or baccalaureate degree. The period during which a combat veteran is eligible for a tuition limitation under this section shall expire at the end of the ten-year period beginning on the date of such veteran's last discharge from service.

4. The coordinating board for higher education shall ensure that all applicable institutions of higher education in this state comply with the provisions of this section and may promulgate rules for the efficient implementation of this section.

5. If a combat veteran is eligible to receive financial assistance under any other federal or state student aid program, public or private, the full amount of such aid shall be reported to the board by the institution and the veteran. The tuition limitation under this section shall be provided after all other federal and state aid for which the veteran is eligible has been applied, and no combat veteran shall receive more than the actual cost of attendance when the limitation is combined with other aid made available to such veteran.

6. Each institution may report to the board the amount of tuition waived in the previous fiscal year under the provisions of this act. This information may be included in each institution's request for appropriations to the board for the following year. The board may include this information in its appropriations recommendations to the governor and the general assembly. The general assembly may reimburse institutions for the cost of the waiver for the previous year as part of the operating budget. Nothing in this subsection shall be construed to deny a combat veteran a tuition limitation if the general assembly does not appropriate money for reimbursement to an institution.

7. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2008, shall be invalid and void.

452.412. MILITARY SERVICE OF PARENT NOT TO BE A BASIS FOR MODIFICATION OF A VISITATION OR CUSTODY ORDER. — A party's absence, relocation, or failure to comply with custody and visitation orders shall not, by itself, be sufficient to justify a modification of a custody or visitation order if the reason for the absence, relocation, or failure to comply is the party's activation to military service and deployment out-of-state.

86.1180. PERMANENT DISABILITY CAUSED BY PERFORMANCE OF DUTY, RETIREMENT BY BOARD OF POLICE COMMISSIONERS PERMITTED — BASE PENSION AMOUNT — CERTIFICATION OF DISABILITY. — 1. Any member **in active service** who is permanently unable to perform the full and unrestricted duties of a police officer as the natural, proximate, and exclusive result of an accident occurring within the actual performance of duty at some definite time and place or through an occupational disease arising exclusively out of and in the course of his or her employment shall be retired by the board of police commissioners upon certification by one or more physicians of the medical board that the member is mentally or physically unable to perform the full and unrestricted duties of a police officer, that the inability is permanent or likely to become permanent, and that the member should be retired. The inability to perform the full and unrestricted duties of a police officer means that the member is unable to perform all the essential job functions for the position of police officer as established by the board of police commissioners.

2. Upon such retirement on or after August 28, 2001, a member shall receive a base pension equal to seventy-five percent of his or her final compensation for so long as the permanent disability shall continue, during which time such member shall for purposes of this section be referred to as a disability beneficiary. Such pension may be subject to offset or reduction under section 86.1190 by amounts paid or payable under any workers' compensation law.

3. Once each year during the first five years following his or her retirement, and at least once in every three-year period thereafter, the retirement board may, and upon the member's application shall, require any disability beneficiary who has not yet attained the age of sixty years to undergo a medical examination at a place designated by the medical board or some member thereof. If any disability beneficiary who has not attained the age of sixty years refuses to submit to a medical examination his or her disability pension may be discontinued until his or her withdrawal of such refusal, and if his or her refusal continues for one year, all rights in and to such pension may be revoked by the retirement board.

4. If one or more members of the medical board certify to the retirement board that a disability beneficiary is able to perform the full and unrestricted duties of a police officer, and if the retirement board concurs on the report, then such beneficiary's disability pension shall cease.

5. If upon cessation of a disability pension under subsection 4 of this section, the former disability beneficiary is restored to active service, such member shall contribute to this retirement system thereafter at the same rate as other members. Upon subsequent retirement, such member shall be credited with all his or her creditable service, including any years in which such member received a disability pension under this section.

6. If upon cessation of a disability pension under subsection 4 of this section, the former disability beneficiary is not restored to active service, such member shall be entitled to the retirement benefit to which such member would have been entitled if such member had terminated service at the time of such cessation of the disability pension. For the purpose of such retirement benefits, such former disability beneficiary will be credited with all his or her creditable service, including any years in which such member received a disability pension under this section.

86.1200. PERMANENT DISABILITY NOT CAUSED BY PERFORMANCE OF DUTY, TEN YEARS OF CREDITABLE SERVICE, RETIREMENT PERMITTED — BASE PENSION AMOUNT — CERTIFICATION OF DISABILITY. — 1. Any member **in active service** who has completed ten or more years of creditable service and who has become permanently unable to perform the full and unrestricted duties of a police officer as the result of an injury or illness not exclusively caused or induced by the actual performance of his or her official duties or by his or her own negligence shall be retired by the board of police commissioners upon certification by one or more physicians of the medical board of the retirement board that the member is mentally or physically unable to perform the full and unrestricted duties of a police officer, that the inability is permanent or likely to become permanent, and that the member should be retired. The inability to perform the full and unrestricted duties of a police officer means that the member is unable to perform all the essential job functions for the position of police officer as established by the board of police commissioners.

2. Upon such retirement on or after August 28, 2001, a member shall receive a base pension equal to two and one-half percent of final compensation multiplied by the number of years of creditable service. Such pension shall be paid for so long as the permanent disability shall continue, during which time such member shall for purposes of this section be referred to as a nonduty disability beneficiary.

3. Once each year during the first five years following such member's retirement, and at least once in every three-year period thereafter, the retirement board may, and upon the member's application shall, require any nonduty disability beneficiary who has not yet attained the age of sixty years to undergo a medical examination at a place designated by the medical board. If any nonduty disability beneficiary who has not attained the age of sixty years refuses to submit to a medical examination, his or her nonduty disability pension may be discontinued until his or her withdrawal of such refusal, and if his or her refusal continues for one year, all rights in and to such pension may be revoked by the retirement board.

4. If one or more members of the medical board certify to the retirement board that a nonduty disability beneficiary is able to perform the full and unrestricted duties of a police officer, and if the retirement board concurs in the report, then such beneficiary's nonduty disability pension shall cease.

The medical board shall be appointed by the retirement board and expense for such examinations as are required shall be paid from funds of the retirement system.

5. From time to time, the retirement board shall have the right to require proof of continuing disability which may include further examination by the medical board. A member who immediately returns to work with the police department shall again earn creditable service beginning on the first day of such return. Creditable service prior to disability retirement shall be reinstated. A member who does not return to work with the police department shall be deemed to have terminated employment at the time disability retirement commenced; but in calculating any benefits due upon such presumption, the retirement system shall receive credit for all amounts paid such member during the period of disability, except that such member shall not be obligated in any event to repay to the retirement system any amounts properly paid during such period of disability.

2. A local government agency may also provide for the towing of motor vehicles **or vessels** from real property under the authority of any local ordinance providing for the towing of vehicles

or vessels which are derelict, junk, scrapped, disassembled or otherwise harmful to the public health under the terms of the ordinance. Any local government agency authorizing a tow under this subsection shall report the tow to the local law enforcement agency within two hours with a crime inquiry and inspection report pursuant to section 304.155.

3. Neither the law enforcement officer, local government agency nor anyone having custody of abandoned property under his or her direction shall be liable for any damage to such abandoned property occasioned by a removal authorized by this section other than damages occasioned by negligence or by willful or wanton acts or omissions.

4. The owner of real property or lessee in lawful possession of the real property or the property or security manager of the real property may authorize a towing company to remove abandoned property or property parked in a restricted or assigned area without authorization by a law enforcement officer only when the owner, lessee or property or security manager of the real property is present. A property or security manager must be a full-time employee of a business entity. An authorization to tow pursuant to this subsection may be made only under any of the following circumstances:

(1) There is displayed, in plain view at all entrances to the property, a sign not less than seventeen by twenty-two inches in size, with lettering not less than one inch in height, prohibiting public parking and indicating that unauthorized abandoned property or property parked in a restricted or assigned area will be removed at the owner's expense, disclosing the maximum fee for all charges related to towing and storage, and containing the telephone number of the local traffic law enforcement agency where information can be obtained or a twenty-four-hour staffed emergency information telephone number by which the owner of the abandoned property or property parked in a restricted or assigned area may call to receive information regarding the location of such owner's property;

(2) The abandoned property is left unattended on owner-occupied residential property with four residential units or less, and the owner, lessee or agent of the real property in lawful possession has notified the appropriate law enforcement agency, and ten hours have elapsed since that notification; or

(3) The abandoned property is left unattended on private property, and the owner, lessee or agent of the real property in lawful possession of real property has notified the appropriate law enforcement agency, and ninety-six hours have elapsed since that notification.

5. Pursuant to this section, any owner or lessee in lawful possession of real property that requests a towing company to tow abandoned property without authorization from a law enforcement officer shall at that time complete an abandoned property report which shall be considered a legal declaration subject to criminal penalty pursuant to section 575.060, RSMo. The report shall be in the form designed, printed and distributed by the director of revenue and shall contain the following:

(1) The year, model, make and abandoned property identification number of the property and the owner and any lienholders, if known;

(2) A description of any damage to the abandoned property noted by owner, lessee or property or security manager in possession of the real property;

(3) The license plate or registration number and the state of issuance, if available;

(4) The physical location of the property and the reason for requesting the property to be towed;

(6) The printed name, address and phone number of the owner, lessee or property or security manager in possession of the real property;

(7) The towing company's name and address;

(8) The signature of the towing operator;

(9) The signature of the owner, lessee or property or security manager attesting to the facts that the property has been abandoned for the time required by this section and that all statements

(10) Space for the name of the law enforcement agency notified of the towing of the abandoned property and for the signature of the law enforcement official receiving the report; and

(11) Any additional information the director of revenue deems appropriate.

6. Any towing company which tows abandoned property without authorization from a law enforcement officer pursuant to subsection 4 of this section shall deliver a copy of the abandoned property report to the local law enforcement agency having jurisdiction over the location from which the abandoned property was towed. The copy may be produced and sent by facsimile machine or other device which produces a near exact likeness of the print and signatures required, but only if the law enforcement agency receiving the report has the technological capability of receiving such copy and has registered the towing company for such purpose. The registration requirements shall not apply to law enforcement agencies located in counties of the third or fourth classification. The report shall be delivered within two hours if the tow was made from a signed location pursuant to subdivision (1) of subsection 4 of this section, otherwise the report shall be delivered within twenty-four hours.

7. The law enforcement agency receiving such abandoned property report must record the date on which the abandoned property report is filed with such agency and shall promptly make an inquiry into the national crime information center and any statewide Missouri law enforcement computer system to determine if the abandoned property has been reported as stolen. The law enforcement agency shall enter the information pertaining to the towed property into the statewide law enforcement computer system, and an officer shall sign the abandoned property report and provide the towing company with a signed copy. The department of revenue may design and sell to towing companies informational brochures outlining owner or lessee of real property obligations pursuant to this section.

8. The law enforcement agency receiving notification that abandoned property has been towed by a towing company shall search the records of the department of revenue and provide the towing company with the latest owner and lienholder information, **if available**, on the abandoned property, and if the tower has online access to the department of revenue's records, the tower shall comply with the requirements of section 301.155, RSMo. If the abandoned property is not claimed within ten working days, the towing company shall send a copy of the abandoned property report signed by a law enforcement officer to the department of revenue.

(2) If there was in excess of five-hundredths of one percent but less than [ten-hundredths] **eight-hundredths** of one percent by weight of alcohol in such person's blood, the fact shall not give rise to any presumption that the person was or was not intoxicated, but the fact may be considered with other competent evidence in determining whether the person was intoxicated;

(3) If there was [ten-hundredths] **eight-hundredths** of one percent or more by weight of alcohol in the person's blood, this shall be prima facie evidence that the person was intoxicated at the time the specimen was taken.

2. Percent by weight of alcohol in the blood shall be based upon grams of alcohol per one hundred milliliters of blood.

3. A chemical analysis of a person's breath, blood, urine, or saliva, in order to give rise to the presumption or to have the effect provided for in subsection 1 of this section, shall have been performed as provided in sections 306.111 to 306.119 and in accordance with methods and standards approved by the department of health and senior services.

The owner of any motorboat which violates any provision of this section shall have sixty days from the date of the violation to bring the motorboat into compliance with the provisions of this section. Thereafter, it shall be the owner's responsibility to have the motorboat tested by the state water patrol. If the motorboat fails the state water patrol test, the owner shall immediately moor the motorboat and shall keep the motorboat moored until the state water patrol certifies that the motorboat is in compliance with the provisions of this section. Any person who fails to comply with a request or direction of an officer made pursuant to this subsection is guilty of a class C misdemeanor. Nothing in this subsection shall be construed to limit the officer's ability to enforce this section and to issue citations to the owner or operator of any motorboat during the sixty-day compliance period.

9. Any officer who conducts motorboat sound level tests as provided in this section shall be qualified in motorboat noise testing by the department of public safety. The record shall include the date the notice was received and all information required by subsection 2 of this section which was provided by the excavator **and a record of the underground facility owners notified by the notification center.** If the [recipient] **notification center** creates a record of the notice by [computer or] telephonic recording, such record of the original notice shall be maintained for one year from the date of receipt. **Records of notices to excavate maintained by the notification center in electronic form shall be deemed to be records under this subsection.** Persons holding records of notices of intent to excavate and records of information provided to the excavator by the notification center or owner or operator of the facility, shall make copies of such records

available for a reasonable copying fee upon the request of the owner or operator of the underground facilities or the excavator filing the notice.

[4.] **5.** If in the course of excavation the person responsible for the excavation operations discovers that the owner or operator of the underground facility who is a participant in a notification center has incorrectly located the underground facility, he or she shall notify the notification center which shall inform the [participating owner or operator] **notification center participant**. If the owner or operator of the underground facility is not a participant in a notification center prior to the January 1, 2003, effective date for mandatory participation pursuant to section 319.022, the person responsible for the excavation shall notify the owner. The person responsible for maintaining records of the location of underground facilities for the [owner or operator] **notification center participant** shall correct such records to show the actual location of such facilities, if current records are incorrect.

[5. Notwithstanding the fact that a project is a preengineered project or a permitted project, excavators connected therewith shall be required to give notification in accordance with this section prior to commencement of excavation.]

6. When markings have been provided in response to a notice of intent to excavate, excavators may **commence or** continue to work within the area described in the notice **for** so long as the markings are visible. If markings become unusable due to weather, construction or other cause, the excavator shall contact the notification center to request remarking. Such notice shall be given in the same manner as original notice of intent to excavate, and the owner or operator shall remark the site in the same manner, within the same time, as required in response to an original notice of intent to excavate. Each excavator shall exercise reasonable care not to unnecessarily disturb or obliterate markings provided for location of underground facilities. If remarking is required due to the excavator's failure to exercise reasonable care, or if repeated unnecessary requests for remarking are made by an excavator even though the markings are visible and usable, the excavator may be liable to the owner or operator for the reasonable cost of such remarking.

319.027. DESIGN REQUESTS, HOW MADE — MARKING LOCATION REQUIRED. — 1. Any person may make design requests by contacting the notification center. Such design requests shall include all information deemed necessary by the notification center to complete the notice, including the identification of the person and a description of the location of the project being designed and other information similar to that required of excavators under section 319.026.

2. Design requests shall be made to the notification center at least five working days, but not more than ten working days, before the date the person has requested receiving the information from the underground facility owner. Upon receipt of a design request, the notification center shall inform the person of the name of all notification center participants to whom the notice will be transmitted and shall promptly transmit such notice to the appropriate underground facility owners.

3. Every underground facility owner who receives a design request shall mark the location of the facility, or contact the person making the request, within five working days after the date the notice was received from the notification center. If the person making the request was contacted as an alternative to marking location, the person and the underground facility owner shall mutually agree on a schedule and method for providing the information.

4. No excavation may be commenced based upon information received through a design request. Obtaining information through a design request shall not excuse any person commencing an excavation from making notice and obtaining information under sections 319.025 and 319.026 concerning the possible location of any underground facilities which may be affected.

319.029. NOTIFICATION REQUIRED PRIOR TO EXCAVATION. — Notwithstanding the fact that a project is a preengineered project or a permitted project, or that a design request was previously made, excavators connected therewith shall be required to give notification in accordance with sections 319.025 and 319.026 prior to commencement of excavation.

319.030. NOTIFICATION OF LOCATION OF UNDERGROUND FACILITY, WHEN, HOW — FAILURE TO PROVIDE NOTICE OF LOCATION, EFFECT. — 1. Every person owning or operating an underground facility to whom notice of intent to excavate is required to be given shall, upon receipt of such notice as provided in this section from a person intending to commence an excavation, inform the excavator as promptly as practical, but not in excess of two working days [from receipt of the notice], unless otherwise mutually agreed, of the approximate location of underground facilities in or near the area of the excavation so as to enable the person engaged in the excavation work to locate the facilities in advance of and during the excavation work. **The two working days provided for notice in this subsection and subsection 1 of section 319.026, shall begin at 12:00 a.m. following the receipt of the request by the notification center.** If the information available to the owner or operator of a pipeline facility or an underground electric or communications cable discloses that valves, vaults or other appurtenances are located in or near the area of excavation, the owner or operator shall either inform the excavator of the approximate location of such appurtenances at the same time and in the same manner as the approximate location of the remainder of the facility is provided, or shall at such time inform the excavator that appurtenances exist in the area and provide a telephone number through which the excavator may contact a representative of the owner or operator who will meet at the site within one working day after request from the excavator and at such meeting furnish the excavator with the available information about the location and nature of such appurtenances. If the excavator states in the notice of intent to excavate that the excavation will involve [tunneling or horizontal boring] **trenchless technology**, the owner or operator shall inform the excavator of the depth, to the best of his or her knowledge or ability, of the facility according to the records of the owner or operator. The owner or operator shall provide the approximate location of underground facilities by use of markings. If **flags or stakes** are used, [staking] **such marking** shall be consistent with the color code and other standards for ground markings. Persons representing the excavator and the owner or operator shall meet on the site of excavation within two working days of a request by either person for such meeting for the purpose of clarifying markings, or upon agreement of the excavator and owner or operator, such meeting may be an alternate means of providing the location of facilities by originally marking the approximate location of the facility at the time of the meeting. If upon receipt of a notice of intent to excavate, an owner or operator determines that he or she neither owns or operates underground facilities in or near the area of excavation, the owner or operator shall within two working days after receipt of the notice, inform the excavator that the owner or operator has no facilities located in the area of the proposed excavation. [If the notice of intent to excavate provided to the owner or operator of the underground facility by the notification center states that a person is available at the telephone number given in the notice between 8:00 a.m. and 5:00 p.m. on each working day or that the excavator's telephone is equipped with a recording device, or states a facsimile number for the excavator, the owner or operator shall make actual notice of no facilities in the area of the excavation described in the notice by one or more of the following methods: calling the telephone number given between 8:00 a.m. and 5:00 p.m. on a working day; leaving a message on the excavator's recording device; transmitting a facsimile message to the excavator; marking "no facilities" or "clear" at the site of excavation; or verbally informing the excavator at the site of excavation. If the notice of intent to excavate provided to the owner or operator does not indicate that a person is available at the telephone number given in the notice between 8:00 a.m. and 5:00 p.m. on each working day or that the excavator's telephone is equipped with a recording device or that a facsimile number is provided for receiving facsimile messages, then the owner or operator may attempt to notify the excavator of no facilities in the

area of excavation by any of the methods indicated above; however, two documented attempts by the owner or operator to reach such an excavator by telephone shall constitute compliance with this subsection.] **The owner or operator of the underground facility shall make notice to the excavator that no facilities are located in the area of excavation by contacting the excavator by any of the following methods:**

- (1) **By calling the primary number of the excavator or by calling the telephone number of the responsible person as provided by the excavator under subdivision (4) of subsection 2 of section 319.026;**
- (2) **By leaving a message on the recording device for such numbers;**
- (3) **By calling the cellular telephone number of the excavator or responsible person;**
- (4) **By notifying the excavator by facsimile or electronic mail at numbers or addresses stated by the excavator in the notice of excavation made under subsection 2 of section 319.026;**
- (5) **By marking "clear" or "OK" at the site of excavation; or**
- (6) **By verbally informing the excavator in person.**

If the only means of contacting the excavator is one or more telephone numbers provided by the excavator in the notice of excavation under section 319.026, then two attempts by the underground facility owner to contact the excavator at one of the telephone numbers provided shall constitute compliance with this subsection.

2. A record of the date and means of informing the excavator that no facilities were located by the owner or operator shall be included in the written records [required by subsection 3 of section 319.026] **of the underground facility owner regarding each specific notice of excavation.**

[2. Owners and operators of underground facilities who are participants in the notification center according to the current list maintained in the offices of the notification center shall be relieved of the responsibility to respond to notices of intent to excavate received directly from the person intending to commence an excavation, except for requests for clarification of markings through on-site meetings and requests for locations at the time of an emergency as provided by section 319.050.]

3. In the event that a person owning or operating an underground facility fails to comply with the provisions of subsection 1 of this section after notice given by an excavator in compliance with section 319.026, the excavator, prior to commencing the excavation, shall give a second notice to the [same entity to whom the original notice was made] **notification center as required by section 319.026 stating that there has been no response to the original notice given under section 319.026.** [If,] After the receipt of the [second] notice **stating there has been "no response",** the owner or operator of an underground facility [fails to provide the excavator with location information during the next working day] **shall, within two hours of the receipt of such notice, mark its facilities or contact and inform the excavator of when the facilities will be marked; provided, however, that for "no response" notices made to the notification center by 2:00 p.m., the markings shall be completed on the working day the notice is made to the notification center, and provided that for "no response" notices made to the notification center after 2:00 p.m., the markings shall be completed no later than 10:00 a.m. on the next working day. If an underground facility owner fails to mark its facilities or contact the excavator as required by this subsection,** the excavator may commence the excavation. Nothing in this subsection shall excuse the excavator from exercising the degree of care in making the excavation as is otherwise required by law.

4. For purposes of this section, a period of two working days begins [upon receipt of the excavator's notice of intent to excavate or upon receipt of a request for a meeting and shall end on the second working day thereafter at the same time of day. If the excavator's notice of intent to excavate or a request for a meeting is received on a working day before 8:00 a.m., such period of time shall begin at 8:00 a.m. of that day. If the excavator's notice of intent to excavate or a

request for a meeting is received after 5:00 p.m. on a working day, or at any time on a day that is not a working day, then such period of time shall begin at 8:00 a.m. of the first working day after the day of actual receipt] **at 12:00 a.m. following when the request is made.**

319.037. EXCAVATION SITES INCLUDED IN REQUIREMENTS — EQUIPMENT PROHIBITED AT SUCH SITES. — 1. Notwithstanding any other provision of law to the contrary, the procedures and requirements set forth in this section shall apply on the site of any excavation involving [horizontal boring] **trenchless excavation**, including directional drilling, where the approximate location of underground facilities has been marked in compliance with section 319.030 and where any part of the walls of the intended bore are within the marked approximate location of the underground facility.

2. The excavator shall not use power-driven equipment for [horizontal boring] **trenchless excavation**, including directional drilling, within the marked approximate location of such underground facilities until the excavator has made careful and prudent efforts to confirm the horizontal and vertical location thereof in the vicinity of the proposed excavation through methods appropriate to the geologic and weather conditions, and the nature of the facility, such as the use of electronic locating devices, hand digging, pot holing when practical, soft digging, vacuum methods, use of pressurized air or water, pneumatic hand tools or other noninvasive methods as such methods are developed. Such methods of confirming location shall not violate established safety practices. Nothing in this subsection shall authorize any person other than the owner or operator of a facility to attach an electronic locating device to any underground facility. For excavations paralleling the underground facility, such efforts to confirm the location of the facility shall be made at careful and prudent intervals. The excavator shall also make careful and prudent efforts by such means as are appropriate to the geologic and weather conditions and the nature of the facility, to confirm the horizontal and vertical location of the boring device during boring operations. Notwithstanding the foregoing, the excavator shall not be required to confirm the horizontal or vertical location of the underground facilities if the excavator, using the methods described in this section, excavates a hole over the underground facilities to a depth two feet or more below the planned boring path and then carefully and prudently monitors the horizontal and vertical location of the boring device in a manner calculated to enable the device to be visually observed by the excavator as it crosses the entire width of the marked approximate location of the underground facilities.

319.041. SAFE AND PRUDENT EXCAVATION REQUIRED. — Nothing in the foregoing shall relieve an excavator from the obligation to excavate in a safe and prudent manner, nor shall it absolve an excavator from liability for damage to legally installed facilities. [Notwithstanding any provision of law to the contrary, nothing in this chapter shall abrogate any contractual provisions entered into between any railroad and any other party owning or operating an underground facility within the railroad's right-of-way.]

319.042. NO ABROGATION OF CONTRACTUAL OBLIGATIONS WITH RAILROADS. — Notwithstanding any provision of law to the contrary, nothing in this chapter shall abrogate any contractual provisions entered into between any railroad and any other party owning or operating an underground facility within the railroad's right-of-way. For railroads regulated by the Federal Railroad Administration, sections 319.015 to 319.050 shall not include any underground facility owned or operated by a railroad on land which the railroad owns or any excavation done by a railroad when such excavation is done entirely on land which the railroad owns.

319.045. NOTICE IF UNDERGROUND FACILITY DISTURBED TO NOTIFICATION CENTER, WHEN — DUTIES OF EXCAVATOR — CIVIL PENALTIES — ATTORNEY GENERAL MAY BRING ACTION. — 1. In the event of any damage or dislocation or disturbance of any underground

facility in connection with any excavation, the person responsible for the excavation operations shall immediately notify the notification center [and the owner or operator of the facility or the owner or operator, if known, if it is not a participant in the notification center prior to January 1, 2003. On or after January 1, 2003, the responsible party shall notify the notification center only]

. This subsection shall be deemed to require reporting of any damage, dislocation, or disturbance to trace wires, encasements, cathode protection, permanent above-ground stakes or other such items utilized for protection of the underground facility.

2. In the event of any damage or dislocation or disturbance to any underground facility **or any protective devices required to be reported by the excavator under subsection 1 of this section**, in advance of or during the excavation work, the person responsible for the excavation operations shall not conceal or attempt to conceal such damage or dislocation or disturbance, nor shall that person attempt or make repairs to the facility unless authorized by the owner or operator of the facility. In the case of sewer lines or facilities, emergency temporary repairs may be made by the excavator after notification without the owners' or operators' authorization to prevent further damage to the facilities. Such emergency repairs shall not relieve the excavator of responsibility to make notification as required by subsection 1 of this section.

3. Any person who violates in any material respect the provisions of section 319.022, [319.023,] 319.025, 319.026, **319.029**, 319.030, 319.037, or 319.045 or who willfully damages an underground facility shall be liable to the state of Missouri for a civil penalty of up to ten thousand dollars for each violation for each day such violation persists, except that the maximum penalty for violation of the provisions of sections 319.010 to 319.050 shall not exceed five hundred thousand dollars for any related series of violations. An action to recover such civil penalty may be brought by the attorney general or a prosecuting attorney on behalf of the state of Missouri in any appropriate circuit court of this state. Trial thereof shall be before the court, which shall consider the nature, circumstances and gravity of the violation, and with respect to the person found to have committed the violation, the degree of culpability, the absence or existence of prior violations, whether the violation was a willful act, the effect on ability to continue to do business, any good faith in attempting to achieve compliance, ability to pay the penalty, and such other matters as justice may require in determining the amount of penalty imposed.

4. The attorney general may bring an action in any appropriate circuit court of this state for equitable relief to redress or restrain a violation by any person of any provision of sections 319.010 to 319.050. The court may grant such relief as is necessary or appropriate, including mandatory or prohibitive injunctive relief, temporary or permanent.

319.050. EXEMPTIONS FROM REQUIREMENT TO OBTAIN INFORMATION. — The provisions of sections 319.025 and 319.026 shall not apply to any [utility which is repairing or replacing any of its facilities due to damage caused during an unexpected occurrence or when making an excavation at times of emergency resulting from a sudden, unexpected occurrence, and presenting a clear and imminent danger demanding immediate action to prevent or mitigate loss or damage to life, health, property or essential public services. "Unexpected occurrence" includes, but is not limited to, thunderstorms, high winds, ice or snow storms, fires, floods, earthquakes, or other soil or geologic movements, riots, accidents, water pipe breaks, vandalism or sabotage which cause damage to surface or subsurface facilities requiring immediate repair] **excavation when necessary due to an emergency as defined in section 319.015.** An [excavator or utility] **excavation** may proceed regarding such emergency, provided all reasonable precautions have been taken to protect the underground facilities. In any such case, the excavator [or utility] shall give notification, substantially in compliance with section 319.026, as soon as practical, and upon being notified that an emergency exists, each [owner and operator of an] underground facility **owner** in the area shall [immediately provide all location information reasonably available to any excavator who requests the same] , **within two hours after receiving such notice, provide markings or contact the excavator with any information**

immediately available to assist the excavator and shall inform the excavator if not able to mark within the two hours of when the underground facility will be marked at the site of the emergency. The excavator may be liable to the owner or operator for costs directly associated with the locating of any such underground facility relating to a notification of an emergency that does not meet the definition of "emergency" as stated in section 319.015.

386.572. NATURAL GAS SAFETY STANDARDS, GAS PLANTS NOT TO VIOLATE — MAXIMUM PENALTIES FOR VIOLATIONS, HOW DETERMINED. — 1. No corporation, person, public utility, or municipality that owns any gas plant shall violate any law or any order, decision, decree, rule, direction, demand, or requirement of the commission or any part or portion thereof relating to federally mandated natural gas safety standards. Notwithstanding the above, a municipality that owns any gas plant shall be subject to the provisions of this section only for violations of natural gas safety laws, rules, or orders.

2. The maximum penalties for violations of federally mandated natural gas safety standards, or such stricter natural gas safety standards or rules as may be approved by

the commission, shall not be greater than fifteen thousand dollars for each violation with a maximum penalty for a continuing violation or a multiple series of violations of the same standard or rule provision not to exceed one hundred fifty thousand dollars, notwithstanding any provisions of subsection 1 of section 386.570 to the contrary. The maximum penalty for each violation shall increase to twenty thousand dollars, effective January 1, 2015, twenty-five thousand dollars, effective January 1, 2025, thirty thousand dollars, effective January 1, 2035, and forty thousand dollars, effective January 1, 2040. The maximum penalty for a continuing violation or a multiple series of violations of the same standard or rule provision shall increase to two hundred thousand dollars, effective January 1, 2015, two hundred fifty thousand dollars, effective January 1, 2025, three hundred thousand dollars, effective January 1, 2035, and four hundred thousand dollars, effective January 1, 2040. In determining the amount of the penalty, the commission shall consider the nature, circumstances, and gravity of the violation, and also shall consider, with respect to the entity found to have committed the violation:

- (1) The degree of culpability;
- (2) Any history of prior violations;
- (3) The effect of the penalty on the entity's ability to continue operation;

In case of a continuing violation, each day's continuance thereof shall be a separate and distinct offense.

4. In construing and enforcing the provisions of this section, the act, omission, or failure of any officer, agent, or employee of any corporation, person, public utility, or municipality that owns any gas plant acting within the scope of official duties of employment shall in every case be considered the act, omission, or failure of such corporation, person, public utility, or municipality that owns any gas plant.

392.200. ADEQUATE SERVICE — JUST AND REASONABLE CHARGES — UNJUST DISCRIMINATION — UNREASONABLE PREFERENCE — REDUCED RATES PERMITTED FOR FEDERAL LIFELINE CONNECTION PLAN — DELIVERY OF TELEPHONE AND TELEGRAPH MESSAGES — CUSTOMER — SPECIFIC PRICING — TERM AGREEMENTS, DISCOUNT RATES. — 1. Every telecommunications company shall furnish and provide with respect to its business such instrumentalities and facilities as shall be adequate and in all respects just and reasonable. All charges made and demanded by any telecommunications company for any service rendered or to be rendered in connection therewith shall be just and reasonable and not more than allowed by law or by order or decision of the commission. Every unjust or unreasonable charge made or demanded for any such service or in connection therewith or in excess of that allowed by law or by order or decision of the commission is prohibited and declared to be unlawful.

2. No telecommunications company shall directly or indirectly or by any special rate, rebate, drawback or other device or method charge, demand, collect or receive from any person or corporation a greater or less compensation for any service rendered or to be rendered with respect to telecommunications or in connection therewith, except as authorized in this chapter, than it charges, demands, collects or receives from any other person or corporation for doing a like and contemporaneous service with respect to telecommunications under the same or substantially the same circumstances and conditions. Promotional programs for telecommunications services may be offered by telecommunications companies for periods of time so long as the offer is otherwise consistent with the provisions of this chapter and approved by the commission. Neither this subsection nor subsection 3 of this section shall be construed

to prohibit an economy rate telephone service offering. This section and section 392.220 to the contrary notwithstanding, the commission is authorized to approve tariffs filed by local exchange telecommunications companies which elect to provide reduced charges for residential telecommunications connection services pursuant to the lifeline connection assistance plan as promulgated by the federal communications commission. Eligible subscribers for such connection services shall be those as defined by participating local exchange telecommunications company tariffs.

3. No telecommunications company shall make or give any undue or unreasonable preference or advantage to any person, corporation or locality, or subject any particular person, corporation or locality to any undue or unreasonable prejudice or disadvantage in any respect whatsoever except that telecommunications messages may be classified into such classes as are just and reasonable, and different rates may be charged for the different classes of messages.

4. (1) No telecommunications company may define a telecommunications service as a different telecommunications service based on the geographic area or other market segmentation within which such telecommunications service is offered or provided, unless the telecommunications company makes application and files a tariff or tariffs which propose relief from this subsection. Any such tariff shall be subject to the provisions of sections 392.220 and 392.230 and in any hearing thereon the burden shall be on the telecommunications company to show, by clear and convincing evidence, that the definition of such service based on the geographic area or other market within which such service is offered is reasonably necessary to promote the public interest and the purposes and policies of this chapter.

(2) It is the intent of this act to bring the benefits of competition to all customers and to ensure that incumbent and alternative local exchange telecommunications companies have the opportunity to price and market telecommunications services to all prospective customers in any geographic area in which they compete. To promote the goals of the federal Telecommunications Act of 1996, **for an alternative local exchange telecommunications company or for an incumbent local exchange telecommunications company in any exchange where an incumbent local exchange telecommunications company has been classified competitive under sections 392.245 and 392.361, an alternative local exchange telecommunications company has been certified and is providing basic local telecommunications services or switched exchange access services, or [for an alternative local exchange telecommunications company] an interconnected voice over Internet protocol service provider has been registered and is providing local voice service,** the commission shall review and approve or reject, within forty-five days of filing, tariffs for proposed different services as follows:

(a) For services proposed on an exchangewide basis, it shall be presumed that a tariff which defines and establishes prices for a local exchange telecommunications service or exchange access service as a different telecommunications service in the geographic area, no smaller than an exchange, within which such local exchange telecommunications service or exchange access service is offered is reasonably necessary to promote the public interest and the purposes and policies of this chapter;

(b) For services proposed in a geographic area smaller than an exchange or other market segmentation within which or to whom such telecommunications service is proposed to be offered, a local exchange telecommunications company may petition the commission to define and establish a local exchange telecommunications service or exchange access service as a different local exchange telecommunications service or exchange access service. The commission shall approve such a proposal unless it finds that such service in a smaller geographic area or such other market segmentation is contrary to the public interest or is contrary to the purposes of this chapter. Upon approval of such a smaller geographic area or such other market segmentation for a different service for one local exchange telecommunications company, all other local exchange telecommunications companies certified

to provide service in that exchange may file a tariff to use such smaller geographic area or such other market segmentation to provide that service;

(c) For proposed different services described in paragraphs (a) and (b) of this subdivision, the local exchange telecommunications company which files a tariff to provide such service shall provide the service to all similarly situated customers, upon request in accordance with that company's approved tariff, in the exchange or geographic area smaller than an exchange or such other market segmentation for which the tariff was filed, and no price proposed for such service by an incumbent local exchange telecommunications company, other than for a competitive service, shall be lower than its long-run incremental cost, as defined in section 386.020, RSMo;

(3) The commission, on its own motion or upon motion of the public counsel, may by order, after notice and hearing, define a telecommunications service offered or provided by a telecommunications company as a different telecommunications service dependent upon the geographic area or other market within which such telecommunications service is offered or provided and apply different service classifications to such service only upon a finding, based on clear and convincing evidence, that such different treatment is reasonably necessary to promote the public interest and the purposes and policies of this chapter.

5. No telecommunications company may charge a different price per minute or other unit of measure for the same, substitutable, or equivalent interexchange telecommunications service provided over the same or equivalent distance between two points without filing a tariff for the offer or provision of such service pursuant to sections 392.220 and 392.230. In any proceeding under sections 392.220 and 392.230 wherein a telecommunications company seeks to charge a different price per minute or other unit of measure for the same, substitutable, or equivalent interexchange service, the burden shall be on the subject telecommunications company to show that such charges are in the public interest and consistent with the provisions and purposes of this chapter. The commission may modify or prohibit such charges if the subject telecommunications company fails to show that such charges are in the public interest and consistent with the provisions and purposes of this chapter. This subsection shall not apply to reasonable price discounts based on the volume of service provided, so long as such discounts are nondiscriminatory and offered under the same rates, terms, and conditions throughout a telecommunications company's certificated or service area.

6. Every telecommunications company operating in this state shall receive, transmit and deliver, without discrimination or delay, the conversations and messages of every other telecommunications company with whose facilities a connection may have been made.

7. The commission shall have power to provide the limits within which telecommunications messages shall be delivered without extra charge.

8. Customer-specific pricing is authorized on an equal basis for incumbent and alternative local exchange companies, and for interexchange telecommunications companies for:

- (1) Dedicated, nonswitched, private line and special access services;
- (2) Central office-based switching systems which substitute for customer premise, private branch exchange (PBX) services; and
- (3) Any business service offered in an exchange in which basic local telecommunications service offered [to business customers] by the incumbent local exchange telecommunications company has been declared competitive under section 392.245, **and any retail business service offered to an end-user in a noncompetitive exchange.**

9. This act shall not be construed to prohibit the commission, upon determining that it is in the public interest, from altering local exchange boundaries, provided that the incumbent local exchange telecommunications company or companies serving each exchange for which the boundaries are altered provide notice to the commission that the companies approve the alteration of exchange boundaries.

10. Notwithstanding any other provision of this section, every telecommunications company is authorized to offer term agreements of up to five years on any of its telecommunications services.

11. Notwithstanding any other provision of this section, every telecommunications company is authorized to offer discounted rates or special promotions on any of its telecommunications services to any existing, new, and/or former customers.

12. Packages of services may be offered on an equal basis by incumbent and alternative local exchange companies and shall not be subject to regulation under section 392.240 or 392.245, nor shall packages of services be subject to the provisions of subsections 1 through 5 of this section, provided that each telecommunications service included in a package is available apart from the package of services and still subject to regulation under section 392.240 or 392.245. For the purposes of this subsection, a "package of services" includes more than one telecommunications service or one or more telecommunications service combined with one or more nontelecommunications service. **Any tariff to introduce a new package or to make any change to an existing package, except for the elimination of a package, shall be filed, on an informational basis, with the commission at least one day prior to the introduction of such new package or implementation of such change. Any tariff to eliminate an existing package shall be filed, on an informational basis, with the commission at least ten days prior to the elimination of the package.**

392.220. RATES, SCHEDULES, SUSPENSION OF, WHEN — REVOCATION OF CERTIFICATE OF SERVICE, PENALTY. — 1. Every telecommunications company shall print and file with the commission schedules showing the rates, rentals and charges for service of each and every kind by or over its facilities between points in this state and between each point upon its facilities and all points upon all facilities leased or operated by it and between each point upon its facilities or upon any facility leased or operated by it and all points upon the line of any other telecommunications company whenever a through service or joint rate shall have been established between any two points. If no joint rate over through facilities has been established, the several companies joined over such through facilities shall file with the commission the separately established rates and charges applicable where through service is afforded. Such schedule shall plainly state the places between which telecommunications service will be rendered and shall also state separately all charges and all privileges or facilities granted or allowed and any rules or regulations or forms of contract which may in any wise change, affect or determine any or the aggregate of the rates, rentals or charges for the service rendered. Such schedule shall be plainly printed and kept open to public inspection. The commission shall have the power to prescribe the form of every such schedule and may from time to time prescribe, by order, changes in the form thereof. The commission shall also have power to establish rules and regulations for keeping such schedules open to public inspection and may from time to time modify the same. Every telecommunications company shall file with the commission as and when required by it a copy of any contract, agreement or arrangement in writing with any other telecommunications company or with any other corporation, association or person relating in any way to the construction, maintenance or use of telecommunications facilities or service by or rates and charges over or upon any facilities.

2. Unless the commission otherwise orders, and except for the rates charged by a telephone cooperative for providing telecommunications service within an exchange or within a local calling scope as determined by the commission other than the rates for exchange access service, no change shall be made in any rate, charge or rental, or joint rate, charge or rental which shall have been filed by a telecommunications company in compliance with the requirements of sections 392.190 to 392.530, except after thirty days' notice to the commission, which notice shall plainly state the changes proposed to be made in the schedule then in force and the time when the changed rate, charge or rental shall go into effect; and all proposed changes shall be shown by filing new schedules or shall be plainly indicated upon the schedules filed and in force at the time and kept open to public inspection. The commission for good cause shown may allow changes in rates, charges or rentals without requiring the thirty days' notice, under such conditions as it may prescribe. All such changes shall be immediately indicated upon its

schedules by such telecommunications company. No telecommunications company shall charge, demand, collect or receive a different compensation for any service rendered or to be rendered than the charge applicable to such service as specified in its schedule on file and in effect at that time. No telecommunications company shall refund or remit directly or indirectly any portion of the rate or charge so specified, nor extend to any person or corporation any form of contract or agreement, or any rule or regulation, or any privilege or facility other than such privileges and facilities as are contemplated by sections 392.200, 392.245, and 392.455, except such as are specified in its schedule filed and in effect at the time and regularly and uniformly extended to all persons and corporations under like circumstances for a like or substantially similar service.

3. No telecommunications company subject to the provisions of this law shall, directly or indirectly, give any free or reduced service, or any free pass or frank for the provision of telecommunications services between points within this state, except to its officers, employees, agents, surgeons, physicians, attorneys at law and their families; to persons or corporations exclusively engaged in charitable and eleemosynary work and ministers of religions; to officers and employees of other telegraph corporations and telephone corporations, railroad corporations and street railroad corporations; public education institutions, public libraries and not-for-profit health care institutions. This subsection shall not apply to state, municipal or federal contracts.

4. Any proposed rate or charge for any new telecommunications service which has not previously been provided by a telecommunications company to its Missouri customers may be suspended by the commission for a period not to exceed ~~[sixty]~~ **thirty** days from the proposed effective date of such proposed rate or charge. This subsection shall not be applicable to any new price or method of pricing for a service presently being offered by any telecommunications company to its Missouri customers. Upon proposing a rate or charge for a telecommunications service which has not previously been provided by a telecommunications company to its Missouri customers, the offeror must file with the commission its justification for considering such offering a new service and such other information as may be required by rule or regulation, and must identify that service as being noncompetitive, transitionally competitive or competitive. If the offeror is a noncompetitive or transitionally competitive telecommunications company and it proposes such service as a transitionally competitive or competitive telecommunications service, the telecommunications service shall be treated as a transitionally competitive telecommunications service until such time as the commission finally determines the appropriate classification. If the offeror is a competitive telecommunications company and it proposes such service as a competitive service, the competitive classification proposed by the offeror of the service shall apply until such time as the commission finally determines the appropriate classification. Such final determination by the commission of the appropriate classification of such service may be made by the commission after the end of the maximum ~~[sixty-day]~~ **thirty-day** suspension period, but any such decision by the commission issued after the maximum ~~[sixty-day]~~ **thirty-day** suspension period shall be prospective in nature. The commission shall expedite proceedings under this subsection in order to facilitate the rapid introduction of new telecommunications products and services into the marketplace.

5. Unless the commission otherwise orders, any change in rates or charges, or change in any classification or tariff resulting in a change in rates or charges, for any telephone cooperative shall be filed, on an informational basis, with the commission at least thirty days prior to the date for implementation of such change. Nothing contained in this section shall be construed as conferring jurisdiction upon the commission over the rates charged by a telephone cooperative for providing telecommunications service within an exchange or within a local calling scope as determined by the commission, except for exchange access service.

6. If after notice and hearing, the commission determines that a telecommunications company has violated the requirements of section 392.200 or this section, it may revoke the certificate of service authority under which that telecommunications company operates and shall direct its general counsel to initiate an action under section 386.600, RSMo, to recover penalties from such telecommunications company in an amount not to exceed the revenues received as

a result of such violation multiplied by three or the gross jurisdictional operating revenues of that company for the preceding twelve months, the provisions of section 386.570, RSMo, notwithstanding.

392.230. CHARGES FOR SHORT AND LONG DISTANCE SERVICE — POWER OF COMMISSION TO STAY INCREASED RATES — HEARING, REQUIREMENTS, SMALL TELEPHONE COMPANY, REQUIREMENTS. — 1. No telecommunications company subject to the provisions of this chapter shall charge or receive any greater compensation in the aggregate for the transmission of any interexchange telecommunications service offered or provided for a shorter than for a longer distance over the same line or route in the same direction, within this state, the shorter being included within the longer distance, or charge any greater compensation for a through interexchange telecommunications service than the aggregate of the intermediate rates or tolls subject to the provisions of this chapter; but this shall not be construed as authorizing any such telecommunications company to charge or receive as great a compensation for a shorter as for a longer distance.

2. Upon application to the commission, a telecommunications company may, in special cases, after investigation, be authorized by the commission to charge less for a longer than for a shorter distance service for the transmission of messages or conversations, and the commission may from time to time prescribe the extent to which such telecommunications companies may be relieved from the operation and requirements of this section.

3. Whenever there shall be filed with the commission by any telecommunications company, other than a small telephone company, any schedule stating a new individual or joint rate, rental or charge, or any new individual or joint regulation or practice affecting any rate, rental or charge, the commission shall have, and it is hereby given, authority, either upon complaint or upon its own initiative without complaint, at once, and if it so orders without answer or other formal pleading by the interested telecommunications company or companies, but upon reasonable notice, to enter upon a hearing concerning the propriety of such rate, rental, charge, regulation or practice; and pending such hearing and the decision thereon the commission, upon filing with such schedule and delivering to the telecommunications company affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such schedule and defer the use of such rate, rental, charge, regulation or practice, but not for a longer period than [one hundred and twenty] **sixty** days beyond the time when such rate, rental, charge, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, rental, charge, regulation or practice goes into effect, the commission may make such order in reference to such rate, rental, charge, regulation or practice as would be proper in a proceeding initiated after the rate, rental, charge, regulation or practice had become effective, however, if any such hearing cannot be concluded within the period of suspension, as above stated, the commission may, in its discretion, extend the time of suspension for a further period not exceeding [six months] **ninety days**.

4. For the purposes of this section, a "small telephone company" is defined as a local exchange telecommunications company which serves no more than twenty-five thousand subscriber access lines in the state of Missouri.

5. Whenever a small telephone company seeks to implement any new individual or joint rate, rental or charge, or any individual or joint regulation or practice affecting any rate, rental or charge, it shall file same with the commission and notify its customers of such change at least thirty days in advance of the date on which the new rate, rental, charge, regulation or practice is proposed to become effective. Upon the filing by a small telephone company of any new individual or joint rate, rental or charge, or any new individual or joint regulation or practice affecting any rate, rental or charge, the commission shall have, and it is hereby given, authority, either upon complaint or upon its own initiative without complaint, at once, and if it so orders without answer or other formal pleading by the interested small telephone company or companies, but upon reasonable notice, to enter upon a hearing concerning the propriety of such

rate, rental, charge, regulation or practice; and pending such hearing and the decision thereon the commission, upon filing with such schedule and delivering to the small telephone company affected thereby a statement in writing of its reasons for such suspension, may suspend the operation of such schedule and defer the use of such rate, rental, charge, regulation or practice, but not for a longer period than one hundred fifty days beyond the time when such rate, rental, charge, regulation or practice would otherwise go into effect. If the commission fails to issue its decision within the one-hundred-fifty-day suspension period, the investigation shall be closed and the rate, rental, charge, regulation or practice shall be considered approved for all purposes.

6. At any hearing involving a rate increased or a rate sought to be increased after the passage of this law, the burden of proof to show that the increased rate or proposed increased rate is just and reasonable shall be upon the telecommunications company, and the commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

392.245. COMPANIES TO BE REGULATED, WHEN — MAXIMUM PRICES, DETERMINED HOW, CHANGED HOW — CLASSIFICATION — CHANGE OF RATES — NONWIRELESS BASIC LOCAL TELECOMMUNICATIONS SERVICES, EXEMPT FROM MAXIMUM ALLOWABLE PRICES. — 1. The commission shall have the authority to ensure that rates, charges, tolls and rentals for telecommunications services are just, reasonable and lawful by employing price cap regulation. Any rate, charge, toll, or rental that does not exceed the maximum allowable price under this section shall be deemed to be just, reasonable, and lawful. As used in this chapter, "price cap regulation" shall mean establishment of maximum allowable prices for telecommunications services offered by an incumbent local exchange telecommunications company, which maximum allowable prices shall not be subject to increase except as otherwise provided in this section.

2. A large incumbent local exchange telecommunications company shall be subject to regulation under this section upon a determination by the commission that an alternative local exchange telecommunications company has been certified to provide basic local telecommunications service **or an interconnected voice over Internet protocol service provider has been registered to provide service under section 392.550**, and is providing such service in any part of the large incumbent company's service area. A small incumbent local exchange telecommunications company may elect to be regulated under this section upon providing written notice to the commission if an alternative local exchange telecommunications company has been certified to provide basic local telecommunications service **or an interconnected voice over Internet protocol service provider has been registered to provide service under section 392.550**, and is providing such service, or if two or more commercial mobile service providers providing wireless two-way voice communications services are providing services, in any part of the small incumbent company's service area, and the incumbent company shall remain subject to regulation under this section after such election.

3. Except as otherwise provided in this section, the maximum allowable prices established for a company under subsection 1 of this section shall be those in effect on December thirty-first of the year preceding the year in which the company is first subject to regulation under this section. Tariffs authorized under subsection 9 of this section shall be phased in as provided under such tariffs as approved by the commission.

4. (1) Except as otherwise provided in subsections 8 and 9 of this section and section 392.248, the maximum allowable prices for exchange access and basic local telecommunications services of a small, incumbent local exchange telecommunications company regulated under this section shall not be changed for a period of twelve months after the date the company is subject to regulation under this section. Except as otherwise provided in subsections 8 and 9 of this section and section 392.248, the maximum allowable prices for exchange access and basic local telecommunications services of a large, incumbent local exchange telecommunications company regulated under this section shall not be changed prior to January 1, 2000. Thereafter, the

maximum allowable prices for exchange access and basic local telecommunications services of an incumbent local exchange telecommunications company shall be annually changed by [one of] the following methods:

(a) By the change in the [telephone service component of the] Consumer Price Index [(CPI-TS)] (**CPI**), as published by the United States Department of Commerce or its successor agency for the preceding twelve months; provided however, that if such a change in the [CPI-TS] (**CPI**) for the preceding twelve months is negative, upon request by the company and approval by the commission for good cause shown, the commission may waive any requirement to reduce prices of exchange access and basic local telecommunications service and those existing prices shall remain the maximum allowable prices for purposes of this section until the next annual change. All revenues that are attributable to a [CPI-TS] (**CPI**) reduction waiver shall be used for the purposes approved by the commission to benefit local exchange ratepayers in a specific exchange or exchanges, including but not limited to expanded local calling scopes; [or]

(b) [Upon request by the company and approval by the commission, by the change in the Gross Domestic Product Price Index (GDP-PI), as published by the United States Department of Commerce or its successor agency for the preceding twelve months, minus the productivity offset established for telecommunications service by the Federal Communications Commission and adjusted for exogenous factors.] **Notwithstanding the foregoing, upon a finding that a company that is subject to price-cap regulation has telecommunications services in one or more exchanges classified as competitive, the company may increase the maximum allowable rate for basic local telecommunications service in noncompetitive exchanges at a level not to exceed the statewide average for basic local telecommunications service in the competitively classified exchanges of that company, provided that any annual increase in rates for residential basic local telecommunications service shall not exceed two dollars per line per month for a period of four years.**

(2) The commission shall approve a change to a maximum allowable price or make a determination regarding a request for waiver filed pursuant to [paragraph (a) of] subdivision (1) of this subsection within forty-five days of filing of notice by the local exchange telecommunications company. An incumbent local exchange telecommunications company shall file a tariff to reduce the rates charged for any service in any case in which the current rate exceeds the maximum allowable price established under this subsection.

(3) [As a part of its request under paragraph (b) of subdivision (1) of this subsection, a company may seek commission approval to use a different productivity offset in lieu of the productivity offset established by the Federal Communications Commission. An adjustment under paragraph (b) of subdivision (1) of this subsection shall not be implemented if the commission determines, after notice and hearing to be conducted within forty-five days of the filing of the notice of a change to a maximum allowable price, that it is not in the public interest. In making such a determination, the commission shall consider the relationship of the proposed price of service to its cost and the impact of competition on the incumbent local exchange telecommunications company's intrastate revenues from regulated telecommunications services. Any adjustments for exogenous factors shall be allocated to the maximum allowable prices for exchange access and basic local telecommunications service in the same percentage as the revenues for such company bears to such company's total revenues from basic local, nonbasic and exchange access services for the preceding twelve months.

(4) For the purposes of this section, the term "exogenous factor" shall mean a cumulative impact on a local exchange telecommunications company's intrastate regulated revenue requirement of more than three percent, which is attributable to federal, state or local government laws, regulations or policies which change the revenue, expense or investment of the company, and the term "exogenous factor" shall not include the effect of competition on the revenue, expense or investment of the company nor shall the term include any assessment made under section 392.248.

(5)] An incumbent local exchange telecommunications company may change the rates for its services, consistent with the provisions of subsections 2 through 5 of section 392.200, but not to exceed the maximum allowable prices, by filing tariffs which shall be approved by the commission within [thirty] **ten** days, provided that any such rate is not in excess of the maximum allowable price established for such service under this section.

5. Each telecommunications service offered to business customers, other than exchange access service, of an incumbent local exchange telecommunications company regulated under this section shall be classified as competitive in any exchange in which at least two nonaffiliated entities in addition to the incumbent local exchange company are providing basic local telecommunications service to business **or residential** customers within the exchange. Each telecommunications service offered to residential customers, other than exchange access service, of an incumbent local exchange telecommunications company regulated under this section shall be classified as competitive in an exchange in which at least two nonaffiliated entities in addition to the incumbent local exchange company are providing basic local telecommunications service to residential customers within the exchange. For purposes of this subsection **and not for purposes of defining the commission's jurisdiction:**

(1) Commercial mobile service providers as identified in 47 U.S.C. Section 332(d)(1) and 47 C.F.R. Parts 22 or 24 shall be considered as entities providing basic local telecommunications service, provided that only one such nonaffiliated provider shall be considered as providing basic local telecommunications service within an exchange. **If the commercial mobile service provider does not designate customers by business or residential class, such provider will be deemed to be providing service to both business and residential customers;**

(2) Any entity providing local voice service in whole or in part over telecommunications facilities or other facilities in which it or one of its affiliates have an ownership interest shall be considered as [a] **providing** basic local telecommunications service [provider] regardless of whether such entity is subject to regulation by the commission, **including any interconnected voice over Internet protocol service provider registered under section 392.550.** A provider of local voice service that requires the use of a third party, unaffiliated broadband network or dial-up Internet network for the origination of local voice service shall not be considered a basic local telecommunications service provider. For purposes of this subsection only, a "broadband network" is defined as a connection that delivers services at speeds exceeding two hundred kilobits per second in at least one direction;

(3) Regardless of the technology utilized, local voice service shall mean two-way voice service capable of receiving calls from a provider of basic local telecommunications services as defined by subdivision (4) of section 386.020, RSMo;

(4) Telecommunications companies only offering prepaid telecommunications service or only reselling telecommunications service as defined in subdivision [(46)] **(54)** of section 386.020, RSMo, in the exchange being considered for competitive classification shall not be considered entities providing basic telecommunications service; [and]

(5) "Prepaid telecommunications service" shall mean a local service for which payment is made in advance that excludes access to operator assistance and long distance service;

(6) Upon request of an incumbent local exchange telecommunications company seeking competitive classification of [business service or residential service, or both] **its services under this subsection**, the commission shall, within thirty days of the request, determine whether [the requisite number of entities are] **there are at least two entities** providing basic local telecommunications service [to business or residential customers, or both,] in an exchange and if so shall approve tariffs designating all such [business or residential] services other than exchange access service, as competitive within such exchange. Notwithstanding any other provision of this subsection, any incumbent local exchange company may petition the commission for competitive classification within an exchange based on competition from any entity providing local voice service in whole or in part by using its own telecommunications facilities or other facilities or the telecommunications facilities or other facilities of a third party,

including those of the incumbent local exchange company as well as providers that rely on an unaffiliated third-party Internet service. The commission shall approve such petition within sixty days [unless it finds that such competitive classification is contrary to the public interest]. The commission shall maintain records of [regulated] **certified and registered** providers of local voice service, including those [regulated] providers who provide local voice service over their own facilities, or through the use of facilities of another provider of local voice service. In reviewing an incumbent local exchange telephone company's request for competitive status in an exchange, the commission shall consider their own records concerning ownership of facilities and shall make all inquiries as are necessary and appropriate from [regulated] **certified and registered** providers of local voice service to determine the extent and presence of [regulated] local voice providers in an exchange. If the services of an incumbent local exchange telecommunications company are classified as competitive under this subsection, the local exchange telecommunications company may thereafter adjust its rates for such competitive services upward or downward as it determines appropriate in its competitive environment, upon filing tariffs which shall become effective within the time lines identified in section 392.500. The commission [shall] **may**, [at least] **not more than once** every two years[, or where an incumbent local exchange telecommunications company increases rates for basic local telecommunications services in an exchange classified as competitive,] review those exchanges where an incumbent local exchange carrier's services have been classified as competitive, to determine if the conditions of this subsection for competitive classification continue to exist in the exchange and if the commission determines, after hearing, that such conditions no longer exist for the incumbent local exchange telecommunications company in such exchange, it shall reimpose upon the incumbent local exchange telecommunications company, in such exchange, the provisions of paragraph (c) of subdivision (2) of subsection 4 of section 392.200 and the **new** maximum allowable prices **for basic local telecommunications service in such exchange shall be** established by the provisions of [subsections] **subsection 4** [and 11] of this section[, and, in any such case, the maximum allowable prices established for the telecommunications services of such incumbent local exchange telecommunications company shall reflect all index adjustments which were or could have been filed from all preceding years since the company's maximum allowable prices were first adjusted pursuant to subsection 4 or 11 of this section.] ;

(7) **Upon a finding that fifty-five percent or more of an incumbent local exchange telecommunications company's total subscriber access lines are in exchanges where such company's services have been declared competitive, the incumbent local exchange telecommunications company shall be deemed competitive and shall no longer be subject to price-cap regulation, except that rates charged for basic local telecommunications service in exchanges that were noncompetitive immediately prior to this finding can be increased to a rate that is no higher than the statewide average rate for basic local telecommunications service in the incumbent local exchange company's competitively classified exchanges for a period of four years. During the four year period, any annual increase in rates for residential basic local telecommunications service shall not exceed two dollars per line per month. Rates charged for exchange access service by an incumbent local exchange telecommunications company deemed competitive shall not exceed the rates charged at the time the company was deemed competitive;**

(8) **An incumbent local exchange telecommunications company deemed competitive under this section and all alternative local exchange telecommunications companies shall not be required to comply with customer billing rules, network engineering and maintenance rules, and rules requiring the recording and submitting of service objectives or surveillance levels established by the commission, but shall be subject to commission authority to hear and resolve customer complaints to the extent the customer complaint is based on Truth-in-Billing regulations established by the Federal Communications Commission, or network engineering and maintenance standards established within the National Electric Safety Code. In addition, the commission shall continue to have authority**

to hear and resolve customer complaints to the extent such complaints are based on a failure to comply with the provisions of applicable tariffs, or a failure to comply with the rules of the commission other than those rules related to customer billing, network engineering and maintenance, and service objectives and surveillance levels or a failure to provide service in a manner that is safe, adequate, usual and customary in the telecommunications industry;

(9) The commission may reimpose its customer billing rules, network engineering and maintenance rules, and rules requiring the recording and submitting of service objectives or surveillance levels, as applicable, on an incumbent local exchange telecommunications company that has been deemed competitive under this section, only upon a finding that the incumbent local exchange telecommunications company has engaged in a pattern or practice of inadequate service in these subject areas and that the reimposition of such rules is necessary to ensure the protection of consumer rights and/or the public safety. Prior to formal notice and hearing, the commission shall notify the incumbent local exchange telecommunications company of any deficiencies and provide such company an opportunity to remedy such deficiencies in a reasonable amount of time, but not less than sixty days. Should the incumbent local exchange telecommunications company remedy such deficiencies within a reasonable amount of time, the commission shall not reimpose the applicable customer billing rules, network engineering and maintenance rules, and rules requiring the recording and submitting of service objectives or surveillance levels. Should the incumbent local exchange telecommunications company fail to remedy such deficiencies, the commission shall reimpose the applicable customer billing rules, network engineering and maintenance rules, and rules requiring the recording and submitting of service objectives or surveillance levels, if it finds that:

(a) The reimposition of such rules is necessary for the protection of the majority of the incumbent local exchange telecommunications company's customers or for the public safety;

(b) No alternative or less burdensome action is adequate to protect the majority of the incumbent local exchange telecommunications company's customers; and

(c) Competitive market forces have been and will continue to be insufficient to protect the majority of the incumbent local exchange telecommunications company's customers;

(10) Should the commission determine that an emergency exists that impacts public safety or is essential for the protection of a majority of customers of all local exchange telecommunications companies operating in this state, the commission may, on an emergency basis, impose its customer billing rules, network engineering and maintenance rules, and rules requiring the recording and submitting of service objectives or surveillance levels, as applicable, on all local exchange telecommunications companies on a uniform and non-discriminatory basis through the promulgation of emergency rules pursuant to section 536.025, RSMo. The commission shall only promulgate such emergency rules after determining that:

(a) The rules are essential for the protection of a majority of customers of local exchange telecommunications companies operating in this state;

(b) No alternative or less burdensome mechanism will suffice to protect the majority of customers of local exchange telecommunications companies operating in this state; and

(c) Competitive market forces have been and will continue to be insufficient to protect the majority of customers of local exchange telecommunications companies operating in this state.

Notwithstanding the provisions of subsection 7 of section 536.025, RSMo, emergency rules promulgated by the commission pursuant to this subdivision shall remain in effect until the legislature concludes its next regular legislative session following the imposition of any such rules.

6. Nothing in this section shall be interpreted to alter the commission's jurisdiction over quality and conditions of [service] **noncompetitive telecommunications services** or to relieve **noncompetitive** telecommunications companies from the obligation to comply with commission rules relating to minimum basic local and interexchange telecommunications service.

7. A company regulated under this section shall not be subject to regulation under subsection 1 of section 392.240.

8. An incumbent local exchange telecommunications company regulated under this section may reduce intrastate access rates, including carrier common line charges, subject to the provisions of subsection 9 of this section, to a level not to exceed one hundred fifty percent of the company's interstate rates for similar access services in effect as of December thirty-first of the year preceding the year in which the company [is] first [subject to regulation under this section] **exercises its option to rebalance rates under this subsection**. [Absent commission action under subsection 10 of this section, an incumbent local exchange telecommunications company regulated under this section shall have four years from the date the company becomes subject to regulation under this section to make the adjustments authorized under this subsection and subsection 9 of this section.] Nothing in this subsection shall preclude an incumbent local exchange telecommunications company from establishing its intrastate access rates at a level lower than one hundred fifty percent of the company's interstate rates for similar access services in effect as of December thirty-first of the year preceding the year in which the company [is] first [subject to regulation under this section] **exercises its option to rebalance rates under this subsection**.

9. Other provisions of this section to the contrary notwithstanding [and no earlier than January 1, 1997], the commission shall allow an incumbent local exchange telecommunications company regulated under this section which reduces its intrastate access service rates pursuant to subsection 8 of this section to offset the **annual** revenue loss resulting from [the first year's] **its** access service rate reduction by increasing **each year** its monthly maximum allowable prices applicable to basic local exchange telecommunications services by an amount not to exceed one dollar fifty cents. A large incumbent local exchange telecommunications company shall not increase its monthly rates applicable to basic local telecommunications service under this subsection unless it also reduces its rates for intraLATA interexchange telecommunications services by at least ten percent **in the year it first exercises its option to rebalance rates under subsection 8 of this section**. [No later than one year after the date the incumbent local exchange telecommunications company becomes subject to regulation under this section, the commission shall complete an investigation of the cost justification for the reduction of intrastate access rates and the increase of maximum allowable prices for basic local telecommunications service. If the commission determines that the company's monthly maximum allowable average statewide prices for basic local telecommunications service after adjustment pursuant to this subsection will be equal to or less than the long-run incremental cost, as defined in section 386.020, RSMo, of providing basic local telecommunications service and that the company's intrastate access rates after adjustment pursuant to this subsection will exceed the long-run incremental cost, as defined in section 386.020, RSMo, of providing intrastate access services, the commission shall allow the company to offset the revenue loss resulting from the remaining three-quarters of the total needed to bring that company's intrastate access rates to one hundred fifty percent of the interstate level by increasing the company's monthly maximum allowable prices applicable to basic local telecommunications service by an amount not to exceed one dollar fifty cents on each of the next three anniversary dates thereafter; otherwise, the commission shall order the reduction of intrastate access rates and the increase of monthly maximum allowable prices for basic local telecommunications services to be terminated at the levels the commission determines to be cost-justified.] The total **annual** revenue increase due to the increase to the monthly maximum allowable prices for basic local telecommunications service shall not exceed the total **annual** revenue loss resulting from the reduction to intrastate access service rates.

10. Any telecommunications company whose intrastate access costs are reduced pursuant to subsections 8 and 9 of this section shall decrease its rates for intrastate toll telecommunications service to flow through such reduced costs to its customers. The commission may permit a telecommunications company to defer a rate reduction required by this subdivision until such reductions, on a cumulative basis, reach a level that is practical to flow through to its customers.

11. [The maximum allowable prices for nonbasic telecommunications services of a small, incumbent local exchange telecommunications company regulated under this section shall not be changed until twelve months after the date the company is subject to regulation under this section or, on an exchange-by-exchange basis, until an alternative local exchange telecommunications company is certified and providing basic local telecommunications service in such exchange, whichever is earlier. The maximum allowable prices for nonbasic telecommunications services of a large, incumbent local exchange telecommunications company regulated under this section shall not be changed until January 1, 1999, or on an exchange-by-exchange basis, until an alternative local exchange telecommunications company is certified and providing basic local telecommunications service in such exchange, whichever is earlier. Thereafter, the maximum allowable prices for nonbasic telecommunications services of an incumbent local exchange telecommunications company may be annually increased by up to five percent for each of the following twelve-month periods upon providing notice to the commission and filing tariffs establishing the rates for such services in such exchanges at such maximum allowable prices. This subsection shall not preclude an incumbent local exchange telecommunications company from proposing new telecommunications services and establishing prices for such new services. An incumbent local exchange telecommunications company may change the rates for its services, consistent with the provisions of subsections 2 through 5 of section 392.200, but not to exceed the maximum allowable prices, by filing tariffs which shall be approved by the commission within thirty days, provided that any such rate is not in excess of the maximum allowable price established for such service under this section.] **All nonbasic telecommunications services of an incumbent local exchange telecommunications company that is subject to price-cap regulation shall be exempt from limitations on maximum allowable prices.**

12. The commission shall permit an incumbent local exchange telecommunications company regulated under this section to determine and set its own depreciation rates which shall be used for all intrastate regulatory purposes. Provided, however, that such a determination is not binding on the commission in determining eligibility for or reimbursement under the universal service fund established under section 392.248.

13. Prior to January 1, 2006, the commission shall determine the weighted, statewide average rate of nonwireless basic local telecommunications services as of August 28, 2005. The commission shall likewise determine the weighted, statewide average rate of nonwireless basic local telecommunications services two years and five years after August 28, 2005. The commission shall report its findings to the general assembly by January 30, 2008, and provide a second study by January 30, 2011. If the commission finds that the weighted, statewide average rate of nonwireless basic local telecommunications service in 2008 or 2011 is greater than the weighted, statewide average rate of nonwireless basic local telecommunications service in 2006 multiplied by one plus the percentage increase in the Consumer Price Index for all goods and services for the study periods, the commission shall recommend to the general assembly such changes in state law as the commission deems appropriate to achieve the purposes set forth in section 392.185. In determining the weighted, statewide average rate of nonwireless basic local telecommunications service, the commission shall exclude rate increases to nonwireless basic telecommunications service permitted under subsections 8 and 9 of this section and section 392.240 or exogenous costs incurred by the providers of nonwireless basic local telecommunications service.

392.361. CLASSIFICATION OF TELECOMMUNICATIONS COMPANY, SERVICES — PROCEDURE — EFFECT OF CLASSIFICATION. — 1. As an alternative to the provisions of section 392.245, a telecommunications company, including price-cap regulated companies, may file with the commission a petition to be classified as a competitive telecommunications company or a transitionally competitive telecommunications company under this section, or to have services classified as competitive or transitionally competitive telecommunications services under this section. [The office of public counsel may initiate classification proceedings by petition. The commission may initiate classification proceedings on its own motion. The commission may require all telecommunications companies potentially affected by a classification proceeding to appear as parties for a determination of their interests.]

2. The commission [or a petitioner] shall serve by regular mail a copy of any petition or motion filed under subsection 1 of this section on all telecommunications companies that have applied for authority to provide or are authorized to provide intrastate telecommunications service within this state. In response to a petition filed [or a proceeding instituted upon its own motion], the commission shall afford all interested persons reasonable notice and an opportunity to be heard to determine whether a telecommunications company or service may be subject to sufficient competition to justify a lesser degree of regulation. In making this determination, the commission shall, within nine months of the filing of the petition [or initiation of a proceeding] under this section, consider all relevant factors and shall issue written findings of fact delineating all factors considered. [The commission may, for good cause, extend the time for determination for an additional three months. A second extension period not exceeding three months may, for good cause, be granted by the commission.] In any hearing involving the same telecommunications service or company, the commission may, if appropriate and if no new finding of fact is required, rely on a finding of fact made in a prior hearing.

3. The commission may classify a telecommunications company as a competitive telecommunications company [only] upon a finding that [all] a **majority of its** telecommunications services offered by such company are competitive telecommunications services.

4. If, after following the procedures required under subsection 2 of this section, the commission determines that a telecommunications service is subject to sufficient competition to justify a lesser degree of regulation and that such lesser regulation is consistent with the protection of ratepayers and promotes the public interest it may, by order, classify:

(1) The subject telecommunications service offered by a telecommunications company as a competitive telecommunications service;

(2) The subject telecommunications service offered by a noncompetitive or transitionally competitive telecommunications company as a transitionally competitive telecommunications service;

(3) The subject telecommunications company, subject to the condition set forth in subsection 3 of this section, as a competitive telecommunications company; or

(4) The subject interexchange telecommunications company as a transitionally competitive telecommunications company.

5. By its order classifying a telecommunications service as competitive or transitionally competitive or a telecommunications company as competitive or transitionally competitive, the commission may, with respect to that service or company and with respect to one or more providers of that service, suspend or modify the application of its rules or the application of any statutory provision contained in sections 392.200 to 392.340, except as provided in section 392.390. [The commission may suspend different requirements for different telecommunications companies, if such different treatment is reasonable and not detrimental to the public interest.]

6. If the commission suspends the application of a statutory requirement under this section, it may require a telecommunications company to comply with any conditions reasonably made necessary to protect the public interest by the suspension of the statutory requirement. **The**

exchange access rates of an incumbent local exchange company that is declared a competitive telecommunications company shall not exceed the rates that were charged at the time the company became a competitive telecommunications company. The exchange access rates of an alternative local exchange company shall not exceed the exchange access rates of the incumbent local exchange company against whom the alternative local exchange company is competing.

7. [If necessary to protect the public interest, the commission may at any time, by order, after hearing upon its own motion or petition filed by the public counsel, a telecommunications company, or any person or persons authorized to file a complaint as to the reasonableness of any rates or charges under section 386.390, RSMo, reimpose or modify the statutory provisions suspended under subsection 5 of this section upon finding that the company or service is no longer competitive or transitionally competitive or that the lesser regulation previously authorized is no longer in the public interest or no longer consistent with the provisions and purposes of this chapter.

8.] A telecommunications company may file a petition to have a telecommunications service it then offers classified as competitive or transitionally competitive under this section no more than once every two years, unless exceptional circumstances are demonstrated. A telecommunications company shall consolidate in a single petition all telecommunications services the company then offers which it seeks to classify as competitive or transitionally competitive within two years from the date such petition is filed, unless the commission determines, for good cause shown, that a waiver of this provision should be granted.

8. Notwithstanding the foregoing or the provisions of section 392.245, intrastate operator and directory services, including directory assistance services, shall be deemed competitive on a statewide basis for all local exchange telecommunications companies.

392.370. TRANSITIONALLY COMPETITIVE TELECOMMUNICATIONS SERVICES, CLASSIFIED WHEN. — [1.] After the effective date of an order of the commission which finds, pursuant to section 392.361, that a telecommunications service is sufficiently competitive to justify a lesser degree of regulation, the same, substitutable, or equivalent service offered by a transitionally competitive or noncompetitive telecommunications company shall be classified as transitionally competitive [pursuant to the procedure set out in subsection 2 of section 392.490], if the telecommunications service granted a lesser degree of regulation is authorized to be provided anywhere within the certificated or service area of the transitionally competitive or noncompetitive telecommunications company. Any transitionally competitive telecommunications service offered by a noncompetitive local exchange telecommunications company shall be classified as a competitive telecommunications service no later than three years after the effective date of a tariff for such service bearing the classification "transitionally competitive". Any transitionally competitive service offered by a transitionally competitive interexchange telecommunications company shall be classified as a competitive telecommunications service no later than two years after the effective date of a tariff for such service bearing the classification "transitionally competitive". **The exchange access rates of an incumbent local exchange company that is declared a competitive telecommunications company shall not exceed the rates that were charged at the time the company became a competitive telecommunications company. The exchange access rates of an alternative local exchange company shall not exceed the exchange access rates of the incumbent local exchange company against whom the alternative local exchange company is competing.**

[2. The commission may extend or reinstate a transitionally competitive service classification applicable to any service provided by a noncompetitive local exchange telecommunications company for two periods in addition to the initial three-year period, each additional period not to exceed three years, after notice and hearing, upon the issuance of an order finding that a competitive classification for such service is not in the public interest or not consistent with the purposes and policies of this chapter. The commission may extend or

reinstate a transitionally competitive service classification applicable to any service provided by a transitionally competitive interexchange telecommunications company for two periods in addition to the initial two-year period, each additional period not to exceed two years, after notice and hearing, upon the issuance of an order finding that a competitive classification for such service is not in the public interest or not consistent with the purposes and policies of this chapter. The commission, on its own motion, or public counsel or any telecommunications company, by complaint, may initiate a proceeding in which the commission shall consider whether to extend or reinstate a transitionally competitive service classification under this section. In any proceeding initiated under this subsection by the commission or the public counsel, the burden to prove that such service is a competitive telecommunications service shall be on the noncompetitive or transitionally competitive telecommunications company providing such service. The commission may consolidate different proceedings under this section involving different transitionally competitive telecommunications services for purposes of hearing.

3. The commission may issue an order, effective at or after such time as the commission may no longer extend or reinstate a transitionally competitive service classification, that reclassifies a competitive or transitionally competitive telecommunications service as a noncompetitive telecommunications service if the commission, after notice and hearing upon its own motion or petition filed by the public counsel, a telecommunications company, or any person or persons authorized to file a complaint as to the reasonableness of any rates or charges under section 386.390, RSMo, determines that a competitive classification for such service is not in the public interest or not consistent with the provisions and purposes of this chapter. Should the commission issue an order under this subsection reclassifying a competitive or transitionally competitive telecommunications service as noncompetitive it shall thereafter apply equal regulation, with respect to such service, to all telecommunications companies providing the same equivalent or substitutable telecommunications service.

4. No tariff which proposes a new rate, rental, or charge or new regulation or practice affecting any rate, rental, or charge for a transitionally competitive telecommunications service which is filed by a noncompetitive local exchange telecommunications company, or a noncompetitive or transitionally competitive interexchange telecommunications company, shall be effective unless and until the noncompetitive local exchange telecommunications company, or the noncompetitive or transitionally competitive interexchange telecommunications company, offering or providing, or seeking to offer or provide, such proposed transitionally competitive telecommunications service prepares and files a study of the cost of providing such service. Such study may in the commission's discretion be given proprietary treatment at the request of such company.

5. Except as provided in subsection 6 of this section, the provisions of sections 392.220 and 392.230 shall apply to any tariff filed for the offer or provision of a transitionally competitive telecommunications service.

6. So long as a transitionally competitive interexchange telecommunications company charges the same price per minute or other unit of measure for the same, equivalent, or substitutable interexchange telecommunications service provided over the same or equivalent distance between any two points, the provisions of subsections 4 and 5 of this section shall not apply to such transitionally competitive interexchange telecommunications company for any proposed decrease in rates for a transitionally competitive interexchange telecommunications service. Such proposed decrease shall instead be treated as a competitive service pursuant to section 392.500.

7. A transitionally competitive telecommunications service which becomes a competitive telecommunications service pursuant to this section or section 392.361 shall no longer be subject to the provisions of subsections 4, 5, and 6 of this section and any increase or decrease in rates or charges applicable to such competitive service shall be treated pursuant to section 392.500.]

392.420. REGULATIONS, MODIFICATION OF, COMPANY MAY REQUEST BY PETITION, WHEN — WAIVER, WHEN. — The commission is authorized, in connection with the issuance or modification of a certificate of interexchange or local exchange service authority or the modification of a certificate of public convenience and necessity for interexchange or local exchange telecommunications service, to entertain a petition [under section 392.361 and in accordance with the procedures set out in section 392.361,] to suspend or modify the application of its rules or the application of any statutory provision contained in sections 392.200 to 392.340 if such waiver or modification is otherwise consistent with the other provisions of sections 392.361 to 392.520 and the purposes of this chapter. **In the case of an application for certificate of service authority to provide basic local telecommunications service filed by an alternative local exchange telecommunications company, and for all existing alternative local exchange telecommunications companies, the commission shall waive, at a minimum, the application and enforcement of its quality of service and billing standards rules, as well as the provisions of subsection 2 of section 392.210, subsection 1 of section 392.240, and sections 392.270, 392.280, 392.290, 392.300, 392.310, 392.320, 392.330, and 392.340. Notwithstanding any other provision of law in this chapter and chapter 386, RSMo, where an alternative local exchange telecommunications company is authorized to provide local exchange telecommunications services in an incumbent local exchange telecommunications company's authorized service area, the incumbent local exchange telecommunications company may opt into all or some of the above-listed statutory and commission rule waivers by filing a notice of election with the commission that specifies which waivers are elected. In addition, where an interconnected voice over Internet protocol service provider is registered to provide service in an incumbent local exchange telecommunications company's authorized service area under section 392.550, the incumbent local exchange telecommunications company may opt into all or some of the above-listed statutory and commission rule waivers by filing a notice of election with the commission that specifies which waivers are elected. The commission may reimpose its quality of service and billing standards rules, as applicable, on an incumbent local exchange telecommunications company but not on a company granted competitive status under subdivision (7) of subsection 5 of section 392.245 in an exchange where there is no alternative local exchange telecommunications company or interconnected voice over Internet protocol service provider that is certificated or registered to provide local voice service only upon a finding, following formal notice and hearing, that the incumbent local exchange telecommunications company has engaged in a pattern or practice of inadequate service. Prior to formal notice and hearing, the commission shall notify the incumbent local exchange telecommunications company of any deficiencies and provide such company an opportunity to remedy such deficiencies in a reasonable amount of time, but not less than sixty days. Should the incumbent local exchange telecommunications company remedy such deficiencies within a reasonable amount of time, the commission shall not reimpose its quality of service or billing standards on such company.**

392.450. REQUIREMENTS, APPROVAL OF CERTIFICATES — COMMISSION TO ADOPT RULES — MODIFICATION, WHEN — FEDERAL LAW NOT PREEMPTED. — 1. 2. In addition, the commission shall adopt such rules, consistent with section 253(b) of the federal Telecommunications Act of 1996 to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers. Such rules, at a minimum, shall require that all applicants seeking a certificate to provide basic local telecommunications services under this section:

(1) File and maintain tariffs with the commission in the same manner and form as the commission requires of the incumbent local exchange telecommunications company with which the applicant seeks to compete; and

(2) Meet the minimum service standards[, including quality of service and billing standards,] as the commission requires of the incumbent local exchange telecommunications company with which the applicant seeks to compete.

3. An alternative local exchange telecommunications company which possesses a certificate of service authority to provide basic local telecommunications service as of August 28, 2008, in some but not all exchanges of the state may request the commission to modify its existing certificate to include some or all of the remaining exchanges in the state. The commission shall grant such request within thirty days of its filing as long as the alternative local exchange telecommunications company is in good standing, in all respects, with all applicable commission rules and requirements.

4. Nothing in this chapter or in chapter 386, RSMo, is intended to alter the rights and obligations arising under federal law, including the interconnection and unbundling provisions of 47 U.S.C. Sections 251 and 252, irrespective of the type of technology being used by the requesting local exchange telecommunications company and whether the local exchange telecommunications company is providing telecommunications service or interconnected voice over Internet protocol service, as those terms are defined in chapter 386, RSMo, and the jurisdiction and authority of the commission to mediate and arbitrate disputes arising under said federal law provisions shall remain unaffected.

392.451. STATE ADOPTS FEDERAL EXEMPTION FOR CERTAIN RURAL TELEPHONE COMPANIES. — [1. Notwithstanding any provisions of this act to the contrary, and consistent with section 253(f) of the federal Telecommunications Act of 1996, the commission shall approve an application for a certificate of local exchange service authority to provide basic local telecommunications service or for the resale of basic local telecommunications service in an area that is served by a small incumbent local exchange telecommunications company only upon a showing by the applicant, and a finding by the commission, after notice and hearing, that:

(1) The applicant shall, throughout the service area of the incumbent local exchange telecommunication company, offer all telecommunications services which the commission has determined are essential for purposes of qualifying for state universal service fund support; and

(2) The applicant shall advertise the availability of such essential services and the charges therefor using media of general distribution.

2. In addition, the commission shall adopt such rules, consistent with section 253(b) of the federal Telecommunications Act of 1996 to preserve and advance universal service, protect the public safety and welfare, ensure the continued quality of telecommunications services, and safeguard the rights of consumers. Such rules, at a minimum, shall require that all applicants seeking a certificate to provide basic local telecommunications services under this section:

(1) File and maintain tariffs with the commission in the same manner and form as the commission requires of the incumbent local exchange telecommunications company with which the applicant seeks to compete;

(2) Meet the minimum service standards, including quality of service and billing standards, as the commission requires of the incumbent local exchange telecommunications company with which the applicant seeks to compete;

(3) Make such reports to and other information filings with the commission as is required of the incumbent local exchange telecommunications company with which the applicant seeks to compete; and

(4) Comply with all of the same rules and regulations as the commission may impose on the incumbent local exchange telecommunications company with which the applicant seeks to compete.

3.] The state of Missouri hereby adopts and incorporates in total the provisions of section 251(f)(1) of the federal Telecommunications Act of 1996 providing exemption for certain rural telephone companies.

392.480. SERVICES TO BE OFFERED UNDER TARIFF. — [1.] Except as provided in section 392.520, all telecommunications services offered or provided by telecommunications companies shall be offered under tariff and classified as either competitive, transitionally competitive, or noncompetitive telecommunications services, subject to proper certification and other applicable provisions of this chapter. Any tariff filed with the commission shall indicate whether the telecommunications service to be offered or provided is competitive, transitionally competitive, or noncompetitive.

[2. Subject to the provisions of subsection 4 of section 392.220, an offering or the provision of a telecommunications service shall be classified as competitive only if, and only to the extent that, the commission has issued an order to that effect pursuant to section 392.361 or pursuant to its findings issued in an order granting or modifying a certificate of authority or certificate of public convenience and necessity pursuant to section 392.410 or if, and only to the extent that, a transitionally competitive telecommunications service has become a competitive telecommunications service pursuant to section 392.370. Subject to the provisions of subsection 4 of section 392.220, an offering or the provision of a telecommunications service shall be classified as transitionally competitive only if, and only to the extent that, the commission has issued an order to that effect pursuant to section 392.361 or pursuant to its findings issued in an order granting or modifying a certificate of authority or certificate of public convenience and necessity pursuant to section 392.410 or if, and only to the extent that, a telecommunications service has become a transitionally competitive telecommunications service pursuant to subsection 1 of section 392.370 and subsection 2 of section 392.490. All telecommunications services not properly classified as competitive or transitionally competitive shall be classified as noncompetitive telecommunications service.]

392.510. TARIFFS, BANDS AND RANGES ALLOWED, WHEN, REQUIREMENTS. — 1. Telecommunications companies may file proposed tariffs for any competitive or transitionally competitive telecommunications service, which includes and specifically describes a range, or band, setting forth a maximum and minimum rate within which range a change in rates or charges for such telecommunications service could be made without prior notice or prior commission approval.

2. The commission may approve such a proposed tariff for a transitionally competitive service only if a noncompetitive or transitionally competitive telecommunications company demonstrates, and the commission finds, that any and all rates or charges within the band or range, are consistent with the public interest and the provisions and purposes of this chapter. To the extent any proposed band or range encompasses rates or charges which are not consistent with the public interest and the provisions and purposes of this chapter, the commission shall have the power, upon notice and after hearing, to modify the level, scope or limits of such band or range, as necessary, to ensure that rates or charges resulting therefrom are consistent with the public interest and the provisions and purposes of this chapter.

3. The provisions of sections 392.220, 392.230, [subsections 4 and 5 of section 392.370,] and [section] 392.500 shall not apply to any rate increase or decrease within the band or range authorized pursuant to this section. A telecommunications company shall file written notice of the rate change and its effective date with the commission within ten days after the effective date of any increase or decrease authorized pursuant to this section.

4. Any tariffs that have been approved by the commission prior to September 28, 1987, which establish a range or band of rates within which range or band of rates a change in rates or charges for such telecommunications service could be made without prior notice or prior commission approval shall be deemed approved by the commission. The provisions of sections

392.220, 392.230, [subsections 4 and 5 of section 392.370,] and [section] 392.500 shall not apply to any rate increase or decrease within such band or range.

392.520. PRIVATE SHARED TENANT SERVICES, COIN OPERATED TELEPHONE SERVICES, REGULATION OF. — 1. 2. The commission shall establish the rates or charges and terms of connection for access by such services to the local exchange network. In so doing, the commission shall consider the network integrity of the principal provider of local exchange service and the impact of private shared tenant services on the cost to provide, and rates or charges, for local exchange service. If the commission finds, upon notice and investigation, that tenants in private shared tenant services locations have no alternative access to a local exchange telecommunications company providing basic local telecommunications service, it may require the private shared tenant services provider to make alternative facilities available on reasonable terms and conditions at reasonable prices.

392.550. INTERCONNECTED VOICE OVER INTERNET PROTOCOL SERVICE, REGISTRATION REQUIRED — CHARGES TO APPLY — PROCEDURE FOR REGISTRATION — AUTHORITY OF COMMISSION. — 1. No person, corporation, or other entity shall offer or provide interconnected voice over Internet protocol service as defined in section 386.020, RSMo, without first having obtained a registration from the commission allowing it to do so. Upon application, the commission shall grant a registration to any person, corporation, or other entity to provide interconnected voice over Internet protocol service, subject to the provisions of this section.

2. Interconnected voice over Internet protocol service shall be subject to appropriate exchange access charges to the same extent that telecommunications services are subject to such charges. Until January 1, 2010, this subsection shall not alter intercarrier compensation provisions specifically addressing interconnected voice over Internet protocol service contained in an interconnection agreement approved by the commission pursuant to 47 U.S.C. Section 252 and in existence as of August 28, 2008.

3. The commission shall grant a registration, without a hearing and no later than thirty days following the filing of an application accompanied by an affidavit signed by an officer or general partner of the applicant stating the following:

user customers of local exchange telecommunications service and remitted by local exchange telecommunications companies, including but not necessarily limited to:

- (a) Telecommunications programs under section 209.255, RSMo;
- (b) Missouri universal service fund under section 392.248;
- (c) Local enhanced 911;

Verification shall be made by the official holding office at the time of the filing of such report, and if not made upon the knowledge of the person verifying, the same shall set forth in general terms the sources of his or her information and the grounds for his or her belief as to any matters not stated to be verified on his or her knowledge. Such annual report shall be verified by the oath of the president, treasurer, general manager, or receiver, if any, of any of such companies, or by the person required to file the same. The commission shall prescribe the form of such reports and the character of the information to be contained therein; provided, however, that such form and character of the information to be provided shall be limited to:

- (a) Information necessary to enable the commission to determine the assessment of the fees and surcharges set forth in subdivisions (5) and (6) of this subsection;
- (b) A list of all Missouri exchanges, in whole or in part, in which customers are served; and

This subdivision shall not grant the commission authority to review rates for exchange access services that are set under section 392.245; and
- (6) To revoke or suspend the registration of any provider of interconnected voice over Internet protocol service who fails to comply with the requirements of this section.

The commission or the telecommunications company applying for commission approval pursuant to this subsection shall provide notice of its application and proposed tariff as provided in section 392.361, and the commission shall afford all interested persons reasonable notice and an opportunity to be heard. 2. A noncompetitive or transitionally competitive telecommunications company which seeks to file a tariff classifying a telecommunications service as transitionally competitive by operation of subsection 1 of section 392.370, shall apply to the commission for an order finding that the transitionally competitive classification is consistent with subsection 1 of section 392.370. If such tariff does not otherwise propose a new rate, rental or charge or new regulation or practice affecting any rate, rental or charge, the transitionally competitive classification shall become effective ninety days after filing with the commission and notice to public counsel and all telecommunications companies unless the commission issues an order prior to the effective date of such tariff, after notice and hearing, upon its own motion or upon complaint by the public counsel or a telecommunications company, which finds that the transitionally competitive classification is not consistent with subsection 1 of section 392.370.]

(2) The commission shall promulgate rules as are supported by evidence as to reasonableness to protect users of intrastate operator services provided by interexchange telecommunications companies at traffic aggregator locations from unjust and unreasonable rates, charges, and practices; and to ensure that such users have the opportunity to make informed choices between and among providers of operator services. All such proposed rules shall be filed with the secretary of state and published in the Missouri Register as provided in chapter 536, RSMo, and a hearing shall be held at which affected parties may present evidence as to the reasonableness of any proposed rule. revenue received by the home dock city or county from admission fees for fiscal year 2007. In the case of a new excursion gambling boat located in a home rule city with more than sixty thousand three hundred but fewer than sixty thousand four hundred inhabitants or in a county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants, the provisions of this section shall become effective two years from the opening of such excursion gambling boat and the amount of expenditures from funds derived from admission fees paid to a home dock city or county shall not exceed the average revenue received by the home dock city or county from admission fees for the first two fiscal years in which such excursion gambling boat opened for business. Effective fiscal year 2010 and each subsequent fiscal year until fiscal year 2015, the percentage of revenue derived by a home dock city or county, located in a home rule city with more than sixty thousand three hundred but fewer than sixty thousand four hundred inhabitants or in a county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants, from such admission fees used for expenditures other than capital, cultural, and special law enforcement purpose expenditures shall be limited to not more than thirty percent. 285.035. MICROCHIP TECHNOLOGY, EMPLOYER NOT TO REQUIRE EMPLOYEES TO BE IMPLANTED — VIOLATION, PENALTY. — **1. No employer shall require an employee to have personal identification microchip technology implanted into an employee for any reason.**

2. For purposes of this section, "personal identification microchip technology" means a subcutaneous or surgically implanted microchip technology device or product that contains or is designed to contain a unique identification number and personal information that can be non-invasively retrieved or transmitted with an external scanning device.

3. Any employer who violates this section is guilty of a class A misdemeanor.

287.020. DEFINITIONS — INTENT TO ABROGATE EARLIER CASE LAW. — **1.** The word "employee" as used in this chapter shall be construed to mean every person in the service of any employer, as defined in this chapter, under any contract of hire, express or implied, oral or written, or under any appointment or election, including executive officers of corporations. **Except as otherwise provided in section 287.200,** any reference to any employee who has been injured shall, when the employee is dead, also include his dependents, and other persons to whom compensation may be payable. The word "employee" shall also include all minors who work for an employer, whether or not such minors are employed in violation of law, and all such minors are hereby made of full age for all purposes under, in connection with, or arising out of this chapter. The word "employee" shall not include an individual who is the owner, as defined in subsection 43 of section 301.010, RSMo, and operator of a motor vehicle which is leased or contracted with a driver to a for-hire motor carrier operating within a commercial zone as defined in section 390.020 or 390.041, RSMo, or operating under a certificate issued by the Missouri department of transportation or by the United States Department of Transportation, or any of its subagencies.

2. The word "accident" as used in this chapter shall mean an unexpected traumatic event or unusual strain identifiable by time and place of occurrence and producing at the time objective symptoms of an injury caused by a specific event during a single work shift. An injury is not compensable because work was a triggering or precipitating factor.

3. (1) In this chapter the term "injury" is hereby defined to be an injury which has arisen out of and in the course of employment. An injury by accident is compensable only if the accident was the prevailing factor in causing both the resulting medical condition and disability. "The prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability.

(2) An injury shall be deemed to arise out of and in the course of the employment only if:

(a) It is reasonably apparent, upon consideration of all the circumstances, that the accident is the prevailing factor in causing the injury; and

(b) It does not come from a hazard or risk unrelated to the employment to which workers would have been equally exposed outside of and unrelated to the employment in normal nonemployment life.

(3) An injury resulting directly or indirectly from idiopathic causes is not compensable.

(4) A cardiovascular, pulmonary, respiratory, or other disease, or cerebrovascular disease or myocardial infarction suffered by a worker is an injury only if the accident is the prevailing factor in causing the resulting medical condition.

(5) The terms "injury" and "personal injuries" shall mean violence to the physical structure of the body and to the personal property which is used to make up the physical structure of the body, such as artificial dentures, artificial limbs, glass eyes, eyeglasses, and other prostheses which are placed in or on the body to replace the physical structure and such disease or infection as naturally results therefrom. These terms shall in no case except as specifically provided in this chapter be construed to include occupational disease in any form, nor shall they be construed to include any contagious or infectious disease contracted during the course of the employment, nor shall they include death due to natural causes occurring while the worker is at work.

4. "Death" when mentioned as a basis for the right to compensation means only death resulting from such violence and its resultant effects occurring within three hundred weeks after the accident; except that in cases of occupational disease, the limitation of three hundred weeks shall not be applicable.

5. Injuries sustained in company-owned or subsidized automobiles in accidents that occur while traveling from the employee's home to the employer's principal place of business or from the employer's principal place of business to the employee's home are not compensable. The extension of premises doctrine is abrogated to the extent it extends liability for accidents that occur on property not owned or controlled by the employer even if the accident occurs on customary, approved, permitted, usual or accepted routes used by the employee to get to and from their place of employment.

6. The term "total disability" as used in this chapter shall mean inability to return to any employment and not merely mean inability to return to the employment in which the employee was engaged at the time of the accident.

7. As used in this chapter and all acts amendatory thereof, the term "commission" shall hereafter be construed as meaning and referring exclusively to the labor and industrial relations commission of Missouri, and the term "director" shall hereafter be construed as meaning the director of the department of insurance of the state of Missouri or such agency of government as shall exercise the powers and duties now conferred and imposed upon the department of insurance of the state of Missouri.

8. The term "division" as used in this chapter means the division of workers' compensation of the department of labor and industrial relations of the state of Missouri.

9. For the purposes of this chapter, the term "minor" means a person who has not attained the age of eighteen years; except that, for the purpose of computing the compensation provided for in this chapter, the provisions of section 287.250 shall control.

10. In applying the provisions of this chapter, it is the intent of the legislature to reject and abrogate earlier case law interpretations on the meaning of or definition of "accident", "occupational disease", "arising out of", and "in the course of the employment" to include, but not be limited to, holdings in: *Bennett v. Columbia Health Care and Rehabilitation*, 80 S.W.3d 524 (Mo.App. W.D. 2002); *Kasl v. Bristol Care, Inc.*, 984 S.W.2d 852 (Mo.banc 1999); and *Drewes v. TWA*, 984 S.W.2d 512 (Mo.banc 1999) and all cases citing, interpreting, applying, or following those cases.

287.200. PERMANENT TOTAL DISABILITY, AMOUNT TO BE PAID — SUSPENSION OF PAYMENTS, WHEN. — 1. Compensation for permanent total disability shall be paid during the continuance of such disability for the lifetime of the employee at the weekly rate of compensation in effect under this subsection on the date of the injury for which compensation is being made. **The word "employee" as used in this section shall not include the injured worker's dependents, estate, or other persons to whom compensation may be payable as provided in subsection 1 of section 287.020.** The amount of such compensation shall be computed as follows:

(1) For all injuries occurring on or after September 28, 1983, but before September 28, 1986, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings during the year immediately preceding the injury, as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to seventy percent of the state average weekly wage, as such wage is determined by the division of employment security, as of the July first immediately preceding the date of injury;

(2) For all injuries occurring on or after September 28, 1986, but before August 28, 1990, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings during the year immediately preceding the injury, as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to seventy-five percent of the state average weekly wage, as such wage is determined by the division of employment security, as of the July first immediately preceding the date of injury;

(3) For all injuries occurring on or after August 28, 1990, but before August 28, 1991, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to one hundred percent of the state average weekly wage;

(4) For all injuries occurring on or after August 28, 1991, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to one hundred five percent of the state average weekly wage;

(5) For all injuries occurring on or after September 28, 1981, the weekly compensation shall in no event be less than forty dollars per week.

2. **Permanent total disability benefits that have accrued through the date of the injured employee's death are the only permanent total disability benefits that are to be paid in accordance with section 287.230. The right to unaccrued compensation for permanent total disability of an injured employee terminates on the date of the injured employee's death in accordance with section 287.230, and does not survive to the injured employee's dependents, estate, or other persons to whom compensation might otherwise be payable.**

3. All claims for permanent total disability shall be determined in accordance with the facts. When an injured employee receives an award for permanent total disability but by the use of glasses, prosthetic appliances, or physical rehabilitation the employee is restored to his regular

work or its equivalent, the life payment mentioned in subsection 1 of this section shall be suspended during the time in which the employee is restored to his regular work or its equivalent. The employer and the division shall keep the file open in the case during the lifetime of any injured employee who has received an award of permanent total disability. 3. Any employer who violates this section is guilty of a class A misdemeanor.

288.040. ELIGIBILITY FOR BENEFITS — EXCEPTIONS — REPORT, CONTENTS. — 1. A claimant who is unemployed and has been determined to be an insured worker shall be eligible for benefits for any week only if the deputy finds that:

(1) The claimant has registered for work at and thereafter has continued to report at an employment office in accordance with such regulations as the division may prescribe;

(2) The claimant is able to work and is available for work. No person shall be deemed available for work unless such person has been and is actively and earnestly seeking work. Upon the filing of an initial or renewed claim, and prior to the filing of each weekly claim thereafter, the deputy shall notify each claimant of the number of work search contacts required to constitute an active search for work. No person shall be considered not available for work, pursuant to this subdivision, solely because he or she is a substitute teacher or is on jury duty. A claimant shall not be determined to be ineligible pursuant to this subdivision because of not actively and earnestly seeking work if:

(a) The claimant is participating in training approved pursuant to Section 236 of the Trade Act of 1974, as amended, (19 U.S.C.A. Sec. 2296, as amended);

(b) The claimant is temporarily unemployed through no fault of his or her own and has a definite recall date within eight weeks of his or her first day of unemployment; however, upon application of the employer responsible for the claimant's unemployment, such eight-week period may be extended not to exceed a total of sixteen weeks at the discretion of the director;

(3) The claimant has reported in person to an office of the division as directed by the deputy, but at least once every four weeks, except that a claimant shall be exempted from the reporting requirement of this subdivision if:

(a) The claimant is claiming benefits in accordance with division regulations dealing with partial or temporary total unemployment; or

(b) The claimant is temporarily unemployed through no fault of his or her own and has a definite recall date within eight weeks of his or her first day of unemployment; or

(c) The claimant resides in a county with an unemployment rate, as published by the division, of ten percent or more and in which the county seat is more than forty miles from the nearest division office;

(d) The director of the division of employment security has determined that the claimant belongs to a group or class of workers whose opportunities for reemployment will not be enhanced by reporting in person, or is prevented from reporting due to emergency conditions that limit access by the general public to an office that serves the area where the claimant resides, but only during the time such circumstances exist.

Ineligibility pursuant to this subdivision shall begin on the first day of the week which the claimant was scheduled to claim and shall end on the last day of the week preceding the week during which the claimant does report in person to the division's office;

(4) Prior to the first week of a period of total or partial unemployment for which the claimant claims benefits he or she has been totally or partially unemployed for a waiting period of one week. No more than one waiting week will be required in any benefit year. During calendar year 2008 and each calendar year thereafter, the one-week waiting period shall become compensable once his or her remaining balance on the claim is equal to or less than the compensable amount for the waiting period. No week shall be counted as a week of total or partial unemployment for the purposes of this subsection unless it occurs within the benefit year which includes the week with respect to which the claimant claims benefits;

(5) The claimant has made a claim for benefits **within fourteen days from the last day of the week being claimed. The fourteen-day period may, for good cause, be extended to twenty-eight days;**

(6) **The claimant has reported to an employment office to participate in a reemployment assessment and reemployment services as directed by the deputy or designated staff of an employment office, unless the deputy determines that good cause exists for the claimant's failure to participate in such reemployment assessment and reemployment services. For purposes of this section, "reemployment services" may include, but not be limited to, the following:**

- (a) **Providing an orientation to employment office services;**
- (b) **Providing job search assistance; and**
- (c) **Providing labor market statistics or analysis;**

Ineligibility under this subdivision shall begin on the first day of the week which the claimant was scheduled to report for the reemployment assessment or reemployment services and shall end on the last day of the week preceding the week during which the claimant does report in person to the employment office for such reemployment assessment or reemployment services;

[(6)] (7) The claimant is participating in reemployment services, such as job search assistance services, as directed by the deputy if the claimant has been determined to be likely to exhaust regular benefits and to need reemployment services pursuant to a profiling system established by the division, unless the deputy determines that:

- (a) The individual has completed such reemployment services; or
- (b) There is justifiable cause for the claimant's failure to participate in such reemployment services.

2. A claimant shall be ineligible for waiting week credit or benefits for any week for which the deputy finds he or she is or has been suspended by his or her most recent employer for misconduct connected with his or her work. Suspensions of four weeks or more shall be treated as discharges.

3. (1) Benefits based on "service in employment", defined in subsections 7 and 8 of section 288.034, shall be payable in the same amount, on the same terms and subject to the same conditions as compensation payable on the basis of other service subject to this law; except that:

(a) With respect to service performed in an instructional, research, or principal administrative capacity for an educational institution, benefits shall not be paid based on such services for any week of unemployment commencing during the period between two successive academic years or terms, or during a similar period between two regular but not successive terms, or during a period of paid sabbatical leave provided for in the individual's contract, to any individual if such individual performs such services in the first of such academic years (or terms) and if there is a contract or a reasonable assurance that such individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(b) With respect to services performed in any capacity (other than instructional, research, or principal administrative capacity) for an educational institution, benefits shall not be paid on the basis of such services to any individual for any week which commences during a period between two successive academic years or terms if such individual performs such services in the first of such academic years or terms and there is a contract or a reasonable assurance that such individual will perform such services in the second of such academic years or terms;

(c) With respect to services described in paragraphs (a) and (b) of this subdivision, benefits shall not be paid on the basis of such services to any individual for any week which commences during an established and customary vacation period or holiday recess if such individual performed such services in the period immediately before such vacation period or holiday recess, and there is reasonable assurance that such individual will perform such services immediately following such vacation period or holiday recess;

(d) With respect to services described in paragraphs (a) and (b) of this subdivision, benefits payable on the basis of services in any such capacity shall be denied as specified in paragraphs (a), (b), and (c) of this subdivision to any individual who performed such services at an educational institution while in the employ of an educational service agency, and for this purpose the term "educational service agency" means a governmental agency or governmental entity which is established and operated exclusively for the purpose of providing such services to one or more educational institutions.

(2) If compensation is denied for any week pursuant to paragraph (b) or (d) of subdivision (1) of this subsection to any individual performing services at an educational institution in any capacity (other than instructional, research or principal administrative capacity), and such individual was not offered an opportunity to perform such services for the second of such academic years or terms, such individual shall be entitled to a retroactive payment of the compensation for each week for which the individual filed a timely claim for compensation and for which compensation was denied solely by reason of paragraph (b) or (d) of subdivision (1) of this subsection.

4. (1) A claimant shall be ineligible for waiting week credit, benefits or shared work benefits for any week for which he or she is receiving or has received remuneration exceeding his or her weekly benefit amount or shared work benefit amount in the form of:

(a) Compensation for temporary partial disability pursuant to the workers' compensation law of any state or pursuant to a similar law of the United States;

(b) A governmental or other pension, retirement or retired pay, annuity, or other similar periodic payment which is based on the previous work of such claimant to the extent that such payment is provided from funds provided by a base period or chargeable employer pursuant to a plan maintained or contributed to by such employer; but, except for such payments made pursuant to the Social Security Act or the Railroad Retirement Act of 1974 (or the corresponding provisions of prior law), the provisions of this paragraph shall not apply if the services performed for such employer by the claimant after the beginning of the base period (or remuneration for such services) do not affect eligibility for or increase the amount of such pension, retirement or retired pay, annuity or similar payment.

(2) If the remuneration referred to in this subsection is less than the benefits which would otherwise be due, the claimant shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration, and, if such benefit is not a multiple of one dollar, such amount shall be lowered to the next multiple of one dollar.

(3) Notwithstanding the provisions of subdivisions (1) and (2) of this subsection, if a claimant has contributed in any way to the Social Security Act or the Railroad Retirement Act of 1974, or the corresponding provisions of prior law, no part of the payments received pursuant to such federal law shall be deductible from the amount of benefits received pursuant to this chapter.

5. A claimant shall be ineligible for waiting week credit or benefits for any week for which or a part of which he or she has received or is seeking unemployment benefits pursuant to an unemployment insurance law of another state or the United States; provided, that if it be finally determined that the claimant is not entitled to such unemployment benefits, such ineligibility shall not apply.

6. (1) A claimant shall be ineligible for waiting week credit or benefits for any week for which the deputy finds that such claimant's total or partial unemployment is due to a stoppage of work which exists because of a labor dispute in the factory, establishment or other premises in which such claimant is or was last employed. In the event the claimant secures other employment from which he or she is separated during the existence of the labor dispute, the claimant must have obtained bona fide employment as a permanent employee for at least the major part of each of two weeks in such subsequent employment to terminate his or her ineligibility. If, in any case, separate branches of work which are commonly conducted as separate businesses at separate premises are conducted in separate departments of the same

premises, each such department shall for the purposes of this subsection be deemed to be a separate factory, establishment or other premises. This subsection shall not apply if it is shown to the satisfaction of the deputy that:

(a) The claimant is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work; and

(b) The claimant does not belong to a grade or class of workers of which, immediately preceding the commencement of the stoppage, there were members employed at the premises at which the stoppage occurs, any of whom are participating in or financing or directly interested in the dispute.

(2) "Stoppage of work" as used in this subsection means a substantial diminution of the activities, production or services at the establishment, plant, factory or premises of the employing unit. This definition shall not apply to a strike where the employees in the bargaining unit who initiated the strike are participating in the strike. Such employees shall not be eligible for waiting week credit or benefits during the period when the strike is in effect, regardless of diminution, unless the employer has been found guilty of an unfair labor practice by the National Labor Relations Board or a federal court of law for an act or actions preceding or during the strike.

7. On or after January 1, 1978, benefits shall not be paid to any individual on the basis of any services, substantially all of which consist of participating in sports or athletic events or training or preparing to so participate, for any week which commences during the period between two successive sport seasons (or similar periods) if such individual performed such services in the first of such seasons (or similar periods) and there is a reasonable assurance that such individual will perform such services in the later of such seasons (or similar periods).

8. Benefits shall not be payable on the basis of services performed by an alien, unless such alien is an individual who was lawfully admitted for permanent residence at the time such services were performed, was lawfully present for purposes of performing such services, or was permanently residing in the United States under color of law at the time such services were performed (including an alien who was lawfully present in the United States as a result of the application of the provisions of Section 212(d)(5) of the Immigration and Nationality Act).

(1) Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status shall be uniformly required from all applicants for benefits.

(2) In the case of an individual whose application for benefits would otherwise be approved, no determination that benefits to such individual are not payable because of such individual's alien status shall be made except upon a preponderance of the evidence.

9. The directors of the division of employment security and the division of workforce development shall submit to the governor, the speaker of the house of representatives, and the president pro tem of the senate no later than October 15, 2006, a report outlining their recommendations for how to improve work search verification and claimant reemployment activities. The recommendations shall include, but not limited to how to best utilize "greathires.org", and how to reduce the average duration of unemployment insurance claims. Each calendar year thereafter, the directors shall submit a report containing their recommendations on these issues by December thirty-first of each year.

288.042. WAR ON TERROR VETERANS, DEFINED — ELIGIBLE FOR BENEFITS — TIME PERIOD — PENALTY — OFFER OF SIMILAR WAGES — FUND — RULEMAKING AUTHORITY.

— 1. For purposes of this section, a "war on terror veteran" is a Missouri resident who serves or has served in the military and to whom the following criteria apply:

(1) The person is or was a member of the [Missouri] national guard or a member of a United States armed forces reserves unit who was officially domiciled in the state of Missouri immediately prior to deployment;

(2) The person was deployed as part of his or her military unit at any time after September 11, 2001, and such deployment caused the person to be unable to continue working for his or her employer;

(3) The person was employed either part time or full time before deployment; and

(4) A Missouri court or United States district court located in Missouri has found that the person was discharged from or laid off from his or her nonmilitary employment during deployment or within thirty days after the completion of his or her deployment.

2. Notwithstanding any provisions of sections 288.010 to 288.500, any war on terror veteran shall be entitled to receive veterans' unemployment compensation benefits under this section. A war on terror veteran shall be entitled to a weekly benefit amount of eight percent of the wages paid to the war on terror veteran during that calendar quarter during which the war on terror veteran earned the highest amount within the five completed calendar quarters during which the war on terror veteran received wages immediately before deployment. The maximum amount of a weekly benefit amount shall be one thousand one hundred fifty-three dollars and sixty-four cents.

3. A war on terror veteran shall be entitled to a weekly benefit amount for twenty-six weeks. [The division may collect erroneously paid benefits in the manner provided in sections 288.160 and 288.170.] **The division of employment security shall pursue recovery of overpaid unemployment compensation benefits against any person receiving such overpaid benefits through billing, setoffs against state tax refunds, setoffs against federal tax refunds to the extent permitted by federal law, intercepts of lottery winnings under section 313.321, RSMo, and collection efforts as provided for in sections 288.160, 288.170, and 288.175.**

4. Any employer who is found in any Missouri court or United States district court located in Missouri to have terminated, demoted, or taken an adverse employment action against a war on terror veteran due to his or her absence while deployed shall be subject to an administrative penalty in the amount of thirty-five thousand dollars. The director of the division of employment security shall take judicial notice of judgments in suits brought under the Uniformed Service Employment and Reemployment Rights Act (38 U.S.C. 4301). Such judgments may be considered to have a res judicata effect on the director's determination. The administrative penalty shall be collectible in the manner provided in sections 288.160 and 288.170.

5. A war on terror veteran shall be considered to have been discharged from his or her employment if he or she is not offered the same wages, benefits, and similar work schedule upon his or her return after deployment.

6. There is hereby created in the state treasury the "War on Terror Unemployment Compensation Fund", which shall consist of money collected under this section and such other state funds appropriated by the general assembly. The state treasurer shall be custodian of the fund and shall approve disbursements from the fund in accordance with sections 30.170 and 30.180, RSMo. Upon appropriation, money in the fund shall be used solely for the administration, including payment of benefits and refunds, of this section. Notwithstanding the provisions of section 33.080, RSMo, to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and money earned on such investments shall be credited to the fund.

7. The division of employment security may promulgate rules to enforce this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

288.070. CLAIMS FOR BENEFITS — PROCEDURE — PAYMENT PENDING APPEAL. — 1.

All claims shall be made in accordance with such regulations as the division may prescribe; except that such regulations shall not require the filing of a claim for benefits by the claimant in person for a week of unemployment occurring immediately prior to the claimant's reemployment, but claims in such cases may be made by mail, or otherwise if authorized by regulation. Notice of each initial claim filed by an insured worker which establishes the beginning of such worker's benefit year shall be promptly mailed by the division to each base period employer of such individual, **except notice of an initial claim shall not be mailed to any contributing base period employer which paid such individual gross wages in the amount of four hundred dollars or less during such individual's base period**, and to the last employing unit whose name is furnished by the individual when such individual files such claim. In similar manner, a notice of each renewed claim filed by an insured worker during a benefit year after a period in such year during which the insured worker was employed shall be given to the last employing unit whose name is furnished by the individual when the individual files such renewed claim or to any other base period or subsequent employer of the worker who has requested such a notice. Any such base period employer or any employing unit, which employed the claimant since the beginning of the base period, who within ten calendar days after the mailing of notice of the initial claim or a renewed claim to the employer or employing unit's last known address files a written protest against the allowance of benefits, and any employing unit from whom the claimant was separated during a week [of continued claim] **claimed** other than a week in which an initial or renewed claim is effective, shall be deemed an interested party to any determination allowing benefits during the benefit year until such time as the issue or issues raised by the protest are resolved by a determination or decision which has become final.

2. If the last employer or any base period employer files a written protest against the allowance of benefits based upon the claimant's refusal to accept suitable work when offered the claimant, either through the division or directly by such last or base period employer, and such protest is filed within ten calendar days of the claimant's refusal of work, such employer shall be deemed an interested party to any determination concerning the claimant's refusal of work until such time as the issue or issues raised by the protest are resolved by a determination or decision which has become final.

3. Any base period employer or any employing unit, which employed the claimant since the beginning of the base period, who files a written protest against the allowance of benefits based upon the claimant not being able to work or available for work shall be deemed an interested party to any determination concerning claimant's ability to work or availability for work until such time as the issue or issues raised by the protest are resolved by a determination or decision which has become final.

[2.] **4.** A deputy shall promptly examine each initial claim and make a determination of the claimant's status as an insured worker. Each such determination shall be based on a written statement showing the amount of wages for insured work paid to the claimant by each employer during the claimant's base period and shall include a finding as to whether such wages meet the requirements for the claimant to be an insured worker, and, if so, the first day of the claimant's benefit year, the claimant's weekly benefit amount, and the maximum total amount of benefits which may be payable to the claimant for weeks of unemployment in the claimant's benefit year. The deputy shall in respect to all claims for benefits thereafter filed by such individual in the claimant's benefit year make a written determination as to whether and in what amount the claimant is entitled to benefits for the week or weeks with respect to which the determination is made. Whenever claims involve complex questions of law or fact, the deputy, with the approval of the director, may refer such claims to the appeals tribunal, without making a determination, for a fair hearing and decision as provided in section 288.190.

[3.] **5.** The deputy shall, in writing, promptly notify the claimant of such deputy's determination on an initial claim, including the reason therefor, and a copy of the written statement as provided in subsection [2] **4** of this section. The deputy shall promptly notify the

claimant and all other interested parties of such deputy's determination on any claim for benefits and shall give the reason therefor; except that, where a determination on a later claim for benefits in a benefit year is the same as the determination on a preceding claim, no additional notice shall be given. A determination shall be final, when unappealed, in respect to any claim to which it applies except that an appeal from a determination on a claim for benefits shall be considered as an appeal from all later claims to which the same determination applies. The deputy may, however, not later than one year following the end of a benefit year, for good cause, reconsider any determination on any claim and shall promptly notify the claimant and other interested parties of such deputy's redetermination and the reasons therefor. Whenever the deputy shall have notified any interested employer of the denial of benefits to a claimant for any week or weeks and shall thereafter allow benefits to such claimant for a subsequent week or weeks, the deputy shall notify such interested employer of the beginning date of the allowance of benefits for such subsequent period.

[4.] **6.** Unless the claimant or any interested party within thirty calendar days after notice of such determination is either delivered in person or mailed to the last known address of such claimant or interested party files an appeal from such determination, it shall be final. If, pursuant to a determination or redetermination, benefits are payable in any amount or in respect to any week as to which there is no dispute, such amount of benefits shall be promptly paid regardless of any appeal.

[5.] **7.** Benefits shall be paid promptly in accordance with a determination or redetermination pursuant to this section, or the decision of an appeals tribunal, the labor and industrial relations commission of Missouri or a reviewing court upon the issuance of such determination, redetermination or decision (regardless of the pendency of the period to apply for reconsideration, file an appeal, or petition for judicial review as provided in this section, or section 288.190, 288.200, or 288.210, as the case may be, or the pendency of any such application, appeal, or petition) unless and until such determination, redetermination or decision has been modified or reversed by a subsequent redetermination or decision, in which event benefits shall be paid or denied for weeks of unemployment thereafter in accordance with such modified or reversed redetermination or decision.

[6.] **8.** Benefits paid during the pendency of the period to apply for reconsideration, file an appeal, or petition for judicial review or during the pendency of any such application, appeal, or petition shall be considered as having been due and payable regardless of any redetermination or decision unless the modifying or reversing redetermination or decision establishes that the claimant willfully failed to disclose or falsified any fact which would have disqualified the claimant or rendered the claimant ineligible for such benefits as contemplated in subsection 9 of section 288.380.

[7.] **9.** Benefits paid during the pendency of the period to apply for reconsideration, file an appeal, or petition for judicial review or during the pendency of any such application, appeal, or petition which would not have been payable under a redetermination or decision which becomes final shall not be chargeable to any employer. Beginning with benefits paid on and after January 1, 1998, the provisions of this subsection shall not apply to employers who have elected to make payments in lieu of contributions pursuant to subsection 3 of section 288.090.

[8.] **10.** The ten-day period mentioned in [subsection] **subsections 1 and 2** of this section and the thirty-day period mentioned in subsection [4] **6** of this section may, for good cause, be extended.

11. Any notice of claim or notice of determination required to be mailed by the division to an employer or claimant under this section may be transmitted electronically by the division to any employer or claimant requesting such method of delivery. The date the division transmits such notice of claim or notice of determination shall be deemed the date of mailing for purposes of filing a protest to the notice or claim or filing an appeal concerning a notice of determination.

288.131. UNEMPLOYMENT AUTOMATION SURCHARGE AUTHORIZED, AMOUNT. — For calendar years 2009, 2010, and 2011, each employer that is liable for contributions under this chapter, except employers with a contribution rate equal to zero, shall pay an annual unemployment automation surcharge in an amount equal to five one-hundredths of one percent of such employer's total taxable wages for the twelve-month period ending the preceding June thirteenth. However, the division may reduce the foregoing percentage to ensure that the total amount of surcharge due from all employers under this subsection shall not exceed thirteen million dollars annually. Each employer liable to pay such surcharge shall be notified of the amount due under this subsection by March thirty-first of each year and such amount shall be considered delinquent thirty days thereafter. Delinquent unemployment automation surcharge amounts may be collected in the manner provided under sections 288.160 and 288.170. All moneys collected under this subsection shall be deposited in the unemployment automation fund established in section 288.312.

2. For calendar years 2009, 2010, and 2011, the otherwise applicable unemployment contribution rate of each employer liable for contributions under this chapter shall be reduced by five one-hundredths of one percent, except such contribution rate shall not be less than zero.

288.250. RECORDS CONFIDENTIAL — PRIVILEGED COMMUNICATIONS — VIOLATION, PENALTY. — 1. Information obtained from any employing unit or individual pursuant to the administration of this law, shall be held confidential and shall not be published, **further disclosed**, or be open to public inspection [(other than to public employees in the performance of their public duties, including, but not limited to, the division of child support enforcement, other child support agencies of the federal government or other states as provided for under chapter 454, RSMo, or federal statutes)] in any manner revealing the individual's or employing unit's identity, but any claimant or employing unit or their authorized representative shall be supplied with information from the division's records to the extent necessary for the proper preparation and presentation of any claim for unemployment compensation benefits or protest of employer liability. Further, upon receipt of a written request from a claimant or his or her authorized representative, the division shall supply information previously submitted to the division by the claimant, the claimant's wage history and the claimant's benefit payment history. In addition, upon receipt of a written request from an authorized representative of an employing unit, the division shall supply information previously submitted to the division by the employing unit, and information concerning the payment of benefits from the employer's account and the unemployment compensation fund, including amounts paid to specific claimants. **A state or federal official or agency may receive disclosures to the extent required by federal law. In the division's discretion, any other party may receive disclosures to the extent authorized by state and federal law.** Any information obtained by the division in the administration of this law shall be privileged and no individual or type of organization shall be held liable for slander or libel on account of any such information.

2. Any person who intentionally discloses or otherwise fails to protect confidential information in violation of this section shall be guilty of a class A misdemeanor. For a second or subsequent violation, the person shall be guilty of a class D felony.

288.312. UNEMPLOYMENT AUTOMATION FUND CREATED, USE OF MONEYS. — 1. There is hereby created in the state treasury the "Unemployment Automation Fund", with shall consist of money collected under subsection 1 of section 288.131, and such other state funds appropriated by the general assembly. The state treasurer shall be custodian of the fund and may approve disbursements from the fund in accordance with sections 30.170 and 30.180, RSMo. Upon appropriation, money in the fund shall be used solely for the purpose of providing automated systems, and the payment of associated costs, to improve the administration of the state's unemployment insurance program. Notwithstanding the

provisions of section 33.080, RSMo, to the contrary, all moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and money earned on such investments shall be credited to the fund.

2. The unemployment automation fund shall not be used in whole or in part for any purpose or in any manner that would permit its substitution for, or a corresponding reduction in, federal funds that would be available in its absence to finance expenditures for the administration of this chapter, or cause the appropriate agency of the United States government to withhold any part of an administrative grant which would otherwise be made.

290.505. OVERTIME COMPENSATION, APPLICABLE NUMBER OF HOURS, EXCEPTIONS.

— 1. No employer shall employ any of his employees for a workweek longer than forty hours unless such employee receives compensation for his employment in excess of the hours above specified at a rate not less than one and one-half times the regular rate at which he is employed.

2. Employees of an amusement or recreation business that meets the criteria set out in 29 U.S.C. 213(a) (3) must be paid one and one-half times their regular compensation for any hours worked in excess of fifty-two hours in any one-week period.

3. 4. Except as may be otherwise provided under sections 290.500 to 290.530, this section shall be interpreted in accordance with the Fair Labor Standards Act, 29 U.S.C. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2008, shall be invalid and void.

Such delinquency shall not affect the authorization of the application for such tax credits, except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance concludes that a taxpayer is delinquent after June fifteenth but before July first of any year, and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits towards a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. A taxpayer who establishes a new business facility may, upon approval by the department, be allowed a credit, each tax year for up to ten tax years, in an amount determined as set forth in this section, against the tax imposed by chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo. No taxpayer shall receive multiple ten-year periods for subsequent expansions at the same facility.

2. Notwithstanding any provision of law to the contrary, any taxpayer who establishes a new business facility in an enhanced enterprise zone and is awarded state tax credits under this section may not also receive tax credits under sections 135.100 to 135.150, sections 135.200 to [135.268] 135.286, or section 135.535, and may not simultaneously receive tax credits under sections 620.1875 to 620.1890, RSMo, at the same facility.

3. No credit shall be issued pursuant to this section unless:

(1) The number of new business facility employees engaged or maintained in employment at the new business facility for the taxable year for which the credit is claimed equals or exceeds two; and

(2) The new business facility investment for the taxable year for which the credit is claimed equals or exceeds one hundred thousand dollars.

4. The annual amount of credits allowed for an approved enhanced business enterprise shall be the lesser of:

(1) The annual amount authorized by the department for the enhanced business enterprise, which shall be limited to the projected state economic benefit, as determined by the department; or

(2) The sum calculated based upon the following:

(a) A credit of four hundred dollars for each new business facility employee employed within an enhanced enterprise zone;

(b) An additional credit of four hundred dollars for each new business facility employee who is a resident of an enhanced enterprise zone;

(d) A credit equal to two percent of new business facility investment within an enhanced enterprise zone.

5. Prior to January 1, 2007, in no event shall the department authorize more than four million dollars annually to be issued for all enhanced business enterprises. After December 31, 2006, in no event shall the department authorize more than [fourteen] **twenty-four** million dollars annually to be issued for all enhanced business enterprises.

6. If a facility, which does not constitute a new business facility, is expanded by the taxpayer, the expansion shall be considered eligible for the credit allowed by this section if:

(1) The taxpayer's new business facility investment in the expansion during the tax period in which the credits allowed in this section are claimed exceeds one hundred thousand dollars and if the number of new business facility employees engaged or maintained in employment at the expansion facility for the taxable year for which credit is claimed equals or exceeds two, and the total number of employees at the facility after the expansion is at least two greater than the total number of employees before the expansion; and

(2) The taxpayer's investment in the expansion and in the original facility prior to expansion shall be determined in the manner provided in subdivision (14) of section 135.950.

7. The number of new business facility employees during any taxable year shall be determined by dividing by twelve the sum of the number of individuals employed on the last business day of each month of such taxable year. If the new business facility is in operation for less than the entire taxable year, the number of new business facility employees shall be determined by dividing the sum of the number of individuals employed on the last business day of each full calendar month during the portion of such taxable year during which the new business facility was in operation by the number of full calendar months during such period. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility under subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision (14) of section 135.950, or subdivision (22) of section 135.950, the number of new business facility employees at such facility shall be reduced by the average number of individuals employed, computed as provided in this subsection, at the facility during the taxable year immediately preceding the taxable year in which such expansion, acquisition, or replacement occurred and shall further be reduced by the number of individuals employed by the taxpayer or related taxpayer that was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

8. In the case where a new business facility employee who is a resident of an enhanced enterprise zone for less than a twelve-month period is employed for less than a twelve-month period, the credits allowed by paragraph (b) of subdivision (2) of subsection 4 of this section

shall be determined by multiplying four hundred dollars by a fraction, the numerator of which is the number of calendar days during the taxpayer's tax year for which such credits are claimed, in which the employee was a resident of an enhanced enterprise zone, and the denominator of which is three hundred sixty-five.

9. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility pursuant to subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision (14) of section 135.950 or subdivision (22) of section 135.950, the amount of the taxpayer's new business facility investment in such facility shall be reduced by the average amount, computed as provided in subdivision (14) of section 135.950 for new business facility investment, of the investment of the taxpayer, or related taxpayer immediately preceding such expansion or replacement or at the time of acquisition. Furthermore, the amount of the taxpayer's new business facility investment shall also be reduced by the amount of investment employed by the taxpayer or related taxpayer which was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

10. For a taxpayer with flow-through tax treatment to its members, partners, or shareholders, the credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the taxpayer's tax period.

11. Credits may not be carried forward but shall be claimed for the taxable year during which commencement of commercial operations occurs at such new business facility, and for each of the nine succeeding taxable years for which the credit is issued.

12. Certificates of tax credit authorized by this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department. The sale price cannot be less than seventy-five percent of the par value of such credits.

13. The director of revenue shall issue a refund to the taxpayer to the extent that the amount of credits allowed in this section exceeds the amount of the taxpayer's income tax.

14. Prior to the issuance of tax credits, the department shall verify through the department of revenue, or any other state department, that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits, except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance, or any other state department, concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

Except as otherwise provided in subsection 3 of this section and section 137.078, the assessor shall annually assess all personal property at thirty-three and one-third percent of its true value in money as of January first of each calendar year. The assessor shall annually assess all real property, including any new construction and improvements to real property, and possessory interests in real property at the percent of its true value in money set in subsection 5 of this section. **The true value in money of any possessory interest in real property in subclass (3), where such real property is on or lies within the ultimate airport boundary as shown by a federal airport layout plan, as defined by 14 CFR 151.5 of a commercial airport having a FAR Part 139 certification and owned by a political subdivision, shall be the otherwise applicable true value in money of any such possessory interest in real property, less the total dollar amount of costs paid by a party, other than the political subdivision, towards any new construction or improvements on such real property completed after January 1, 2008, and which are included in the above-mentioned possessory interest, regardless of the year in which such costs were incurred or whether such costs were considered in any prior year.** The assessor shall annually assess all real property in the following manner: new assessed values shall be determined as of January first of each odd-numbered year and shall be entered in the assessor's books; those same assessed values shall apply in the following even-numbered year, except for new construction and property improvements which shall be valued as though they had been completed as of January first of the preceding odd-numbered year. The assessor may call at the office, place of doing business, or residence of each person required by this chapter to list property, and require the person to make a correct statement of all taxable tangible personal property owned by the person or under his or her care, charge or management, taxable in the county. On or before January first of each even-numbered year, the assessor shall prepare and submit a two-year assessment maintenance plan to the county governing body and the state tax commission for their respective approval or modification. The county governing body shall approve and forward such plan or its alternative to the plan to the state tax commission by February first. If the county governing body fails to forward the plan or its alternative to the plan to the state tax commission by February first, the assessor's plan shall be considered approved by the county governing body. If the state tax commission fails to approve a plan and if the state tax commission and the assessor and the governing body of the county involved are unable to resolve the differences, in order to receive state cost-share funds outlined in section 137.750, the county or the assessor shall petition the administrative hearing commission, by May first, to decide all matters in dispute regarding the assessment maintenance plan. Upon agreement of the parties, the matter may be stayed while the parties proceed with mediation or arbitration upon terms agreed to by the parties. The final decision of the administrative hearing commission shall be subject to judicial review in the circuit court of the county involved. In the event a valuation of subclass (1) real property within any county with a charter form of government, or within a city not within a county, is made by a computer, computer-assisted method or a computer program, the burden of proof, supported by clear, convincing and cogent evidence to sustain such valuation, shall be on the assessor at any hearing or appeal. In any such county, unless the assessor proves otherwise, there shall be a presumption that the assessment was made by a computer, computer-assisted method or a computer program. Such evidence shall include, but shall not be limited to, the following:

- (1) The findings of the assessor based on an appraisal of the property by generally accepted appraisal techniques; and
- (2) The purchase prices from sales of at least three comparable properties and the address or location thereof. As used in this [paragraph] **subdivision**, the word "comparable" means that:
 - (a) Such sale was closed at a date relevant to the property valuation; and
 - (b) Such properties are not more than one mile from the site of the disputed property, except where no similar properties exist within one mile of the disputed property, the nearest comparable property shall be used. Such property shall be within five hundred square feet in size

of the disputed property, and resemble the disputed property in age, floor plan, number of rooms, and other relevant characteristics.

2. Assessors in each county of this state and the city of St. Louis may send personal property assessment forms through the mail.

3. The following items of personal property shall each constitute separate subclasses of tangible personal property and shall be assessed and valued for the purposes of taxation at the following percentages of their true value in money:

(1) Grain and other agricultural crops in an unmanufactured condition, one-half of one percent;

(2) Livestock, twelve percent;

(3) Farm machinery, twelve percent;

(4) Motor vehicles which are eligible for registration as and are registered as historic motor vehicles pursuant to section 301.131, RSMo, and aircraft which are at least twenty-five years old and which are used solely for noncommercial purposes and are operated less than fifty hours per year or aircraft that are home built from a kit, five percent;

(5) Poultry, twelve percent; and

(6) Tools and equipment used for pollution control and tools and equipment used in retooling for the purpose of introducing new product lines or used for making improvements to existing products by any company which is located in a state enterprise zone and which is identified by any standard industrial classification number cited in subdivision (6) of section 135.200, RSMo, twenty-five percent.

4. The person listing the property shall enter a true and correct statement of the property, in a printed blank prepared for that purpose. The statement, after being filled out, shall be signed and either affirmed or sworn to as provided in section 137.155. The list shall then be delivered to the assessor.

5. All subclasses of real property, as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, shall be assessed at the following percentages of true value:

(1) For real property in subclass (1), nineteen percent;

(2) For real property in subclass (2), twelve percent; and

(3) For real property in subclass (3), thirty-two percent.

6. Manufactured homes, as defined in section 700.010, RSMo, which are actually used as dwelling units shall be assessed at the same percentage of true value as residential real property for the purpose of taxation. The percentage of assessment of true value for such manufactured homes shall be the same as for residential real property. If the county collector cannot identify or find the manufactured home when attempting to attach the manufactured home for payment of taxes owed by the manufactured home owner, the county collector may request the county commission to have the manufactured home removed from the tax books, and such request shall be granted within thirty days after the request is made; however, the removal from the tax books does not remove the tax lien on the manufactured home if it is later identified or found. A manufactured home located in a manufactured home rental park, rental community or on real estate not owned by the manufactured home owner shall be considered personal property. A manufactured home located on real estate owned by the manufactured home owner may be considered real property.

7. Each manufactured home assessed shall be considered a parcel for the purpose of reimbursement pursuant to section 137.750, unless the manufactured home has been converted to real property in compliance with section 700.111, RSMo, and assessed as a realty improvement to the existing real estate parcel.

8. Any amount of tax due and owing based on the assessment of a manufactured home shall be included on the personal property tax statement of the manufactured home owner unless the manufactured home has been converted to real property in compliance with section 700.111, RSMo, in which case the amount of tax due and owing on the assessment of the manufactured

home as a realty improvement to the existing real estate parcel shall be included on the real property tax statement of the real estate owner.

9. The assessor of each county and each city not within a county shall use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide, or its successor publication, as the recommended guide of information for determining the true value of motor vehicles described in such publication. In the absence of a listing for a particular motor vehicle in such publication, the assessor shall use such information or publications which in the assessor's judgment will fairly estimate the true value in money of the motor vehicle.

10. Before the assessor may increase the assessed valuation of any parcel of subclass (1) real property by more than fifteen percent since the last assessment, excluding increases due to new construction or improvements, the assessor shall conduct a physical inspection of such property.

11. If a physical inspection is required, pursuant to subsection 10 of this section, the assessor shall notify the property owner of that fact in writing and shall provide the owner clear written notice of the owner's rights relating to the physical inspection. If a physical inspection is required, the property owner may request that an interior inspection be performed during the physical inspection. The owner shall have no less than thirty days to notify the assessor of a request for an interior physical inspection.

12. A physical inspection, as required by subsection 10 of this section, shall include, but not be limited to, an on-site personal observation and review of all exterior portions of the land and any buildings and improvements to which the inspector has or may reasonably and lawfully gain external access, and shall include an observation and review of the interior of any buildings or improvements on the property upon the timely request of the owner pursuant to subsection 11 of this section. Mere observation of the property via a "drive-by inspection" or the like shall not be considered sufficient to constitute a physical inspection as required by this section.

13. The provisions of subsections 11 and 12 of this section shall only apply in any county with a charter form of government with more than one million inhabitants.

14. A county or city collector may accept credit cards as proper form of payment of outstanding property tax or license due. No county or city collector may charge surcharge for payment by credit card which exceeds the fee or surcharge charged by the credit card bank, processor, or issuer for its service. A county or city collector may accept payment by electronic transfers of funds in payment of any tax or license and charge the person making such payment a fee equal to the fee charged the county by the bank, processor, or issuer of such electronic payment.

15. Any county or city not within a county in this state may, by an affirmative vote of the governing body of such county, opt out of the provisions of this section and sections 137.073, 138.060, and 138.100, RSMo, as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session and section 137.073 as modified by [this act] **house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session**, for the next year of the general reassessment, prior to January first of any year. No county or city not within a county shall exercise this opt-out provision after implementing the provisions of this section and sections 137.073, 138.060, and 138.100, RSMo, as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session and section 137.073 as modified by [this act] **house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session**, in a year of general reassessment. For the purposes of applying the provisions of this subsection, a political subdivision contained within two or more counties where at least one of such counties has opted out and at least one of such counties has not opted out shall calculate a single tax rate as in effect prior to the enactment of house bill no. 1150 of the ninety-first general assembly, second regular session. A governing body of a city not within a county or a county that has opted out under the

provisions of this subsection may choose to implement the provisions of this section and sections 137.073, 138.060, and 138.100, RSMo, as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session, and section 137.073 as modified by [this act] **house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session**, for the next year of general reassessment, by an affirmative vote of the governing body prior to December thirty-first of any year.

16. The governing body of any city of the third classification with more than twenty-six thousand three hundred but fewer than twenty-six thousand seven hundred inhabitants located in any county that has exercised its authority to opt out under subsection 15 of this section may levy separate and differing tax rates for real and personal property only if such city bills and collects its own property taxes or satisfies the entire cost of the billing and collection of such separate and differing tax rates. Such separate and differing rates shall not exceed such city's tax rate ceiling.

144.057. ALL TANGIBLE PERSONAL PROPERTY ON U.S. MUNITIONS LIST, EXEMPT FROM STATE AND LOCAL SALES AND USE TAX. — In addition to the exemptions granted under this chapter, there shall also be specifically exempted from state and local sales and use taxes defined, levied, or calculated under section 32.085, RSMo, sections 144.010 to 144.525, sections 144.600 to 144.761, or section 238.235, RSMo, all tangible personal property included on the United States munitions list, as provided in 22 CFR 121.1, sold to or purchased by any foreign government or agency or instrumentality of such foreign government which is used for a governmental purpose.

348.436. EXPIRATION DATE. — The provisions of sections 348.430 to 348.436 shall expire December 31, [2010] **2016**.

353.150. BORROWING OF MONEY AND GIVING OF SECURITY BY CORPORATION. — 1. Any urban redevelopment corporation may borrow funds and secure the repayment thereof by mortgage which shall contain reasonable amortization provisions and shall be a lien upon no other real property except that forming the whole or a part of a single development area.

2. Certificates, bonds and notes, or part interest therein, or any part of an issue thereof, which are secured by a first mortgage on the real property in a development area, or any part thereof, shall be securities in which all the following persons, partnerships, or corporations and public bodies or public officers may legally invest the funds within their control:

(1) Every executor, administrator, trustee, guardian, committee or other person or corporation holding trust funds or acting in a fiduciary capacity;

(2) Persons, partnerships and corporations organized under or subject to the provisions of the banking law (including savings banks, savings and loan associations and trust companies);

(3) The state director of finance as conservator, liquidator or rehabilitator of any such person, partnership or corporation;

(4) Persons, partnerships or corporations organized under or subject to the provisions of the insurance law; fraternal benefit societies; and

(5) The state director of the department of insurance as conservator, liquidator or rehabilitator of any such person, partnership or corporation.

3. Any mortgage on the real property in a development area, or any part thereof, may create a first lien, or a second or other junior lien, upon such real property.

4. Any urban redevelopment corporation may sell or otherwise dispose of any or all of the real property acquired by it for the purposes of a redevelopment project. In the event of the sale or other disposition of real property of any urban redevelopment corporation by reason of the foreclosure of any mortgage or other lien, through insolvency or bankruptcy proceedings, by order of any court of competent jurisdiction, by voluntary transfer or otherwise, and the purchaser

of such real property of such redevelopment corporation shall continue to use, operate and maintain such real property in accordance with the provisions of any development plan, the legislative authority of any city affected by the provisions of this chapter, may grant the partial tax relief provided in section 353.110; but if such real property shall be used for a purpose different than that described in the redevelopment plan, or in the event that the purchaser does not desire the property to continue under the redevelopment plan, or if the legislative authority shall refuse to grant the purchaser continuing tax relief, the real property shall be assessed for ad valorem taxes upon the full true value of the real property and may be owned and operated free from any of the conditions, restrictions or provisions of this chapter. **Nothing in this chapter, any development plan, or any contract shall impose a limitation on earnings as a condition to the granting of partial tax relief provided in section 353.110 to a purchaser described in this subsection that is not an urban redevelopment corporation or life insurance company operating as an urban redevelopment corporation.**

5. Any limitation on earnings imposed on any purchaser that is not an urban redevelopment corporation or life insurance company operating as an urban redevelopment corporation under any existing or future redevelopment plan or any existing or future contract shall be void.

447.708. TAX CREDITS, CRITERIA, CONDITIONS — DEFINITIONS. — 1. For eligible projects, the director of the department of economic development, with notice to the directors of the departments of natural resources and revenue, and subject to the other provisions of sections 447.700 to 447.718, may not create a new enterprise zone but may decide that a prospective operator of a facility being remedied and renovated pursuant to sections 447.700 to 447.718 may receive the tax credits and exemptions pursuant to sections 135.100 to 135.150, RSMo, and sections 135.200 to 135.257, RSMo. The tax credits allowed pursuant to this subsection shall be used to offset the tax imposed by chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo, or the tax otherwise imposed by chapter 147, RSMo, or the tax otherwise imposed by chapter 148, RSMo. For purposes of this subsection:

(1) For receipt of the ad valorem tax abatement pursuant to section 135.215, RSMo, the eligible project must create at least ten new jobs or retain businesses which supply at least twenty-five existing jobs. The city, or county if the eligible project is not located in a city, must provide ad valorem tax abatement of at least fifty percent for a period not less than ten years and not more than twenty-five years;

(2) For receipt of the income tax exemption pursuant to section 135.220, RSMo, and tax credit for new or expanded business facilities pursuant to sections 135.100 to 135.150, and 135.225, RSMo, the eligible project must create at least ten new jobs or retain businesses which supply at least twenty-five existing jobs, or combination thereof. For purposes of sections 447.700 to 447.718, the tax credits described in section 135.225, RSMo, are modified as follows: the tax credit shall be four hundred dollars per employee per year, an additional four hundred dollars per year for each employee exceeding the minimum employment thresholds of ten and twenty-five jobs for new and existing businesses, respectively, an additional four hundred dollars per year for each person who is "a person difficult to employ" as defined by section 135.240, RSMo, and investment tax credits at the same amounts and levels as provided in subdivision (4) of subsection 1 of section 135.225, RSMo;

(3) For eligibility to receive the income tax refund pursuant to section 135.245, RSMo, the eligible project must create at least ten new jobs or retain businesses which supply at least twenty-five existing jobs, or combination thereof, and otherwise comply with the provisions of section 135.245, RSMo, for application and use of the refund and the eligibility requirements of this section;

(4) The eligible project operates in compliance with applicable environmental laws and regulations, including permitting and registration requirements, of this state as well as the federal and local requirements;

(5) The eligible project operator shall file such reports as may be required by the director of economic development or the director's designee;

(6) The taxpayer may claim the state tax credits authorized by this subsection and the state income exemption for a period not in excess of ten consecutive tax years. For the purpose of this section, "taxpayer" means an individual proprietorship, partnership or corporation described in section 143.441 or 143.471, RSMo, who operates an eligible project. The director shall determine the number of years the taxpayer may claim the state tax credits and the state income exemption based on the projected net state economic benefits attributed to the eligible project;

(7) For the purpose of meeting the new job requirement prescribed in subdivisions (1), (2) and (3) of this subsection, it shall be required that at least ten new jobs be created and maintained during the taxpayer's tax period for which the credits are earned, in the case of an eligible project that does not replace a similar facility in Missouri. "New job" means a person who was not previously employed by the taxpayer or related taxpayer within the twelve-month period immediately preceding the time the person was employed by that taxpayer to work at, or in connection with, the eligible project on a full-time basis. "Full-time basis" means the employee works an average of at least thirty-five hours per week during the taxpayer's tax period for which the tax credits are earned. For the purposes of this section, "related taxpayer" has the same meaning as defined in subdivision (9) of section 135.100, RSMo;

(8) For the purpose of meeting the existing job retention requirement, if the eligible project replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, it shall be required that at least twenty-five existing jobs be retained at, and in connection with the eligible project, on a full-time basis during the taxpayer's tax period for which the credits are earned. "Retained job" means a person who was previously employed by the taxpayer or related taxpayer, at a facility similar to the eligible project that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, within the tax period immediately preceding the time the person was employed by the taxpayer to work at, or in connection with, the eligible project on a full-time basis. "Full-time basis" means the employee works an average of at least thirty-five hours per week during the taxpayer's tax period for which the tax credits are earned;

(9) In the case where an eligible project replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, the owner and operator of the eligible project shall provide the director with a written statement explaining the reason for discontinuing operations at the closed facility. The statement shall include a comparison of the activities performed at the closed facility prior to the date the facility ceased operating, to the activities performed at the eligible project, and a detailed account describing the need and rationale for relocating to the eligible project. If the director finds the relocation to the eligible project significantly impaired the economic stability of the area in which the closed facility was located, and that such move was detrimental to the overall economic development efforts of the state, the director may deny the taxpayer's request to claim tax benefits;

(10) Notwithstanding any provision of law to the contrary, for the purpose of this section, the number of new jobs created and maintained, the number of existing jobs retained, and the value of new qualified investment used at the eligible project during any tax year shall be determined by dividing by twelve, in the case of jobs, the sum of the number of individuals employed at the eligible project, or in the case of new qualified investment, the value of new qualified investment used at the eligible project, on the last business day of each full calendar month of the tax year. If the eligible project is in operation for less than the entire tax year, the number of new jobs created and maintained, the number of existing jobs retained, and the value of new qualified investment created at the eligible project during any tax year shall be determined by dividing the sum of the number of individuals employed at the eligible project, or in the case of new qualified investment, the value of new qualified investment used at the eligible project, on the last business day of each full calendar month during the portion of the tax year during

which the eligible project was in operation, by the number of full calendar months during such period;

(11) For the purpose of this section, "new qualified investment" means new business facility investment as defined and as determined in subdivision (7) of section 135.100, RSMo, which is used at and in connection with the eligible project. "New qualified investment" shall not include small tools, supplies and inventory. "Small tools" means tools that are portable and can be hand held.

2. The determination of the director of economic development pursuant to subsection 1 of this section, shall not affect requirements for the prospective purchaser to obtain the approval of the granting of real property tax abatement by the municipal or county government where the eligible project is located.

3. (1) The director of the department of economic development, with the approval of the director of the department of natural resources, may, in addition to the tax credits allowed in subsection 1 of this section, grant a remediation tax credit to the applicant for up to one hundred percent of the costs of materials, supplies, equipment, labor, professional engineering, consulting and architectural fees, permitting fees and expenses, demolition, asbestos abatement, and direct utility charges for performing the voluntary remediation activities for the preexisting hazardous substance contamination and releases, including, but not limited to, the costs of performing operation and maintenance of the remediation equipment at the property beyond the year in which the systems and equipment are built and installed at the eligible project and the costs of performing the voluntary remediation activities over a period not in excess of four tax years following the taxpayer's tax year in which the system and equipment were first put into use at the eligible project, provided the remediation activities are the subject of a plan submitted to, and approved by, the director of natural resources pursuant to sections 260.565 to 260.575, RSMo. **The tax credit may also include up to one hundred percent of the costs of demolition that are not directly part of the remediation activities, provided that the demolition is on the property where the voluntary remediation activities are occurring, the demolition is necessary to accomplish the planned use of the facility where the remediation activities are occurring, and the demolition is part of a redevelopment plan approved by the municipal or county government and the department of economic development. The demolition may occur on an adjacent property if the project is located in a municipality which has a population less than twenty thousand and the above conditions are otherwise met. The adjacent property shall independently qualify as abandoned or underutilized. The amount of the credit available for demolition not associated with remediation can not exceed the total amount of credits approved for remediation including demolition required for remediation.**

(2) [The director of the department of economic development, with the approval of the director of the department of natural resources, may, in addition to the tax credits otherwise allowed in this section, grant a demolition tax credit to the applicant for up to one hundred percent of the costs of demolition that are not part of the voluntary remediation activities, provided that the demolition is either on the property where the voluntary remediation activities are occurring or on any adjacent property, and that the demolition is part of a redevelopment plan approved by the municipal or county government and the department of economic development.

(3) The amount of remediation [and demolition] tax credits issued shall be limited to the least amount necessary to cause the project to occur, as determined by the director of the department of economic development.

[(4)] (3) The director may, with the approval of the director of natural resources, extend the tax credits allowed for performing voluntary remediation maintenance activities, in increments of three-year periods, not to exceed five consecutive three-year periods. The tax credits allowed in this subsection shall be used to offset the tax imposed by chapter 143, RSMo, excluding

withholding tax imposed by sections 143.191 to 143.265, RSMo, or the tax otherwise imposed by chapter 147, RSMo, or the tax otherwise imposed by chapter 148, RSMo. The remediation [and demolition] tax credit may be taken in the same tax year in which the tax credits are received or may be taken over a period not to exceed twenty years.

[(5)] (4) The project facility shall be projected to create at least ten new jobs or at least twenty-five retained jobs, or a combination thereof, as determined by the department of economic development, to be eligible for tax credits pursuant to this section.

[(6)] (5) No more than seventy-five percent of earned remediation tax credits may be issued when the remediation costs were paid, and the remaining percentage may be issued when the department of natural resources issues a "Letter of Completion" letter or covenant not to sue following completion of the voluntary remediation activities. It shall not include any costs associated with ongoing operational environmental compliance of the facility or remediation costs arising out of spills, leaks, or other releases arising out of the ongoing business operations of the facility.

4. In the exercise of the sound discretion of the director of the department of economic development or the director's designee, the tax credits and exemptions described in this section may be terminated, suspended or revoked, if the eligible project fails to continue to meet the conditions set forth in this section. In making such a determination, the director shall consider the severity of the condition violation, actions taken to correct the violation, the frequency of any condition violations and whether the actions exhibit a pattern of conduct by the eligible facility owner and operator. The director shall also consider changes in general economic conditions and the recommendation of the director of the department of natural resources, or his or her designee, concerning the severity, scope, nature, frequency and extent of any violations of the environmental compliance conditions. The taxpayer or person claiming the tax credits or exemptions may appeal the decision regarding termination, suspension or revocation of any tax credit or exemption in accordance with the procedures outlined in subsections 4 to 6 of section 135.250, RSMo. The director of the department of economic development shall notify the directors of the departments of natural resources and revenue of the termination, suspension or revocation of any tax credits as determined in this section or pursuant to the provisions of section 447.716.

5. Notwithstanding any provision of law to the contrary, no taxpayer shall earn the tax credits, exemptions or refund otherwise allowed in subdivisions (2), (3) and (4) of subsection 1 of this section and the tax credits otherwise allowed in section 135.110, RSMo, or the tax credits, exemptions and refund otherwise allowed in sections 135.215, 135.220, 135.225 and 135.245, RSMo, respectively, for the same facility for the same tax period.

6. The total amount of the tax credits allowed in subsection 1 of this section may not exceed the greater of:

- (1) That portion of the taxpayer's income attributed to the eligible project; or
 - (2) One hundred percent of the total business' income tax if the eligible facility does not replace a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the tax credits are earned, and further provided the taxpayer does not operate any other facilities besides the eligible project in Missouri; fifty percent of the total business' income tax if the eligible facility replaces a similar facility that closed elsewhere in Missouri prior to the end of the taxpayer's tax period in which the credits are earned, and further provided the taxpayer does not operate any other facilities besides the eligible project in Missouri; or twenty-five percent of the total business income if the taxpayer operates, in addition to the eligible facility, any other facilities in Missouri. In no case shall a taxpayer operating more than one eligible project in Missouri be allowed to offset more than twenty-five percent of the taxpayer's business income in any tax period. That portion of the taxpayer's income attributed to the eligible project as referenced in subdivision (1) of this subsection, for which the credits allowed in sections 135.110 and 135.225, RSMo, and subsection 3 of this section, may apply, shall be determined in the same manner as prescribed in subdivision (6) of section 135.100, RSMo. That portion of
-

the taxpayer's franchise tax attributed to the eligible project for which the remediation tax credit may offset, shall be determined in the same manner as prescribed in paragraph (a) of subdivision (6) of section 135.100, RSMo.

7. Taxpayers claiming the state tax benefits allowed in subdivisions (2) and (3) of subsection 1 of this section shall be required to file all applicable tax credit applications, forms and schedules prescribed by the director during the taxpayer's tax period immediately after the tax period in which the eligible project was first put into use. Otherwise, the taxpayer's right to claim such state tax benefits shall be forfeited. Unused business facility and enterprise zone tax credits shall not be carried forward but shall be initially claimed for the tax period during which the eligible project was first capable of being used, and during any applicable subsequent tax periods.

8. Taxpayers claiming the remediation tax credit allowed in subsection 3 of this section shall be required to file all applicable tax credit applications, forms and schedules prescribed by the director during the taxpayer's tax period immediately after the tax period in which the eligible project was first put into use, or during the taxpayer's tax period immediately after the tax period in which the voluntary remediation activities were performed.

9. The recipient of remediation tax credits, for the purpose of this subsection referred to as assignor, may assign, sell or transfer, in whole or in part, the remediation tax credit allowed in subsection 3 of this section, to any other person, for the purpose of this subsection referred to as assignee. To perfect the transfer, the assignor shall provide written notice to the director of the assignor's intent to transfer the tax credits to the assignee, the date the transfer is effective, the assignee's name, address and the assignee's tax period and the amount of tax credits to be transferred. The number of tax periods during which the assignee may subsequently claim the tax credits shall not exceed twenty tax periods, less the number of tax periods the assignor previously claimed the credits before the transfer occurred.

10. In the case where an operator and assignor of an eligible project has been certified to claim state tax benefits allowed in subdivisions (2) and (3) of subsection 1 of this section, and sells or otherwise transfers title of the eligible project to another taxpayer or assignee who continues the same or substantially similar operations at the eligible project, the director shall allow the assignee to claim the credits for a period of time to be determined by the director; except that, the total number of tax periods the tax credits may be earned by the assignor and the assignee shall not exceed ten. To perfect the transfer, the assignor shall provide written notice to the director of the assignor's intent to transfer the tax credits to the assignee, the date the transfer is effective, the assignee's name, address, and the assignee's tax period, and the amount of tax credits to be transferred.

11. For the purpose of the state tax benefits described in this section, in the case of a corporation described in section 143.471, RSMo, or partnership, in computing Missouri's tax liability, such state benefits shall be allowed to the following:

- (1) The shareholders of the corporation described in section 143.471, RSMo;
- (2) The partners of the partnership.

The credit provided in this subsection shall be apportioned to the entities described in subdivisions (1) and (2) of this subsection in proportion to their share of ownership on the last day of the taxpayer's tax period.

620.050. COUNCIL CREATED, MEMBERS, APPOINTMENT — REGISTRATION FEE — FUND ESTABLISHED, USE OF MONEYS — COUNCIL DUTIES — RULEMAKING AUTHORITY. — 1. There is hereby created, within the department of economic development, the "Entrepreneurial Development Council". The entrepreneurial development council shall consist of seven members from businesses located within the state and licensed attorneys with specialization in intellectual property matters. All members of the council shall be appointed by the governor with the advice and consent of the senate. The terms of

membership shall be set by the department of economic development by rule as deemed necessary and reasonable. Once the department of economic development has set the terms of membership, such terms shall not be modified and shall apply to all subsequent members.

2. The entrepreneurial development council shall, as provided by department rule, impose a registration fee sufficient to cover costs of the program for entrepreneurs of this state who desire to avail themselves of benefits, provided by the council, to registered entrepreneurs.

3. There is hereby established in the state treasury, the "Entrepreneurial Development and Intellectual Property Right Protection Fund" to be held separate and apart from all other public moneys and funds of the state. The entrepreneurial development and intellectual property right protection fund may accept state and federal appropriations, grants, bequests, gifts, fees and awards to be held for use by the entrepreneurial development council. Notwithstanding provisions of section 33.080, RSMo, to the contrary, moneys remaining in the fund at the end of any biennium shall not revert to general revenue.

4. Upon notification of an alleged infringement of intellectual property rights of a entrepreneur, the entrepreneurial development council shall evaluate such allegations of infringement and may, based upon need, award grants or financial assistance to subsidize legal expenses incurred in instituting legal action necessary to remedy the alleged infringement. Pursuant to rules promulgated by the department, the entrepreneurial development council may allocate moneys from entrepreneurial development and intellectual property right protection fund, in the form of low interest loans and grants, to registered entrepreneurs for the purpose of providing financial aid for product development, manufacturing, and advertising of new products.

5. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2008, shall be invalid and void.

620.1881. PROJECT NOTICE OF INTENT, DEPARTMENT TO RESPOND WITH A PROPOSAL OR A REJECTION — BENEFITS AVAILABLE — EFFECT ON WITHHOLDING TAX — PROJECTS ELIGIBLE FOR BENEFITS — ANNUAL REPORT — CAP ON TAX CREDITS — ALLOCATION OF TAX CREDITS. — 1. The department of economic development shall respond within thirty days to a company who provides a notice of intent with either an approval or a rejection of the notice of intent. The department shall give preference to qualified companies and projects targeted at an area of the state which has recently been classified as a disaster area by the federal government. Failure to respond on behalf of the department of economic development shall result in the notice of intent being deemed an approval for the purposes of this section. A

qualified company who is provided an approval for a project shall be allowed a benefit as provided in this program in the amount and duration provided in this section. A qualified company may receive additional periods for subsequent new jobs at the same facility after the full initial period if the minimum thresholds are met as set forth in sections 620.1875 to 620.1890. There is no limit on the number of periods a qualified company may participate in the program, as long as the minimum thresholds are achieved and the qualified company provides the department with the required reporting and is in proper compliance for this program or other state programs. A qualified company may elect to file a notice of intent to start a new project period concurrent with an existing project period if the minimum thresholds are achieved and the qualified company provides the department with the required reporting and is in proper compliance for this program and other state programs; however, the qualified company may not receive any further benefit under the original approval for jobs created after the date of the new notice of intent, and any jobs created before the new notice of intent may not be included as new jobs for the purpose of benefit calculation in relation to the new approval.

2. Notwithstanding any provision of law to the contrary, any qualified company that is awarded benefits under this program may not simultaneously receive tax credits or exemptions under sections 135.100 to 135.150, sections 135.200 to 135.286, section 135.535, or sections 135.900 to 135.906, RSMo, at the same project facility. The benefits available to the company under any other state programs for which the company is eligible and which utilize withholding tax from the new jobs of the company must first be credited to the other state program before the withholding retention level applicable under the Missouri quality jobs act will begin to accrue. These other state programs include, but are not limited to, the new jobs training program under sections 178.892 to 178.896, RSMo, the job retention program under sections 178.760 to 178.764, RSMo, the real property tax increment allocation redevelopment act, sections 99.800 to 99.865, RSMo, or the Missouri downtown and rural economic stimulus act under sections 99.915 to 99.980, RSMo. If any qualified company also participates in the new jobs training program in sections 178.892 to 178.896, RSMo, the company shall retain no withholding tax, but the department shall issue a refundable tax credit for the full amount of benefit allowed under this subdivision. The calendar year annual maximum amount of tax credits which may be issued to a qualifying company that also participates in the new job training program shall be increased by an amount equivalent to the withholding tax retained by that company under the new jobs training program. However, if the combined benefits of the quality jobs program and the new jobs training program exceed the projected state benefit of the project, as determined by the department of economic development through a cost-benefit analysis, the increase in the maximum tax credits shall be limited to the amount that would not cause the combined benefits to exceed the projected state benefit. Any taxpayer who is awarded benefits under this program who knowingly hires individuals who are not allowed to work legally in the United States shall immediately forfeit such benefits and shall repay the state an amount equal to any state tax credits already redeemed and any withholding taxes already retained.

3. The types of projects and the amount of benefits to be provided are:

(1) Small and expanding business projects: in exchange for the consideration provided by the new tax revenues and other economic stimuli that will be generated by the new jobs created by the program, a qualified company may retain an amount equal to the withholding tax as calculated under subdivision (32) of section 620.1878 from the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, for a period of three years from the date the required number of new jobs were created if the average wage of the new payroll equals or exceeds the county average wage or for a period of five years from the date the required number of new jobs were created if the average wage of the new payroll equals or exceeds one hundred twenty percent of the county average wage;

(2) Technology business projects: in exchange for the consideration provided by the new tax revenues and other economic stimuli that will be generated by the new jobs created by the

program, a qualified company may retain an amount equal to a maximum of five percent of new payroll for a period of five years from the date the required number of jobs were created from the withholding tax of the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, if the average wage of the new payroll equals or exceeds the county average wage. An additional one-half percent of new payroll may be added to the five percent maximum if the average wage of the new payroll in any year exceeds one hundred twenty percent of the county average wage in the county in which the project facility is located, plus an additional one-half percent of new payroll may be added if the average wage of the new payroll in any year exceeds one hundred forty percent of the average wage in the county in which the project facility is located. The department shall issue a refundable tax credit for any difference between the amount of benefit allowed under this subdivision and the amount of withholding tax retained by the company, in the event the withholding tax is not sufficient to provide the entire amount of benefit due to the qualified company under this subdivision. The calendar year annual maximum amount of tax credits that may be issued to any qualified company for a project or combination of projects is five hundred thousand dollars;

(3) High impact projects: in exchange for the consideration provided by the new tax revenues and other economic stimuli that will be generated by the new jobs created by the program, a qualified company may retain an amount from the withholding tax of the new jobs that would otherwise be withheld and remitted by the qualified company under the provisions of sections 143.191 to 143.265, RSMo, equal to three percent of new payroll for a period of five years from the date the required number of jobs were created if the average wage of the new payroll equals or exceeds the county average wage of the county in which the project facility is located. The percentage of payroll allowed under this subdivision shall be three and one-half percent of new payroll if the average wage of the new payroll in any year exceeds one hundred twenty percent of the county average wage in the county in which the project facility is located. The percentage of payroll allowed under this subdivision shall be four percent of new payroll if the average wage of the new payroll in any year exceeds one hundred forty percent of the county average wage in the county in which the project facility is located. An additional one percent of new payroll may be added to these percentages if local incentives equal between ten percent and twenty-four percent of the new direct local revenue; an additional two percent of new payroll is added to these percentages if the local incentives equal between twenty-five percent and forty-nine percent of the new direct local revenue; or an additional three percent of payroll is added to these percentages if the local incentives equal fifty percent or more of the new direct local revenue. The department shall issue a refundable tax credit for any difference between the amount of benefit allowed under this subdivision and the amount of withholding tax retained by the company, in the event the withholding tax is not sufficient to provide the entire amount of benefit due to the qualified company under this subdivision. The calendar year annual maximum amount of tax credits that may be issued to any qualified company for a project or combination of projects is seven hundred fifty thousand dollars. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a project or combination of projects may be increased up to one million dollars if the number of new jobs will exceed five hundred and if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development. In considering such a request, the task force shall rely on economic modeling and other information supplied by the department when requesting the increased limit on behalf of the project;

(4) Job retention projects: a qualified company may receive a tax credit for the retention of jobs in this state, provided the qualified company and the project meets all of the following conditions:

(a) For each of the twenty-four months preceding the year in which application for the program is made the qualified company must have maintained at least one thousand full-time employees at the employer's site in the state at which the jobs are based, and the average wage of such employees must meet or exceed the county average wage;

(b) The qualified company retained at the project facility the level of full-time employees that existed in the taxable year immediately preceding the year in which application for the program is made;

(c) The qualified company is considered to have a significant statewide effect on the economy, and has been determined to represent a substantial risk of relocation from the state by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development;

(d) The qualified company in the project facility will cause to be invested a minimum of seventy million dollars in new investment prior to the end of two years or will cause to be invested a minimum of thirty million dollars in new investment prior to the end of two years and maintain an annual payroll of at least seventy million dollars during each of the years for which a credit is claimed; and

(e) The local taxing entities shall provide local incentives of at least fifty percent of the new direct local revenues created by the project over a ten-year period.

The quality jobs advisory task force may recommend to the department of economic development that appropriate penalties be applied to the company for violating the agreement. The amount of the job retention credit granted may be equal to up to fifty percent of the amount of withholding tax generated by the full-time jobs at the project facility for a period of five years. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a job retention project or combination of job retention projects shall be seven hundred fifty thousand dollars per year, but the maximum amount may be increased up to one million dollars if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887; provided, however, until such time as the initial at-large members of the quality jobs advisory task force are appointed, this determination shall be made by the director of the department of economic development. In considering such a request, the task force shall rely on economic modeling and other information supplied by the department when requesting the increased limit on behalf of the job retention project. In no event shall the total amount of all tax credits issued for the entire job retention program under this subdivision exceed three million dollars annually. Notwithstanding the above, no tax credits shall be issued for job retention projects approved by the department after August 30, [2007] **2013**;

(5) Small business job retention and flood survivor relief: a qualified company may receive a tax credit under sections 620.1875 to 620.1890 for the retention of jobs and flood survivor relief in this state for each job retained over a three-year period, provided that:

(a) The qualified company did not receive any state or federal benefits, incentives, or tax relief or abatement in locating its facility in a flood plain;

(b) The qualified company and related companies have fewer than one hundred employees at the time application for the program is made;

(c) The average wage of the qualified company's and related companies' employees must meet or exceed the county average wage;

(d) All of the qualified company's and related companies' facilities are located in this state;

(e) The facilities at the primary business site in this state have been directly damaged by floodwater rising above the level of a five hundred year flood at least two years, but fewer than eight years, prior to the time application is made;

(f) The qualified company made significant efforts to protect the facilities prior to any impending danger from rising floodwaters;

(g) For each year it receives tax credits under sections 620.1875 to 620.1890, the qualified company and related companies retained, at the company's facilities in this state, at least the level of full-time, year-round employees that existed in the taxable year immediately preceding the year in which application for the program is made; and

(h) In the years it receives tax credits under sections 620.1875 to 620.1890, the company cumulatively invests at least two million dollars in capital improvements in facilities and equipment located at such facilities that are not located within a five hundred year flood plain as designated by the Federal Emergency Management Agency, and amended from time to time.

The amount of the small business job retention and flood survivor relief credit granted may be equal to up to one hundred percent of the amount of withholding tax generated by the full-time jobs at the project facility for a period of three years. The calendar year annual maximum amount of tax credit that may be issued to any qualified company for a small business job retention and survivor relief project shall be two hundred fifty thousand dollars per year, but the maximum amount may be increased up to five hundred thousand dollars if such action is proposed by the department and approved by the quality jobs advisory task force established in section 620.1887. In considering such a request, the task force shall rely on economic modeling and other information supplied by the department when requesting an increase in the limit on behalf of the small business job retention and flood survivor relief project. In no event shall the total amount of all tax credits issued for the entire small business job retention and flood survivor relief program under this subdivision exceed five hundred thousand dollars annually. Notwithstanding the provisions of this subdivision to the contrary, no tax credits shall be issued for small business job retention and flood survivor relief projects approved by the department after August 30, 2010.

4. The qualified company shall provide an annual report of the number of jobs and such other information as may be required by the department to document the basis for the benefits of this program. The department may withhold the approval of any benefits until it is satisfied that proper documentation has been provided, and shall reduce the benefits to reflect any reduction in full-time employees or new payroll. Upon approval by the department, the qualified company may begin the retention of the withholding taxes when it reaches the minimum number of new jobs and the average wage exceeds the county average wage. Tax credits, if any, may be issued upon satisfaction by the department that the qualified company has exceeded the county average wage and the minimum number of new jobs. In such annual report, if the average wage is below the county average wage, the qualified company has not maintained the employee insurance as required, or if the number of new jobs is below the minimum, the qualified company shall not receive tax credits or retain the withholding tax for the balance of the benefit period. In the case of a qualified company that initially filed a notice of intent and received an approval from the department for high impact benefits and the minimum number of new jobs in an annual report is below the minimum for high impact projects, the company shall not receive tax credits for the balance of the benefit period but may continue to retain the withholding taxes if it otherwise meets the requirements of a small and expanding business under this program.

5. The maximum calendar year annual tax credits issued for the entire program shall not exceed [forty] **sixty** million dollars. Notwithstanding any provision of law to the contrary, the maximum annual tax credits authorized under section 135.535, RSMo, are hereby reduced from ten million dollars to eight million dollars, with the balance of two million dollars transferred to this program. There shall be no limit on the amount of withholding taxes that may be retained by approved companies under this program.

6. The department shall allocate the annual tax credits based on the date of the approval, reserving such tax credits based on the department's best estimate of new jobs and new payroll of the project, and the other factors in the determination of benefits of this program. However, the annual issuance of tax credits is subject to the annual verification of the actual new payroll.

The allocation of tax credits for the period assigned to a project shall expire if, within two years from the date of commencement of operations, or approval if applicable, the minimum thresholds have not been achieved. The qualified company may retain authorized amounts from the withholding tax under this section once the minimum new jobs thresholds are met for the duration of the project period. No benefits shall be provided under this program until the qualified company meets the minimum new jobs thresholds. In the event the qualified company does not meet the minimum new job threshold, the qualified company may submit a new notice of intent or the department may provide a new approval for a new project of the qualified company at the project facility or other facilities.

7. For a qualified company with flow-through tax treatment to its members, partners, or shareholders, the tax credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the qualified company's tax period.

8. Tax credits may be claimed against taxes otherwise imposed by chapters 143 and 148, RSMo, and may not be carried forward but shall be claimed within one year of the close of the taxable year for which they were issued, except as provided under subdivision (4) of subsection 3 of this section.

9. Tax credits authorized by this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department.

10. Prior to the issuance of tax credits, the department shall verify through the department of revenue, or any other state department, that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits, except that at issuance credits shall be first applied to the delinquency and any amount issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance, or any other state department, concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

11. Except as provided under subdivision (4) of subsection 3 of this section, the director of revenue shall issue a refund to the qualified company to the extent that the amount of credits allowed in this section exceeds the amount of the qualified company's income tax.

12. An employee of a qualified company will receive full credit for the amount of tax withheld as provided in section 143.211, RSMo.

13. If any provision of sections 620.1875 to 620.1890 or application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or application of these sections which can be given effect without the invalid provisions or application, and to this end, the provisions of sections 620.1875 to 620.1890 are hereby declared severable.

[135.348. TAX CREDIT FOR SPONSORSHIP AND MENTORING PROGRAM. — 1. As used in this section, the following terms mean:

(2) "Eligible student", a resident pupil of a school district who is determined by the local school board to be eligible to participate in a sponsorship and mentoring program pursuant to this section and who participates in such program for no less than eight calendar months in the tax year for which a return is filed claiming a credit authorized in this section;

(3) "Net expenditures", only those amounts paid or incurred for the participation of an eligible student participating in an approved sponsorship and mentoring program less any amounts received by the qualified taxpayer from any source for the provision of a sponsorship and mentoring program for an eligible student;

(4) "Qualified taxpayer", an employer who makes expenditures pursuant to this section.

2. For taxable years commencing on or after January 1, 1998, a qualified taxpayer shall be allowed a credit against the tax imposed by chapter 143, RSMo, exclusive of the provisions relating to the withholding of tax as provided in sections 143.191 to 143.265, RSMo, to the extent of the lesser of two thousand dollars times the number of eligible students for which the qualified taxpayer is allowed a credit pursuant to this section or the net expenditures made directly or through a fund during a taxable year by the qualified taxpayer for the participation of an eligible student in an approved sponsorship and mentoring program established pursuant to this section. No credit shall be allowed for any amounts for which any other credit is claimed or allowed under any other provision of state law for the same net expenditures.

3. The tax credit allowed by this section shall be claimed by the qualified taxpayer at the time such taxpayer files a return and shall be applied against the income tax liability imposed by chapter 143, RSMo, after all other credits provided by law have been applied. Where the amount of the credit exceeds the tax liability, the difference between the credit and the tax liability shall not be refundable but may be carried forward to any of the taxpayer's four subsequent taxable years.

4. SECTION A. ENACTING CLAUSE. — Sections 160.545, 173.256, and 173.258, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 160.545, 173.256, and 173.258, to read as follows:

160.545. A+ SCHOOL PROGRAM ESTABLISHED — PURPOSE — RULES — VARIABLE FUND MATCH REQUIREMENT — WAIVER OF RULES AND REGULATIONS, REQUIREMENT — REIMBURSEMENT FOR HIGHER EDUCATION COSTS FOR STUDENTS — EVALUATION — REIMBURSEMENT FOR TWO-YEAR SCHOOLS. — 1. There is hereby established within the department of elementary and secondary education the "A+ Schools Program" to be administered by the commissioner of education. The program shall consist of grant awards made to public secondary schools that demonstrate a commitment to ensure that:

- (1) All students be graduated from school;
- (2) All students complete a selection of high school studies that is challenging and for which there are identified learning expectations; and
- (3) All students proceed from high school graduation to a college or postsecondary vocational or technical school or high-wage job with work place skill development opportunities.

2. The state board of education shall promulgate rules and regulations for the approval of grants made under the program to schools that:

- (1) Establish measurable districtwide performance standards for the goals of the program outlined in subsection 1 of this section; and
- (2) Specify the knowledge, skills and competencies, in measurable terms, that students must demonstrate to successfully complete any individual course offered by the school, and any course of studies which will qualify a student for graduation from the school; and
- (3) Do not offer a general track of courses that, upon completion, can lead to a high school diploma; and
- (4) Require rigorous coursework with standards of competency in basic academic subjects for students pursuing vocational and technical education as prescribed by rule and regulation of the state board of education; and

(5) Have a partnership plan developed in cooperation and with the advice of local business persons, labor leaders, parents, and representatives of college and postsecondary vocational and technical school representatives, with the plan then approved by the local board of education. The plan shall specify a mechanism to receive information on an annual basis from those who developed the plan in addition to senior citizens, community leaders, and teachers to update the plan in order to best meet the goals of the program as provided in subsection 1 of this section. Further, the plan shall detail the procedures used in the school to identify students that may drop out of school and the intervention services to be used to meet the needs of such students. The plan shall outline counseling and mentoring services provided to students who will enter the work force upon graduation from high school, address apprenticeship and intern programs, and shall contain procedures for the recruitment of volunteers from the community of the school to serve in schools receiving program grants.

3. **A school district may participate in the program irrespective of its accreditation classification by the state board of education, provided it meets all other requirements.**

4. By rule and regulation, the state board of education may determine a local school district variable fund match requirement in order for a school or schools in the district to receive a grant under the program. Further, no school in any district shall receive a grant under the program unless the district makes available facilities and services for adult literacy training as specified by rule of the state board of education.

For any school that meets the requirements for the approval of the grants authorized by this section and specified in subsection 2 of this section for three successive school years, by August first following the third such school year, the commissioner of education shall present a plan to the superintendent of the school district in which such school is located for the waiver of rules and regulations to promote flexibility in the operations of the school and to enhance and encourage efficiency in the delivery of instructional services in the school. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257 in the school. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092, RSMo, and such other rules and regulations as determined by the commissioner of education, except such waivers shall be confined to the school and not other schools in the school district unless such other schools meet the requirements of this subsection. However, any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the requirements for the approval of the grants authorized by this section as specified in subsection 2 of this section.

[5.] 6. For any school year, grants authorized by subsections 1 to 3 of this section shall be funded with the amount appropriated for this program, less those funds necessary to reimburse eligible students pursuant to subsection 6 of this section.

[6.] 7. The commissioner of education shall, by rule and regulation of the state board of education and with the advice of the coordinating board for higher education, establish a procedure for the reimbursement of the cost of tuition, books and fees to any public community college or **within the limits established in subsection 9 of this section any two-year public or private** vocational or technical school for any student:

(3) Who has earned a minimal grade average while in high school as determined by rule of the state board of education, and other requirements for the reimbursement authorized by this subsection as determined by rule and regulation of said board.

[7.] 8. The commissioner of education shall develop a procedure for evaluating the effectiveness of the program described in this section. Such evaluation shall be conducted annually with the results of the evaluation provided to the governor, speaker of the house, and president pro tempore of the senate.

9. **For a two-year public or private vocational or technical school to obtain reimbursements under subsection 7 of this section, except for those schools that are**

receiving reimbursements on August 28, 2008, the following requirements shall be satisfied:

The director of the department of public safety shall distribute at least fifty percent but not more than one hundred percent of the fund annually in the form of grants approved by MoSMART.

4. **Except for money deposited into the deputy sheriff salary supplementation fund created under section 57.278, RSMo**, all moneys appropriated to or received by MoSMART shall be deposited and credited to the MoSMART fund. The department of public safety shall only be reimbursed for actual and necessary expenses for the administration of MoSMART, which shall be no less than one percent and which shall not exceed two percent of all moneys appropriated to the fund, **except that the department shall not receive any amount of the money deposited into the deputy sheriff salary supplementation fund for administrative**

purposes. The provisions of section 33.080, RSMo, to the contrary notwithstanding, moneys in the MoSMART fund shall not lapse to general revenue at the end of the biennium.

5. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2003, shall be invalid and void.

6. Any county law enforcement entity or established task force with a memorandum of understanding and protocol may apply for grants from the MoSMART fund on an application to be developed by the department of public safety with the approval of MoSMART. All applications shall be evaluated by MoSMART and approved or denied based upon the level of funding designated for methamphetamine enforcement before 1997 and upon current need and circumstances. No applicant shall receive a MoSMART grant in excess of one hundred thousand dollars per year. The department of public safety shall monitor all MoSMART grants.

7. MoSMART's anti-methamphetamine funding priorities are as follows:

(1) Sheriffs who are participating in coordinated multijurisdictional task forces and have their task forces apply for funding;

(2) Sheriffs whose county has been designated HIDTA counties, yet have received no HIDTA or narcotics assistance program funding; and

(3) Sheriffs without HIDTA designations or task forces, whose application justifies the need for MoSMART funds to eliminate methamphetamine labs.

8. MoSMART shall administer the deputy sheriff salary supplementation fund as provided under section 57.278, RSMo.

AN ACT to repeal sections 135.950 and 135.967, RSMo, and to enact in lieu thereof three new sections relating to enhanced enterprise zones.

SECTION

- A. Enacting clause.
- 135.950. Definitions.
- 135.967. Tax credit allowed, duration — prohibition on receiving other tax credits — limitations on issuance of tax credits — cap — eligibility of certain expansions — employee calculations — computation of credit — flow-through tax treatments — credits may be claimed, when — certificates — refunds — verification procedures.
- 135.968. Megaprojects, tax credit authorized, eligibility — department duties — binding contract required, when — issuance of credits, procedure.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Sections 135.950 and 135.967, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 135.950, 135.967, and 135.968, to read as follows:

135.950. DEFINITIONS. — The following terms, whenever used in sections 135.950 to 135.970 mean:

(1) "Average wage", the new payroll divided by the number of new jobs;

[(1)] (2) "Blighted area", an area which, by reason of the predominance of defective or inadequate street layout, unsanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals, or welfare in its present condition and use;

[(2)] (3) "Board", an enhanced enterprise zone board established pursuant to section 135.957;

[(3)] (4) "Commencement of commercial operations" shall be deemed to occur during the first taxable year for which the new business facility is first put into use by the taxpayer in the enhanced business enterprise in which the taxpayer intends to use the new business facility;

(5) "County average wage", the average wages in each county as determined by the department for the most recently completed full calendar year. However, if the computed county average wage is above the statewide average wage, the statewide average wage shall be deemed the county average wage for such county for the purpose of determining eligibility. The department shall publish the county average wage for each county at least

annually. Notwithstanding the provisions of this subdivision to the contrary, for any taxpayer that in conjunction with their project is relocating employees from a Missouri county with a higher county average wage, such taxpayer shall obtain the endorsement of the governing body of the community from which jobs are being relocated or the county average wage for their project shall be the county average wage for the county from which the employees are being relocated;

[(5)] (7) "Director", the director of the department of economic development;

[(6)] (8) "Employee", a person employed by the enhanced business enterprise that is scheduled to work an average of at least one thousand hours per year, and such person at all times has health insurance offered to him or her, which is partially paid for by the employer;

[(7)] (9) "Enhanced business enterprise", an industry or one of a cluster of industries that is either:

(a) Identified by the department as critical to the state's economic security and growth; or

(b) Will have an impact on industry cluster development, as identified by the governing authority in its application for designation of an enhanced enterprise zone and approved by the department; but excluding gambling establishments (NAICS industry group 7132), retail trade (NAICS sectors 44 and 45), educational services (NAICS sector 61), religious organizations (NAICS industry group 8131), public administration (NAICS sector 92), and food and drinking places (NAICS subsector 722), however, notwithstanding provisions of this section to the contrary, headquarters or administrative offices of an otherwise excluded business may qualify for benefits if the offices serve a multistate territory. In the event a national, state, or regional headquarters operation is not the predominant activity of a project facility, the new jobs and investment of such headquarters operation is considered eligible for benefits under this section if the other requirements are satisfied. Service industries may be eligible only if a majority of its annual revenues will be derived from out of the state;

[(11)] (13) "Facility base payroll", the total amount of taxable wages paid by the enhanced business enterprise to employees of the enhanced business enterprise located at the facility in the twelve months prior to the notice of intent, not including the payroll of owners of the enhanced business enterprise unless the enhanced business enterprise is participating in an employee stock ownership plan. For the purposes of calculating the benefits under this program, the amount of base payroll shall increase each year based on the consumer price index or other comparable measure, as determined by the department;

[(12)] (14) "Governing authority", the body holding primary legislative authority over a county or incorporated municipality;

[(13)] (15) **"Mega-project", any manufacturing or assembling facility, approved by the department for construction and operation within an enhanced enterprise zone, which satisfies the following:**

(b) The number of new jobs is projected to exceed one thousand over a period of eight years beginning on the date of approval by the department;

(c) The average wage of new jobs to be created shall exceed the county average wage;

(d) The taxpayer shall offer health insurance to all new jobs and pay at least eighty percent of such insurance premiums; and

[(14)] (17) "New business facility", a facility that satisfies the following requirements:

(a) Such facility is employed by the taxpayer in the operation of an enhanced business enterprise. Such facility shall not be considered a new business facility in the hands of the taxpayer if the taxpayer's only activity with respect to such facility is to lease it to another person or persons. If the taxpayer employs only a portion of such facility in the operation of an enhanced business enterprise, and leases another portion of such facility to another person or persons or does not otherwise use such other portions in the operation of an enhanced business enterprise, the portion employed by the taxpayer in the operation of an enhanced business enterprise shall be considered a new business facility, if the requirements of paragraphs (b), (c), and (d) of this subdivision are satisfied;

(b) Such facility is acquired by, or leased to, the taxpayer after December 31, 2004. A facility shall be deemed to have been acquired by, or leased to, the taxpayer after December 31, 2004, if the transfer of title to the taxpayer, the transfer of possession pursuant to a binding contract to transfer title to the taxpayer, or the commencement of the term of the lease to the taxpayer occurs after December 31, 2004;

(c) If such facility was acquired by the taxpayer from another taxpayer and such facility was employed immediately prior to the acquisition by another taxpayer in the operation of an enhanced business enterprise, the operation of the same or a substantially similar enhanced business enterprise is not continued by the taxpayer at such facility; and

(d) Such facility is not a replacement business facility, as defined in subdivision [(22)] (25) of this section;

[(15)] (18) "New business facility employee", an employee of the taxpayer in the operation of a new business facility during the taxable year for which the credit allowed by section 135.967 is claimed, except that truck drivers and rail and barge vehicle operators and other operators of rolling stock for hire shall not constitute new business facility employees;

[(16)] (19) "New business facility investment", the value of real and depreciable tangible personal property, acquired by the taxpayer as part of the new business facility, which is used by the taxpayer in the operation of the new business facility, during the taxable year for which the credit allowed by 135.967 is claimed, except that trucks, truck-trailers, truck semitrailers, rail vehicles, barge vehicles, aircraft and other rolling stock for hire, track, switches, barges, bridges, tunnels, and rail yards and spurs shall not constitute new business facility investments. The total value of such property during such taxable year shall be:

(a) Its original cost if owned by the taxpayer; or

(b) Eight times the net annual rental rate, if leased by the taxpayer. The net annual rental rate shall be the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals. The new business facility investment shall be determined by dividing by twelve the sum of the total value of such property on the last business day of each calendar month of the taxable year. If the new business facility is in operation for less than an entire taxable year, the new business facility investment shall be determined by dividing the sum of the

total value of such property on the last business day of each full calendar month during the portion of such taxable year during which the new business facility was in operation by the number of full calendar months during such period;

[(17)] **(20)** "New job", the number of employees located at the facility that exceeds the facility base employment less any decrease in the number of the employees at related facilities below the related facility base employment. No job that was created prior to the date of the notice of intent shall be deemed a new job;

[(18)] **(21)** "Notice of intent", a form developed by the department which is completed by the enhanced business enterprise and submitted to the department which states the enhanced business enterprise's intent to hire new jobs and request benefits under such program;

[(19)] **(22)** "Related facility", a facility operated by the enhanced business enterprise or a related company in this state that is directly related to the operation of the project facility;

[(20)] **(23)** "Related facility base employment", the greater of:

(a) The number of employees located at all related facilities on the date of the notice of intent; or

(b) For the twelve-month period prior to the date of the notice of intent, the average number of employees located at all related facilities of the enhanced business enterprise or a related company located in this state;

[(21)] **(24)** "Related taxpayer":

(a) A corporation, partnership, trust, or association controlled by the taxpayer;

(b) An individual, corporation, partnership, trust, or association in control of the taxpayer;

or

(c) A corporation, partnership, trust or association controlled by an individual, corporation, partnership, trust or association in control of the taxpayer. "Control of a corporation" shall mean ownership, directly or indirectly, of stock possessing at least fifty percent of the total combined voting power of all classes of stock entitled to vote, "control of a partnership or association" shall mean ownership of at least fifty percent of the capital or profits interest in such partnership or association, and "control of a trust" shall mean ownership, directly or indirectly, of at least fifty percent of the beneficial interest in the principal or income of such trust; ownership shall be determined as provided in Section 318 of the Internal Revenue Code of 1986, as amended;

[(22)] **(25)** "Replacement business facility", a facility otherwise described in subdivision [(14)] **(17)** of this section, hereafter referred to in this subdivision as "new facility", which replaces another facility, hereafter referred to in this subdivision as "old facility", located within the state, which the taxpayer or a related taxpayer previously operated but discontinued operating on or before the close of the first taxable year for which the credit allowed by this section is claimed. A new facility shall be deemed to replace an old facility if the following conditions are met:

(a) The old facility was operated by the taxpayer or a related taxpayer during the taxpayer's or related taxpayer's taxable period immediately preceding the taxable year in which commencement of commercial operations occurs at the new facility; and

(b) The old facility was employed by the taxpayer or a related taxpayer in the operation of an enhanced business enterprise and the taxpayer continues the operation of the same or substantially similar enhanced business enterprise at the new facility.

Notwithstanding the preceding provisions of this subdivision, a facility shall not be considered a replacement business facility if the taxpayer's new business facility investment, as computed in subdivision [(16)] **(19)** of this section, in the new facility during the tax period for which the credits allowed in section 135.967 are claimed exceed one million dollars and if the total number of employees at the new facility exceeds the total number of employees at the old facility by at least two;

[(23)] **(26)** "Same or substantially similar enhanced business enterprise", an enhanced business enterprise in which the nature of the products produced or sold, or activities conducted,

are similar in character and use or are produced, sold, performed, or conducted in the same or similar manner as in another enhanced business enterprise.

135.967. TAX CREDIT ALLOWED, DURATION — PROHIBITION ON RECEIVING OTHER TAX CREDITS — LIMITATIONS ON ISSUANCE OF TAX CREDITS — CAP — ELIGIBILITY OF CERTAIN EXPANSIONS — EMPLOYEE CALCULATIONS — COMPUTATION OF CREDIT — FLOW-THROUGH TAX TREATMENTS — CREDITS MAY BE CLAIMED, WHEN — CERTIFICATES — REFUNDS — VERIFICATION PROCEDURES. — 1. A taxpayer who establishes a new business facility may, upon approval by the department, be allowed a credit, each tax year for up to ten tax years, in an amount determined as set forth in this section, against the tax imposed by chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo. No taxpayer shall receive multiple ten-year periods for subsequent expansions at the same facility.

2. Notwithstanding any provision of law to the contrary, any taxpayer who establishes a new business facility in an enhanced enterprise zone and is awarded state tax credits under this section may not also receive tax credits under sections 135.100 to 135.150, sections 135.200 to [135.268] **135.286**, or section 135.535, **and may not simultaneously receive tax credits under sections 620.1875 to 620.1890, RSMo, at the same facility.**

3. No credit shall be issued pursuant to this section unless:

(1) The number of new business facility employees engaged or maintained in employment at the new business facility for the taxable year for which the credit is claimed equals or exceeds two; and

(2) The new business facility investment for the taxable year for which the credit is claimed equals or exceeds one hundred thousand dollars.

4. The annual amount of credits allowed for an approved enhanced business enterprise shall be the lesser of:

(1) The annual amount authorized by the department for the enhanced business enterprise, which shall be limited to the projected state economic benefit, as determined by the department; or

(2) The sum calculated based upon the following:

(a) A credit of four hundred dollars for each new business facility employee employed within an enhanced enterprise zone;

(b) An additional credit of four hundred dollars for each new business facility employee who is a resident of an enhanced enterprise zone;

(c) An additional credit of four hundred dollars for each new business facility employee who is paid by the enhanced business enterprise a wage that exceeds the average wage paid within the county in which the facility is located, as determined by the department; and

(d) A credit equal to two percent of new business facility investment within an enhanced enterprise zone.

5. Prior to January 1, 2007, in no event shall the department authorize more than four million dollars annually to be issued for all enhanced business enterprises. After December 31, 2006, in no event shall the department authorize more than fourteen million dollars annually to be issued for all enhanced business enterprises.

6. If a facility, which does not constitute a new business facility, is expanded by the taxpayer, the expansion shall be considered eligible for the credit allowed by this section if:

(1) The taxpayer's new business facility investment in the expansion during the tax period in which the credits allowed in this section are claimed exceeds one hundred thousand dollars and if the number of new business facility employees engaged or maintained in employment at the expansion facility for the taxable year for which credit is claimed equals or exceeds two, and the total number of employees at the facility after the expansion is at least two greater than the total number of employees before the expansion; and

(2) The taxpayer's investment in the expansion and in the original facility prior to expansion shall be determined in the manner provided in subdivision [(14)] **(19)** of section 135.950.

7. The number of new business facility employees during any taxable year shall be determined by dividing by twelve the sum of the number of individuals employed on the last business day of each month of such taxable year. If the new business facility is in operation for less than the entire taxable year, the number of new business facility employees shall be determined by dividing the sum of the number of individuals employed on the last business day of each full calendar month during the portion of such taxable year during which the new business facility was in operation by the number of full calendar months during such period. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility under subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision [(14)] (17) of section 135.950, or subdivision [(22)] (25) of section 135.950, the number of new business facility employees at such facility shall be reduced by the average number of individuals employed, computed as provided in this subsection, at the facility during the taxable year immediately preceding the taxable year in which such expansion, acquisition, or replacement occurred and shall further be reduced by the number of individuals employed by the taxpayer or related taxpayer that was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

8. In the case where a new business facility employee who is a resident of an enhanced enterprise zone for less than a twelve-month period is employed for less than a twelve-month period, the credits allowed by paragraph (b) of subdivision (2) of subsection 4 of this section shall be determined by multiplying four hundred dollars by a fraction, the numerator of which is the number of calendar days during the taxpayer's tax year for which such credits are claimed, in which the employee was a resident of an enhanced enterprise zone, and the denominator of which is three hundred sixty-five.

9. For the purpose of computing the credit allowed by this section in the case of a facility which qualifies as a new business facility pursuant to subsection 6 of this section, and in the case of a new business facility which satisfies the requirements of paragraph (c) of subdivision [(14)] (17) of section 135.950 or subdivision [(22)] (25) of section 135.950, the amount of the taxpayer's new business facility investment in such facility shall be reduced by the average amount, computed as provided in subdivision [(14)] (19) of section 135.950 for new business facility investment, of the investment of the taxpayer, or related taxpayer immediately preceding such expansion or replacement or at the time of acquisition. Furthermore, the amount of the taxpayer's new business facility investment shall also be reduced by the amount of investment employed by the taxpayer or related taxpayer which was subsequently transferred to the new business facility from another Missouri facility and for which credits authorized in this section are not being earned, whether such credits are earned because of an expansion, acquisition, relocation, or the establishment of a new facility.

10. For a taxpayer with flow-through tax treatment to its members, partners, or shareholders, the credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the taxpayer's tax period.

11. Credits may not be carried forward but shall be claimed for the taxable year during which commencement of commercial operations occurs at such new business facility, and for each of the nine succeeding taxable years for which the credit is issued.

12. Certificates of tax credit authorized by this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department. The sale price cannot be less than seventy-five percent of the par value of such credits.

13. The director of revenue shall issue a refund to the taxpayer to the extent that the amount of credits allowed in this section exceeds the amount of the taxpayer's income tax.

14. Prior to the issuance of tax credits, the department shall verify through the department of revenue, or any other state department, that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of insurance that the applicant does not owe any delinquent insurance taxes. Such delinquency shall not affect the authorization of the application for such tax credits, except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of insurance, or any other state department, concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

135.968. MEGAPROJECTS, TAX CREDIT AUTHORIZED, ELIGIBILITY — DEPARTMENT DUTIES — BINDING CONTRACT REQUIRED, WHEN — ISSUANCE OF CREDITS, PROCEDURE. —

1. A taxpayer who establishes a mega-project, approved by the department, within an enhanced enterprise zone shall, in exchange for the consideration provided by new tax revenues and other economic stimuli that will be generated from the new jobs created by the mega-project, be allowed an income tax credit equal to the percentage of actual new annual payroll of the taxpayer attributable to employees directly related to the manufacturing and assembly process and administration, as provided under subsection 4 of this section. A taxpayer seeking approval of a mega-project shall submit an application to the department. The department shall not approve any mega-project after December 31, 2008. The department shall not approve any credits for mega-projects to be issued prior to January 1, 2013, and in no event shall the department authorize more than forty million dollars to be issued annually for all mega-projects. The total amount of credits issued under this section shall not exceed two hundred forty million dollars.

2. In considering applications for approval of mega-projects, the department may approve an application if:

(1) The taxpayer's project is financially sound and the taxpayer has adequately demonstrated an ability to successfully undertake and complete the mega-project. This determination shall be supported by a professional third party market feasibility analysis conducted on behalf of the state by a firm with direct experience with the industry of the proposed mega-project, and by a professional third party financial analysis of the taxpayer's ability to complete the project;

(2) The taxpayer's plan of repayment to the state of the amount of tax credits provided is reasonable and sound;

(3) The taxpayer's mega-project will create new jobs that were not jobs previously performed by employees of the taxpayer or a related taxpayer in Missouri;

(4) Local taxing entities are providing a significant level of incentives for the mega-project relative to the projected new local tax revenues created by the mega-project;

(5) There is at least one other state or foreign country that the taxpayer verifies is being considered for the project, and receiving mega-project tax credits is a major factor in the taxpayer's decision to go forward with the project and not receiving the credit will result in the taxpayer not creating new jobs in Missouri;

(6) The mega-project will be located in an enhanced enterprise zone which constitutes an economic or social liability and a detriment to the public health, safety, morals, or welfare in its present condition and use;

(7) The completion of the mega-project will serve an essential public municipal purpose by creating a substantial number of new jobs for citizens, increasing their purchasing power, improving their living conditions, and relieving the demand for unemployment and welfare assistance thereby promoting the economic development of the enhanced enterprise zone, the municipality, and the state; and

(8) The creation of new jobs will assist the state in providing the services needed to protect the health, safety, and social and economic well-being of the citizens of the state.

3. Prior to final approval of an application, a binding contract shall be executed between the taxpayer and the department of economic development which shall include, but not be limited to:

(1) A repayment plan providing for cash payment to the state general revenue fund which shall result in a positive internal rate of return to the state and fully comply with the provisions of the World Trade Organization Agreement on Subsidies and Countervailing Measures. The rate of return shall be commercially reasonable and, over the life of the project, exceed one hundred and fifty percent of the state's borrowing costs based on the AAA-rated twenty-year tax exempt bond rate average over a twenty-year borrowing period. The rate shall be verified by a professional third-party financial analysis;

(2) The taxpayer's obligation to construct a facility of at least one million square feet within five years from the date of approval;

(3) A requirement that the issuance of tax credits authorized under this section shall cease and the taxpayer shall immediately submit payment, to the state general revenue fund, in an amount equal to all credits previously issued less any amounts previously repaid, increased by an additional amount that shall provide the state a reasonable rate of return, in the event the taxpayer:

(a) Fails to construct a facility of at least one million square feet within five years of the date of approval;

(b) Fails to make a scheduled payment as required by the repayment plan; or

(c) Fails to compensate new jobs at rate equal to or in excess of the county average wage or fails to offer health insurance to all such new jobs and pay at least eighty percent of such premiums; and

(4) A requirement that the department shall suspend issuance of tax credits authorized under this section if, at any point, the total amount of tax credits issued less the total amount of repayments received equals one hundred and fifty-five million dollars.

4. Upon approval of an application by the department, tax credits shall be issued annually for a period not to exceed eight years from the commencement of commercial operations of the mega-project. The eight-year period for the issuance of mega-project tax credits may extend beyond the expiration of the enhanced enterprise zone. The maximum percentage of the annual payroll of the taxpayer for new jobs located at the mega-project which may be approved or issued by the department for tax credits shall not exceed:

(1) Eighty percent for the first three years that tax credits will be issued for the mega-project;

(2) Sixty percent for the next two subsequent years;

(3) Fifty percent for the next two subsequent years; and

(4) Thirty percent for the remaining year.

In no event shall the department issue more than forty million dollars annually in mega-project tax credits to any taxpayer. In any given year, the amount of tax credits issued shall be the lesser of forty million dollars, the applicable annual payroll percentage, or the amount of tax credits remaining unissued under the two hundred and forty million dollar limitation on mega-project tax credit issuance provided under subsection 1 of this section.

5. Tax credits issued under this section may be claimed against the tax imposed by chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo. For taxpayers with flow-through tax treatment of its members, partners, or shareholders, the credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the taxpayer's tax period. The director of revenue shall issue a refund to a taxpayer to the extent the amount of credits allowed in this section exceeds the amount of the taxpayer's income tax liability in the year redemption is authorized. An owner of tax credits issued under this section shall not be required to have any Missouri income tax liability in order to redeem such tax credits and receive a refund. The director of revenue shall prepare a form to permit the owner of such tax credits to obtain a refund.

6. Certificates of tax credits authorized under this section may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department. Upon such transfer, sale, or assignment, the transferee shall be the owner of such tax credits entitled to claim the tax credits or any refunds with respect thereto issued to the taxpayer. Tax credits may not be carried forward past the year of issuance. Tax credits authorized by this section may not be pledged or used to secure any bonds or other indebtedness issued by the state or any political subdivision of the state. Once such tax credits have been issued, nothing shall prohibit the owner of the tax credits from pledging the tax credits to any lender or other third-party.

7. Any taxpayer issued tax credits under this section shall provide an annual report to the department and the house and senate appropriations committees of the number of new jobs located at the mega-project, the new annual payroll of such new jobs, and such other information as may be required by the department to document the basis for benefits under this section. The department may withhold the approval of the annual issuance of any tax credits until it is satisfied that proper documentation has been provided, and shall reduce the tax credits to reflect any reduction in new payroll. If the department determines the average wage is below the county average wage, or the taxpayer has not maintained employee health insurance as required, the taxpayer shall not receive tax credits for that year.

8. Notwithstanding any provision of law to the contrary, any taxpayer who is awarded tax credits under this section shall not also receive tax credits under sections 135.100 to 135.150, sections 135.200 to 135.286, section 135.535, or sections 620.1875 to 620.1890, RSMo.

9. Any action brought in any court contesting the approval of a mega-project and the issuance of the tax credits, or any other action undertaken pursuant to this section related to such mega-project, shall be filed within ninety days following approval of the mega-project by the department.

10. Records and documents relating to a proposed mega-project shall be deemed closed records until such time as the application has been approved. Provisions of this subsection to the contrary notwithstanding, records containing business plan information which may endanger the competitiveness of the business shall remain closed.

11. Notwithstanding any provision of this section to the contrary, no taxpayer who receives mega-project tax credits authorized under this section or any related taxpayer shall employ, prior to January 1, 2022, directly:

(1) Any elected public official of this state holding office as of January 1, 2008;

(2) Any director, deputy director, division director, or employee directly involved in negotiations between the department of economic development and a taxpayer relative to the mega-project who was employed as of January 1, 2008, by the department.

52.240. TAX STATEMENTS AND RECEIPTS, MAILED WHERE — POSTAGE, HOW PAID — FAILURE TO RECEIVE, EFFECT OF — CLAIM OF ERRORS BY TAXPAYER, PROCEDURE. — 1. The statement and receipt required by section 52.230 shall be mailed to the address of the taxpayer as shown by the county assessor on the current tax books, and postage for the mailing of the statements and receipts shall be furnished by the county commission. The failure of the taxpayer to receive the notice provided for in section 52.230 in no case relieves the taxpayer of any tax liability imposed [on him] by law. **No penalty or interest imposed under any law shall be charged on any real or personal property tax when there is clear and convincing evidence that the county made an error or omission in determining taxes owed by a taxpayer.**

2. Any taxpayer claiming that the county made an error or omission in determining taxes owed may submit a written request for a refund of penalties, interest, or taxes to the county commission or governing body of the county. If the county commission or governing body of the county approves the refund, then such penalties, interest, or taxes shall be refunded as provided in subsection 5 of section 139.031, RSMo. The county commission shall approve or disapprove the taxpayer's written request within thirty days of receiving said request. The county collector shall refund penalties, interest, and taxes if the county made an error or omission in determining taxes owed by the taxpayer.

3. Nothing in this section shall relieve a taxpayer from paying taxes owed by December 31st and paying penalties and interest owed for failing to pay all taxes by December 31st.

67.110. FIXING AD VALOREM PROPERTY TAX RATES, PROCEDURE — FAILURE TO ESTABLISH, EFFECT — NEW OR INCREASED TAXES APPROVED AFTER SEPTEMBER 1 NOT TO BE INCLUDED IN THAT YEAR'S TAX LEVY, EXCEPTION. — 1. Each political subdivision in the state, except counties **and any political subdivision located at least partially within any county with a charter form of government or any political subdivision located at least partially within any city not within a county**, shall fix its ad valorem property tax rates as provided in this section not later than September first for entry in the tax books. **Each political subdivision located, at least partially, within a county with a charter form of government or within a city not within a county shall fix its ad valorem property tax rates as provided in this section not later than October first for entry in the tax books for each calendar year after December 31, 2008.** Before the governing body of each political subdivision of the state, except counties, as defined in section 70.120, RSMo, fixes its rate of taxation, its budget officer shall present to its governing body the following information for each tax rate to be levied: the assessed valuation by category of real, personal and other tangible property in the political subdivision as entered in the tax book for the fiscal year for which the tax is to be levied, as provided by subsection 3 of section 137.245, RSMo, the assessed valuation by category of real, personal and other tangible property in the political subdivisions for the preceding taxable year, the amount of revenue required to be provided from the property tax as set forth in the annual budget adopted as provided by this chapter, and the tax rate proposed to be set. Should any political subdivision whose taxes are collected by the county collector of revenue fail to fix its ad valorem property tax rate by September first, then no tax rate other than the rate, if any, necessary to pay the interest and principal on any outstanding bonds shall be certified for that year.

2. The governing body shall hold at least one public hearing on the proposed rates of taxes at which citizens [may] **shall** be heard prior to their approval. The governing body shall determine the time and place for such hearing. A notice stating the hour, date and place of the hearing shall be published in at least one newspaper qualified under the laws of the state of Missouri of general circulation in the county within which all or the largest portion of the political subdivision is situated, or such notice shall be posted in at least three public places within the political subdivision; except that, in any county of the first class having a charter form of government, such notice may be published in a newspaper of general circulation within the political subdivision even though such newspaper is not qualified under the laws of Missouri for other legal notices. Such notice shall be published or posted at least seven days prior to the date of the hearing. The notice shall include the assessed valuation by category of real, personal and other tangible property in the political subdivision for the fiscal year for which the tax is to be levied as provided by subsection 3 of section 137.245, RSMo, the assessed valuation by category of real, personal and other tangible property in the political subdivision for the preceding taxable year, for each rate to be levied the amount of revenue required to be provided from the property tax as set forth in the annual budget adopted as provided by this chapter, and the tax rates proposed to be set for the various purposes of taxation. The tax rates shall be calculated to produce substantially the same revenues as required in the annual budget adopted as provided in this chapter. Following the hearing the governing body of each political subdivision shall fix the rates of taxes, the same to be entered in the tax book. Failure of any taxpayer to appear at such hearing shall not prevent the taxpayer from pursuit of any other legal remedy otherwise available to the taxpayer. Nothing in this section absolves political subdivisions of responsibilities under section 137.073, RSMo, nor to adjust tax rates in event changes in assessed valuation occur that would alter the tax rate calculations.

3. Each political subdivision of the state shall fix its property tax rates in the manner provided in this section for each fiscal year which begins after December 31, 1976. New or increased tax rates for political subdivisions whose taxes are collected by the county collector approved by voters after September first of any year shall not be included in that year's tax levy except for any new tax rate ceiling approved pursuant to section 71.800, RSMo.

4. In addition to the information required under subsections 1 and 2 of this section, each political subdivision shall also include the increase in tax revenue due to an increase in assessed value as a result of new construction and improvement and the increase, both in dollar value and percentage, in tax revenue as a result of reassessment if the proposed tax rate is adopted.

135.010. DEFINITIONS. — As used in sections 135.010 to 135.030 the following words and terms mean:

(1) "Claimant", a person or persons claiming a credit under sections 135.010 to 135.030. If the persons are eligible to file a joint federal income tax return and reside at the same address at any time during the taxable year, then the credit may only be allowed if claimed on a combined Missouri income tax return or a combined claim return reporting their combined incomes and property taxes. A claimant shall not be allowed a property tax credit unless the claimant or spouse has attained the age of sixty-five on or before the last day of the calendar year and the claimant or spouse was a resident of Missouri for the entire year, or the claimant or spouse is a veteran of any branch of the armed forces of the United States or this state who became one hundred percent disabled as a result of such service, or the claimant or spouse is disabled as defined in subdivision (2) of this section, and such claimant or spouse provides proof of such disability in such form and manner, and at such times, as the director of revenue may require, or if the claimant has reached the age of sixty on or before the last day of the calendar year and such claimant received surviving spouse Social Security benefits during the calendar year and the claimant provides proof, as required by the director of revenue, that the claimant received surviving spouse Social Security benefits during the calendar year for which the credit will be claimed. A claimant shall not be allowed a property tax credit if the claimant filed a valid claim for a credit under section 137.106, RSMo, in the year following the year for which the property tax credit is claimed. The residency requirement shall be deemed to have been fulfilled for the purpose of determining the eligibility of a surviving spouse for a property tax credit if a person of the age of sixty-five years or older who would have otherwise met the requirements for a property tax credit dies before the last day of the calendar year. The residency requirement shall also be deemed to have been fulfilled for the purpose of determining the eligibility of a claimant who would have otherwise met the requirements for a property tax credit but who dies before the last day of the calendar year;

(2) "Disabled", the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve months. A claimant shall not be required to be gainfully employed prior to such disability to qualify for a property tax credit;

(3) "Gross rent", amount paid by a claimant to a landlord for the rental, at arm's length, of a homestead during the calendar year, exclusive of charges for health and personal care services and food furnished as part of the rental agreement, whether or not expressly set out in the rental agreement. If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then he shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord

or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) "Homestead", the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. "Owned" includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) "Income", Missouri adjusted gross income as defined in section 143.121, RSMo, less two thousand dollars, **or in the case of a homestead owned and occupied, for the entire year, by the claimant, less four thousand dollars** as an exemption for the claimant's spouse residing at the same address, and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) "Property taxes accrued", property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or other proof of property tax payment. If a homestead is owned only partially by claimant, then "property taxes accrued" is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are "levied" when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, "property taxes accrued" means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building, property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision "unit" refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) "Rent constituting property taxes accrued", twenty percent of the gross rent paid by a claimant and spouse in the calendar year.

135.025. ACCRUED TAXES AND RENT CONSTITUTING TAXES TO BE TOTALED — MAXIMUM AMOUNT ALLOWABLE — ALLOCATION REGULATIONS, WHEN. — The property taxes accrued and rent constituting property taxes accrued on each return shall be totaled. This total, up to seven hundred fifty dollars **in rent constituting property taxes actually paid or eleven hundred dollars in actual property tax paid**, shall be used in determining the property tax credit. The director of revenue shall prescribe regulations providing for allocations where

part of a claimant's homestead is rented to another or used for nondwelling purposes or where a homestead is owned or rented or used as a dwelling for part of a year.

135.030. FORMULA FOR DETERMINING CREDITS — TABLE TO BE PREPARED BY DIRECTOR OF REVENUE — TAXPAYER NOT APPLYING FOR CREDIT TO BE NOTIFIED OF ELIGIBILITY.— 1. As used in this section:

(1) The term "maximum upper limit" shall, for each calendar year after December 31, 1997, but before calendar year 2008, be the sum of twenty-five thousand dollars. For [the] **all** calendar [year] **years** beginning on **or after** January 1, 2008, the maximum upper limit shall be the sum of twenty-seven thousand five hundred dollars. **In the case of a homestead owned and occupied for the entire year by the claimant, the maximum upper limit shall be the sum of thirty thousand dollars;**

(2) The term "minimum base" shall, for each calendar year after December 31, 1997, but before calendar year 2008, be the sum of thirteen thousand dollars. For [the] **all** calendar [year] **years** beginning **on or after** January 1, 2008, the minimum base shall be the sum of fourteen thousand three hundred dollars.

2. If the income on a return is equal to or less than the maximum upper limit for the calendar year for which the return is filed, the property tax credit shall be determined from a table of credits based upon the amount by which the total property tax described in section 135.025 exceeds the percent of income in the following list:

If the income on the return is:	The percent is:
Not over the minimum base	0 percent with credit not to exceed \$1,100 in actual property tax or rent equivalent paid up to \$750
Over the minimum base but not over the maximum upper limit	1/16 percent accumulative per \$300 from 0 percent to 4 percent.

The director of revenue shall prescribe a table based upon the preceding sentences. The property tax shall be in increments of twenty-five dollars and the income in increments of three hundred dollars. The credit shall be the amount rounded to the nearest whole dollar computed on the basis of the property tax and income at the midpoints of each increment. As used in this subsection, the term "accumulative" means an increase by continuous or repeated application of the percent to the income increment at each three hundred dollar level.

3. Notwithstanding subsection 4 of section 32.057, RSMo, the department of revenue or any duly authorized employee or agent shall determine whether any taxpayer filing a report or return with the department of revenue who has not applied for the credit allowed pursuant to section 135.020 may qualify for the credit, and shall notify any qualified claimant of the claimant's potential eligibility, where the department determines such potential eligibility exists.

137.016. REAL PROPERTY, SUBCLASSES OF, DEFINED — POLITICAL SUBDIVISION MAY ADJUST OPERATING LEVY TO RECOUP REVENUE, WHEN — RECLASSIFICATION TO APPLY, WHEN — PLACEMENT OF CERTAIN PROPERTY WITHIN PROPER SUBCLASS, FACTORS CONSIDERED.— 1. As used in section 4(b) of article X of the Missouri Constitution, the following terms mean:

(1) "Residential property", all real property improved by a structure which is used or intended to be used for residential living by human occupants, vacant land in connection with an airport, land used as a golf course, and manufactured home parks, but residential property shall not include other similar facilities used primarily for transient housing. For the purposes of this section, "transient housing" means all rooms available for rent or lease for which the receipts from the rent or lease of such rooms are subject to state sales tax pursuant to section 144.020.1(6), RSMo;

(2) "Agricultural and horticultural property", all real property used for agricultural purposes and devoted primarily to the raising and harvesting of crops; to the feeding, breeding and management of livestock which shall include breeding, **showing**, and boarding of horses; to dairying, or to any other combination thereof; and buildings and structures customarily associated with farming, agricultural, and horticultural uses. Agricultural and horticultural property shall also include land devoted to and qualifying for payments or other compensation under a soil conservation or agricultural assistance program under an agreement with an agency of the federal government. Agricultural and horticultural property shall further include land and improvements, exclusive of structures, on privately owned airports that qualify as reliever airports under the Nation Plan of Integrated Airports System, to receive federal airport improvement project funds through the Federal Aviation Administration. Real property classified as forest croplands shall not be agricultural or horticultural property so long as it is classified as forest croplands and shall be taxed in accordance with the laws enacted to implement section 7 of article X of the Missouri Constitution;

(3) "Utility, industrial, commercial, railroad and other real property", all real property used directly or indirectly, for any commercial, mining, industrial, manufacturing, trade, professional, business, or similar purpose, including all property centrally assessed by the state tax commission but shall not include floating docks, portions of which are separately owned and the remainder of which is designated for common ownership and in which no one person or business entity owns more than five individual units. All other real property not included in the property listed in subclasses (1) and (2) of section 4(b) of article X of the Missouri Constitution, as such property is defined in this section, shall be deemed to be included in the term "utility, industrial, commercial, railroad and other real property".

2. Pursuant to article X of the state constitution, any taxing district may adjust its operating levy to recoup any loss of property tax revenue, except revenues from the surtax imposed pursuant to article X, section 6.2 of the constitution, as the result of changing the classification of structures intended to be used for residential living by human occupants which contain five or more dwelling units if such adjustment of the levy does not exceed the highest tax rate in effect subsequent to the 1980 tax year. For purposes of this section, loss in revenue shall include the difference between the revenue that would have been collected on such property under its classification prior to enactment of this section and the amount to be collected under its classification under this section. The county assessor of each county or city not within a county shall provide information to each taxing district within its boundaries regarding the difference in assessed valuation of such property as the result of such change in classification.

3. All reclassification of property as the result of changing the classification of structures intended to be used for residential living by human occupants which contain five or more dwelling units shall apply to assessments made after December 31, 1994.

4. Where real property is used or held for use for more than one purpose and such uses result in different classifications, the county assessor shall allocate to each classification the percentage of the true value in money of the property devoted to each use; except that, where agricultural and horticultural property, as defined in this section, also contains a dwelling unit or units, the farm dwelling, appurtenant residential-related structures and up to five acres immediately surrounding such farm dwelling shall be residential property, as defined in this section.

5. All real property which is vacant, unused, or held for future use; which is used for a private club, a not-for-profit or other nonexempt lodge, club, business, trade, service organization, or similar entity; or for which a determination as to its classification cannot be made under the definitions set out in subsection 1 of this section, shall be classified according to its immediate most suitable economic use, which use shall be determined after consideration of:

- (1) Immediate prior use, if any, of such property;
- (2) Location of such property;

(3) Zoning classification of such property; except that, such zoning classification shall not be considered conclusive if, upon consideration of all factors, it is determined that such zoning classification does not reflect the immediate most suitable economic use of the property;

(4) Other legal restrictions on the use of such property;

(5) Availability of water, electricity, gas, sewers, street lighting, and other public services for such property;

(6) Size of such property;

(7) Access of such property to public thoroughfares; and

(8) Any other factors relevant to a determination of the immediate most suitable economic use of such property.

6. All lands classified as forest croplands shall not, for taxation purposes, be classified as subclass (1), subclass (2), or subclass (3) real property, as such classes are prescribed in section 4(b) of article X of the Missouri Constitution and defined in this section, but shall be taxed in accordance with the laws enacted to implement section 7 of article X of the Missouri Constitution.

137.055. COUNTY COMMISSION TO FIX RATE OF TAX, WHEN, EXCEPTIONS — PUBLIC HEARING TO BE HELD, WHEN, NOTICE, EFFECT. — 1. After the assessor's book of each county, except in [the] **any city [of St. Louis] not within a county or any county with a charter form of government**, shall be corrected and adjusted according to law, but not later than September twentieth, of each year, the county governing body shall ascertain the sum necessary to be raised for county purposes, and fix the rate of taxes on the several subjects of taxation so as to raise the required sum, and the same to be entered in the proper columns in the tax book. **Any city not within a county and any county with a charter form of government shall set the tax rate by October first of each year for each calendar year after December 31, 2008.**

2. Prior to fixing the rate of taxes, as provided in this section, the county governing body shall hold a public hearing on the proposed rate of taxes **at which citizens shall be heard**. A notice stating the time and place for the hearing shall be published in at least one newspaper qualified under the laws of Missouri of general circulation in the county at least seven days prior to the date of the hearing. The notice shall include the aggregate assessed valuation by category of real, total personal and other tangible property in the county as entered in the tax book for the fiscal year for which the tax is to be levied, the aggregate assessed valuation by category of real, total personal and other tangible property in the county for the preceding taxable year, the required sums to be raised from the property tax for each purpose for which the county levies taxes as approved in the budget adopted under chapter 50, RSMo, the proposed rate of taxes which will produce substantially the same revenues as required by the budget, and the increase in tax revenue realized due to an increase in assessed value as a result of new construction and improvement, and the increase, both in dollar value and percentage, in tax revenue as a result of reassessment if the proposed tax rate is adopted. Failure of any taxpayer to appear at said hearing shall not prevent the taxpayer from pursuit of any other legal remedy otherwise available to the taxpayer. Nothing in this subsection absolves county governing bodies of responsibilities under section 137.073 nor to adjust tax rates in event changes in assessed valuation occur that would alter the tax rate calculations.

137.073. DEFINITIONS — REVISION OF PRIOR LEVY, WHEN, PROCEDURE — CALCULATION OF STATE AID FOR PUBLIC SCHOOLS, TAXING AUTHORITY'S DUTIES. — 1. As used in this section, the following terms mean:

(1) "General reassessment", changes in value, entered in the assessor's books, of a substantial portion of the parcels of real property within a county resulting wholly or partly from reappraisal of value or other actions of the assessor or county equalization body or ordered by the state tax commission or any court;

(2) "Tax rate", "rate", or "rate of levy", singular or plural, includes the tax rate for each purpose of taxation of property a taxing authority is authorized to levy without a vote and any tax rate authorized by election, including bond interest and sinking fund;

(3) "Tax rate ceiling", a tax rate as revised by the taxing authority to comply with the provisions of this section or when a court has determined the tax rate; except that, other provisions of law to the contrary notwithstanding, a school district may levy the operating levy for school purposes required for the current year pursuant to subsection 2 of section 163.021, RSMo, less all adjustments required pursuant to article X, section 22 of the Missouri Constitution, if such tax rate does not exceed the highest tax rate in effect subsequent to the 1980 tax year. This is the maximum tax rate that may be levied, unless a higher tax rate ceiling is approved by voters of the political subdivision as provided in this section;

(4) "Tax revenue", when referring to the previous year, means the actual receipts from ad valorem levies on all classes of property, including state-assessed property, in the immediately preceding fiscal year of the political subdivision, plus an allowance for taxes billed but not collected in the fiscal year and plus an additional allowance for the revenue which would have been collected from property which was annexed by such political subdivision but which was not previously used in determining tax revenue pursuant to this section. The term "tax revenue" shall not include any receipts from ad valorem levies on any property of a railroad corporation or a public utility, as these terms are defined in section 386.020, RSMo, which were assessed by the assessor of a county or city in the previous year but are assessed by the state tax commission in the current year. All school districts and those counties levying sales taxes pursuant to chapter 67, RSMo, shall include in the calculation of tax revenue an amount equivalent to that by which they reduced property tax levies as a result of sales tax pursuant to section 67.505, RSMo, and section 164.013, RSMo, or as excess home dock city or county fees as provided in subsection 4 of section 313.820, RSMo, in the immediately preceding fiscal year but not including any amount calculated to adjust for prior years. For purposes of political subdivisions which were authorized to levy a tax in the prior year but which did not levy such tax or levied a reduced rate, the term "tax revenue", as used in relation to the revision of tax levies mandated by law, shall mean the revenues equal to the amount that would have been available if the voluntary rate reduction had not been made.

2. Whenever changes in assessed valuation are entered in the assessor's books for any personal property, in the aggregate, or for any subclass of real property as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, the county clerk in all counties and the assessor of St. Louis City shall notify each political subdivision wholly or partially within the county or St. Louis City of the change in valuation of each subclass of real property, individually, and personal property, in the aggregate, exclusive of new construction and improvements. All political subdivisions shall immediately revise the applicable rates of levy for each purpose for each subclass of real property, individually, and personal property, in the aggregate, for which taxes are levied to the extent necessary to produce from all taxable property, exclusive of new construction and improvements, substantially the same amount of tax revenue as was produced in the previous year for each subclass of real property, individually, and personal property, in the aggregate, except that the rate may not exceed [the greater of the rate in effect in the 1984 tax year or] the most recent voter-approved rate. Such tax revenue shall not include any receipts from ad valorem levies on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property. Where the taxing authority is a school district for the purposes of revising the applicable rates of levy for each subclass of real property, the tax revenues from state-assessed railroad and utility property shall be apportioned and attributed to each subclass of real property based on the percentage of the total assessed valuation of the county that each subclass of real property represents in the current taxable year. As provided in section 22 of article X of the constitution, a political subdivision may also revise each levy to allow for inflationary assessment

growth occurring within the political subdivision. The inflationary growth factor for any such subclass of real property or personal property shall be limited to the actual assessment growth in such subclass or class, exclusive of new construction and improvements, and exclusive of the assessed value on any real property which was assessed by the assessor of a county or city in the current year in a different subclass of real property, but not to exceed the consumer price index or five percent, whichever is lower. Should the tax revenue of a political subdivision from the various tax rates determined in this subsection be different than the tax revenue that would have been determined from a single tax rate as calculated pursuant to the method of calculation in this subsection prior to January 1, 2003, then the political subdivision shall revise the tax rates of those subclasses of real property, individually, and/or personal property, in the aggregate, in which there is a tax rate reduction, pursuant to the provisions of this subsection. Such revision shall yield an amount equal to such difference and shall be apportioned among such subclasses of real property, individually, and/or personal property, in the aggregate, based on the relative assessed valuation of the class or subclasses of property experiencing a tax rate reduction. Such revision in the tax rates of each class or subclass shall be made by computing the percentage of current year adjusted assessed valuation of each class or subclass with a tax rate reduction to the total current year adjusted assessed valuation of the class or subclasses with a tax rate reduction, multiplying the resulting percentages by the revenue difference between the single rate calculation and the calculations pursuant to this subsection and dividing by the respective adjusted current year assessed valuation of each class or subclass to determine the adjustment to the rate to be levied upon each class or subclass of property. The adjustment computed herein shall be multiplied by one hundred, rounded to four decimals in the manner provided in this subsection, and added to the initial rate computed for each class or subclass of property. Notwithstanding any provision of this subsection to the contrary, no revision to the rate of levy for personal property shall cause such levy to increase over the levy for personal property from the prior year.

3. (1) Where the taxing authority is a school district, it shall be required to revise the rates of levy to the extent necessary to produce from all taxable property, including state-assessed railroad and utility property, which shall be separately estimated in addition to other data required in complying with section 164.011, RSMo, substantially the amount of tax revenue permitted in this section. In the year following tax rate reduction, the tax rate ceiling may be adjusted to offset such district's reduction in the apportionment of state school moneys due to its reduced tax rate. However, in the event any school district, in calculating a tax rate ceiling pursuant to this section, requiring the estimating of effects of state-assessed railroad and utility valuation or loss of state aid, discovers that the estimates used result in receipt of excess revenues, which would have required a lower rate if the actual information had been known, the school district shall reduce the tax rate ceiling in the following year to compensate for the excess receipts, and the recalculated rate shall become the tax rate ceiling for purposes of this section.

(2) For any political subdivision which experiences a reduction in the amount of assessed valuation relating to a prior year, due to decisions of the state tax commission or a court pursuant to sections 138.430 to 138.433, RSMo, or due to clerical errors or corrections in the calculation or recordation of any assessed valuation:

(a) Such political subdivision may revise the tax rate ceiling for each purpose it levies taxes to compensate for the reduction in assessed value occurring after the political subdivision calculated the tax rate ceiling for the particular subclass of real property or for personal property, in the aggregate, in [the] a prior year. Such revision by the political subdivision shall be made at the time of the next calculation of the tax rate for the particular subclass of real property or for personal property, in the aggregate, after the reduction in assessed valuation has been determined and shall be calculated in a manner that results in the revised tax rate ceiling being the same as it would have been had the corrected or finalized assessment been available at the time of the prior calculation;

(b) In addition, for up to three years following the determination of the reduction in assessed valuation as a result of circumstances defined in this subdivision, such political subdivision may levy a tax rate for each purpose it levies taxes above the revised tax rate ceiling provided in paragraph (a) of this subdivision to recoup any revenues it was entitled to receive [for the three-year period preceding such determination] **had the corrected or finalized assessment been available at the time of the prior calculation.**

4. (1) In order to implement the provisions of this section and section 22 of article X of the Constitution of Missouri, the term "improvements" shall apply to both real and personal property. In order to determine the value of new construction and improvements, each county assessor shall maintain a record of real property valuations in such a manner as to identify each year the increase in valuation for each political subdivision in the county as a result of new construction and improvements. The value of new construction and improvements shall include the additional assessed value of all improvements or additions to real property which were begun after and were not part of the prior year's assessment, except that the additional assessed value of all improvements or additions to real property which had been totally or partially exempt from ad valorem taxes pursuant to sections 99.800 to 99.865, RSMo, sections 135.200 to 135.255, RSMo, and section 353.110, RSMo, shall be included in the value of new construction and improvements when the property becomes totally or partially subject to assessment and payment of all ad valorem taxes. The aggregate increase in valuation of personal property for the current year over that of the previous year is the equivalent of the new construction and improvements factor for personal property. Notwithstanding any opt-out implemented pursuant to subsection 15 of section 137.115, the assessor shall certify the amount of new construction and improvements and the amount of assessed value on any real property which was assessed by the assessor of a county or city in such previous year but is assessed by the assessor of a county or city in the current year in a different subclass of real property separately for each of the three subclasses of real property for each political subdivision to the county clerk in order that political subdivisions shall have this information for the purpose of calculating tax rates pursuant to this section and section 22, article X, Constitution of Missouri. In addition, the state tax commission shall certify each year to each county clerk the increase in the general price level as measured by the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency. The state tax commission shall certify the increase in such index on the latest twelve-month basis available on [June] **February** first of each year over the immediately preceding prior twelve-month period in order that political subdivisions shall have this information available in setting their tax rates according to law and section 22 of article X of the Constitution of Missouri. For purposes of implementing the provisions of this section and section 22 of article X of the Missouri Constitution, the term "property" means all taxable property, including state-assessed property.

(2) Each political subdivision required to revise rates of levy pursuant to this section or section 22 of article X of the Constitution of Missouri shall calculate each tax rate it is authorized to levy and, in establishing each tax rate, shall consider each provision for tax rate revision provided in this section and section 22 of article X of the Constitution of Missouri, separately and without regard to annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo. Each political subdivision shall set each tax rate it is authorized to levy using the calculation that produces the lowest tax rate ceiling. It is further the intent of the general assembly, pursuant to the authority of section 10(c) of article X of the Constitution of Missouri, that the provisions of such section be applicable to tax rate revisions mandated pursuant to section 22 of article X of the Constitution of Missouri as to reestablishing tax rates as revised in subsequent years, enforcement provisions, and other provisions not in conflict with section 22 of article X of the Constitution of Missouri. Annual tax rate reductions provided in section 67.505, RSMo, and section 164.013, RSMo, shall be applied to the tax rate as established

pursuant to this section and section 22 of article X of the Constitution of Missouri, unless otherwise provided by law.

5. (1) In all political subdivisions, the tax rate ceiling established pursuant to this section shall not be increased unless approved by a vote of the people. Approval of the higher tax rate shall be by at least a majority of votes cast. When a proposed higher tax rate requires approval by more than a simple majority pursuant to any provision of law or the constitution, the tax rate increase must receive approval by at least the majority required.

(2) When voters approve an increase in the tax rate, the amount of the increase shall be added to the tax rate ceiling as calculated pursuant to this section to the extent the total rate does not exceed any maximum rate prescribed by law. If a ballot question presents a stated tax rate for approval rather than describing the amount of increase in the question, the stated tax rate approved shall be **adjusted as provided in this section and, so adjusted, shall be** the current tax rate ceiling. The increased tax rate ceiling as approved **shall be adjusted such that when applied to the current total assessed valuation of the political subdivision, excluding new construction and improvements since the date of the election approving such increase, the revenue derived from the adjusted tax rate ceiling is equal to the sum of: the amount of revenue which would have been derived by applying the voter approved increased tax rate ceiling to total assessed valuation of the political subdivision, as most recently certified by the city or county clerk on or before the date of the election in which such increase is approved, increased by the percentage increase in the consumer price index, as provided by law. Such adjusted tax rate ceiling** may be applied to the total assessed valuation of the political subdivision at the setting of the next tax rate. **If a ballot question presents a phased-in tax rate increase, upon voter approval, each tax rate increase shall be adjusted in the manner prescribed in this section to yield the sum of: the amount of revenue that would be derived by applying such voter approved increased rate to the total assessed valuation, as most recently certified by the city or county clerk on or before the date of the election in which such increase was approved, increased by the percentage increase in the consumer price index, as provided by law, from the date of the election to the time of such increase and, so adjusted, shall be the current tax rate ceiling.**

(3) The governing body of any political subdivision may levy a tax rate lower than its tax rate ceiling and may, **in a non-reassessment year**, increase that lowered tax rate to a level not exceeding the tax rate ceiling without voter approval **in the manner provided under subdivision (4) of this subsection. Nothing in this section shall be construed as prohibiting a political subdivision from voluntarily levying a tax rate lower than that which is required under the provisions of this section or from seeking voter approval of a reduction to such political subdivision's tax rate ceiling.**

(4) In a year of general reassessment, a governing body whose tax rate is lower than its tax rate ceiling shall revise its tax rate pursuant to the provisions of subsection 4 of this section as if its tax rate was at the tax rate ceiling. In a year following general reassessment, if such governing body intends to increase its tax rate, the governing body shall conduct a public hearing, and in a public meeting it shall adopt an ordinance, resolution, or policy statement justifying its action prior to setting and certifying its tax rate. The provisions of this subdivision shall not apply to any political subdivision which levies a tax rate lower than its tax rate ceiling solely due to a reduction required by law resulting from sales tax collections. The provisions of this subdivision shall not apply to any political subdivision which has received voter approval for an increase to its tax rate ceiling subsequent to setting its most recent tax rate.

6. (1) For the purposes of calculating state aid for public schools pursuant to section 163.031, RSMo, each taxing authority which is a school district shall determine its proposed tax rate as a blended rate of the classes or subclasses of property. Such blended rate shall be calculated by first determining the total tax revenue of the property within the jurisdiction of the taxing authority, which amount shall be equal to the sum of the products of multiplying the

assessed valuation of each class and subclass of property by the corresponding tax rate for such class or subclass, then dividing the total tax revenue by the total assessed valuation of the same jurisdiction, and then multiplying the resulting quotient by a factor of one hundred. Where the taxing authority is a school district, such blended rate shall also be used by such school district for calculating revenue from state-assessed railroad and utility property as defined in chapter 151, RSMo, and for apportioning the tax rate by purpose.

(2) Each taxing authority proposing to levy a tax rate in any year shall notify the clerk of the county commission in the county or counties where the tax rate applies of its tax rate ceiling and its proposed tax rate. Each taxing authority shall express its proposed tax rate in a fraction equal to the nearest one-tenth of a cent, unless its proposed tax rate is in excess of one dollar, then one/one-hundredth of a cent. If a taxing authority shall round to one/one-hundredth of a cent, it shall round up a fraction greater than or equal to five/one-thousandth of one cent to the next higher one/one-hundredth of a cent; if a taxing authority shall round to one-tenth of a cent, it shall round up a fraction greater than or equal to five/one-hundredths of a cent to the next higher one-tenth of a cent. Any taxing authority levying a property tax rate shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating such tax rate complies with Missouri law. All forms for the calculation of rates pursuant to this section shall be promulgated as a rule and shall not be incorporated by reference. The state auditor shall promulgate rules for any and all forms for the calculation of rates pursuant to this section which do not currently exist in rule form or that have been incorporated by reference. In addition, each taxing authority proposing to levy a tax rate for debt service shall provide data, in such form as shall be prescribed by the state auditor by rule, substantiating the tax rate for debt service complies with Missouri law. A tax rate proposed for annual debt service requirements will be prima facie valid if, after making the payment for which the tax was levied, bonds remain outstanding and the debt fund reserves do not exceed the following year's payments. The county clerk shall keep on file and available for public inspection all such information for a period of three years. The clerk shall, within three days of receipt, forward a copy of the notice of a taxing authority's tax rate ceiling and proposed tax rate and any substantiating data to the state auditor. The state auditor shall, within fifteen days of the date of receipt, examine such information and return to the county clerk his or her findings as to compliance of the tax rate ceiling with this section and as to compliance of any proposed tax rate for debt service with Missouri law. If the state auditor believes that a taxing authority's proposed tax rate does not comply with Missouri law, then the state auditor's findings shall include a recalculated tax rate, and the state auditor may request a taxing authority to submit documentation supporting such taxing authority's proposed tax rate. The county clerk shall immediately forward a copy of the auditor's findings to the taxing authority and shall file a copy of the findings with the information received from the taxing authority. The taxing authority shall have fifteen days from the date of receipt from the county clerk of the state auditor's findings and any request for supporting documentation to accept or reject in writing the rate change certified by the state auditor and to submit all requested information to the state auditor. A copy of the taxing authority's acceptance or rejection and any information submitted to the state auditor shall also be mailed to the county clerk. If a taxing authority rejects a rate change certified by the state auditor and the state auditor does not receive supporting information which justifies the taxing authority's original or any subsequent proposed tax rate, then the state auditor shall refer the perceived violations of such taxing authority to the attorney general's office and the attorney general is authorized to obtain injunctive relief to prevent the taxing authority from levying a violative tax rate.

7. No tax rate shall be extended on the tax rolls by the county clerk unless the political subdivision has complied with the foregoing provisions of this section.

8. Whenever a taxpayer has cause to believe that a taxing authority has not complied with the provisions of this section, the taxpayer may make a formal complaint with the prosecuting attorney of the county. Where the prosecuting attorney fails to bring an action within ten days of the filing of the complaint, the taxpayer may bring a civil action pursuant to this section and

institute an action as representative of a class of all taxpayers within a taxing authority if the class is so numerous that joinder of all members is impracticable, if there are questions of law or fact common to the class, if the claims or defenses of the representative parties are typical of the claims or defenses of the class, and if the representative parties will fairly and adequately protect the interests of the class. In any class action maintained pursuant to this section, the court may direct to the members of the class a notice to be published at least once each week for four consecutive weeks in a newspaper of general circulation published in the county where the civil action is commenced and in other counties within the jurisdiction of a taxing authority. The notice shall advise each member that the court will exclude him or her from the class if he or she so requests by a specified date, that the judgment, whether favorable or not, will include all members who do not request exclusion, and that any member who does not request exclusion may, if he or she desires, enter an appearance. In any class action brought pursuant to this section, the court, in addition to the relief requested, shall assess against the taxing authority found to be in violation of this section the reasonable costs of bringing the action, including reasonable attorney's fees, provided no attorney's fees shall be awarded any attorney or association of attorneys who receive public funds from any source for their services. Any action brought pursuant to this section shall be set for hearing as soon as practicable after the cause is at issue.

9. If in any action, including a class action, the court issues an order requiring a taxing authority to revise the tax rates as provided in this section or enjoins a taxing authority from the collection of a tax because of its failure to revise the rate of levy as provided in this section, any taxpayer paying his or her taxes when an improper rate is applied has erroneously paid his or her taxes in part, whether or not the taxes are paid under protest as provided in section 139.031, RSMo, or otherwise contested. The part of the taxes paid erroneously is the difference in the amount produced by the original levy and the amount produced by the revised levy. The township or county collector of taxes or the collector of taxes in any city shall refund the amount of the tax erroneously paid. The taxing authority refusing to revise the rate of levy as provided in this section shall make available to the collector all funds necessary to make refunds pursuant to this subsection. No taxpayer shall receive any interest on any money erroneously paid by him or her pursuant to this subsection. Effective in the 1994 tax year, nothing in this section shall be construed to require a taxing authority to refund any tax erroneously paid prior to or during the third tax year preceding the current tax year.

10. [A taxing authority, including but not limited to a township, county collector, or collector of taxes, responsible for determining and collecting the amount of residential real property tax levied in its jurisdiction, shall report such amount of tax collected by December thirty-first of each year such property is assessed to the state tax commission. The state tax commission shall compile the tax data by county or taxing jurisdiction and submit a report to the general assembly no later than January thirty-first of the following year.

11.] Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.

137.082. NEW CONSTRUCTION, ASSESSMENT OF UPON OCCUPANCY, HOW — PAYMENT OF TAXES, WHEN — COUNTY ASSESSOR, DUTIES — COUNTY OPTION — NATURAL DISASTERS, ASSESSMENT REDUCTION ALLOWED, EFFECT. — 1. Notwithstanding the provisions of sections 137.075 and 137.080 to the contrary, a building or other structure classified as residential property pursuant to section 137.016 newly constructed and occupied on any parcel of real

property shall be assessed and taxed on such assessed valuation as of the first day of the month following the date of occupancy for the proportionate part of the remaining year at the tax rates established for that year, in all taxing jurisdictions located in the county adopting this section as provided in subsection 8 of this section. Newly constructed residential property which has never been occupied shall not be assessed as improved real property until such occupancy or the first day of January of the second year following the year in which construction of the improvements was completed.

2. The assessor may consider a property residentially occupied upon personal verification or when any two of the following conditions have been met:

- (1) An occupancy permit has been issued for the property;
- (2) A deed transferring ownership from one party to another has been filed with the recorder of deeds' office subsequent to the date of the first permanent utility service;
- (3) A utility company providing service in the county has verified a transfer of service for property from one party to another;
- (4) The person or persons occupying the newly constructed property has registered a change of address with any local, state or federal governmental office or agency.

3. In implementing the provisions of this section, the assessor may use occupancy permits, building permits, warranty deeds, utility connection documents, including telephone connections, or other official documents as may be necessary to discover the existence of newly constructed properties. No utility company shall refuse to provide verification monthly to the assessor of a utility connection to a newly occupied single family building or structure.

4. In the event that the assessment under subsections 1 and 2 of this section is not completed until after the deadline for filing appeals in a given tax year, the owner of the newly constructed property who is aggrieved by the assessment of the property may appeal this assessment the following year to the county board of equalization in accordance with chapter 138, RSMo, and may pay any taxes under protest in accordance with section 139.031, RSMo; **provided however, that such payment under protest shall not be required as a condition of appealing to the county board of equalization.** The collector shall impound such protested taxes and shall not disburse such taxes until resolution of the appeal.

5. The increase in assessed valuation resulting from the implementation of the provisions of this section shall be considered new construction and improvements under the provisions of this chapter.

6. Any person claiming such destroyed property shall provide a list of such destroyed property to the county assessor. The assessor shall have available a supply of appropriate forms on which the claim shall be made. The list shall be filed by the assessor, after he has provided a copy of the list to the county collector and the board of equalization, in the office of the county clerk who, after entering the filing thereof, shall preserve and safely keep them. If the assessor, subsequent to such destruction, considers such property occupied as provided in subsection 2 of this section, the assessor shall consider such property new construction and improvements and shall assess such property accordingly as provided in subsection 1 of this section. For the purposes of this section, the term "natural disaster" means any disaster due to natural causes such as tornado, fire, flood, or earthquake.

The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. - (2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks for inclusion on the form;
- (3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and
- (4) Sign the application, certifying the accuracy of the assessor's entries.

6. If application is made after 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April first and October fifteenth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

7. Each applicant shall send the application to the department by [September thirtieth] **October fifteenth** of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

8. If application is made in 2005, upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior citizens property tax credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth,

the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

9. If application is made after 2005, upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

11. For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

12. After setting the homestead exemption limit for applications made in 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation and assessment fund allocation to the county collector's funds of each county or the treasurer ex officio collector's fund in counties with a township form of government where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector or the treasurer ex officio

collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or the treasurer ex officio collector's fund or may be sent by mail to the collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.

13. If, in any given year after 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year] **determine the apportionment percentage by equally apportioning the appropriation among all eligible applicants on a percentage basis.** If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

14. After [setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and] **determining the apportionment percentage, the director shall** calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the county or treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no way impact, affect, interrupt, or interfere with the performance of the required statutory duties of any county elected official, more

particularly including the county collector when performing such duties as deemed necessary for the distribution of any homestead appropriation and the distribution of all other real and personal property taxes.

16. In the event that an eligible owner dies or transfers ownership of the property after the homestead exemption limit has been set in any given year, but prior to January first of the year in which the credit would otherwise be applied, the credit shall be void and any corresponding moneys, pursuant to subsection 12 of this section, shall lapse to the state to be credited to the general revenue fund. In the event the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government determines prior to issuing the credit that the individual is not an eligible owner because the individual did not pay the prior three years' property tax liability in full, the credit shall be void and any corresponding moneys, under subsection 11 of this section, shall lapse to the state to be credited to the general revenue fund.

17. This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

18. In accordance with the provisions of sections 23.250 to 23.298, RSMo, and unless otherwise authorized pursuant to section 23.253, RSMo:

(1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and

(2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a revision bill for repeal.

REAL AND PERSONAL PROPERTY, ASSESSMENT — MAINTENANCE PLAN — ASSESSOR MAY MAIL FORMS FOR PERSONAL PROPERTY — CLASSES OF PROPERTY, ASSESSMENT — PHYSICAL INSPECTION REQUIRED, WHEN, PROCEDURE. — 1. All other laws to the contrary notwithstanding, the assessor or the assessor's deputies in all counties of this state including the city of St. Louis shall annually make a list of all real and tangible personal property taxable in the assessor's city, county, town or district. Except as otherwise provided in subsection 3 of this section and section 137.078, the assessor shall annually assess all personal property at thirty-three and one-third percent of its true value in money as of January first of each calendar year. The assessor shall annually assess all real property, including any new construction and improvements to real property, and [possessor] **possessory** interests in real property at the percent of its true value in money set in subsection 5 of this section. **The true value in money of any possessory interest in real property in subclass (3), where such real property is on or lies within the ultimate airport boundary as shown by a federal airport layout plan, as defined by 14 CFR 151.5, of a commercial airport having a FAR Part 139 certification and owned by a political subdivision, shall be the otherwise applicable true value in money of any such possessory interest in real property, less the total dollar amount of costs paid by a party, other than the political subdivision, towards any new construction or improvements on such real property completed after January 1, 2008, and which are included in the above-mentioned possessory interest, regardless of the year in which such costs were incurred or whether such costs were considered in any prior year.** The assessor shall annually assess all real property in the following manner: new assessed values shall be determined as of January first of each odd-numbered year and shall be entered in the assessor's books; those same assessed values shall apply in the following even-numbered year, except for new construction and property improvements which shall be valued as though they had been completed as of January first of the preceding odd-numbered year. The assessor may call at the office, place of doing business, or residence of each person required by this chapter to list property, and require the person to make a correct statement of all taxable tangible personal property owned by the person or under his or her care, charge or management, taxable in the county. On or before January first of each even-numbered year, the assessor shall prepare and submit a two-year assessment

maintenance plan to the county governing body and the state tax commission for their respective approval or modification. The county governing body shall approve and forward such plan or its alternative to the plan to the state tax commission by February first. If the county governing body fails to forward the plan or its alternative to the plan to the state tax commission by February first, the assessor's plan shall be considered approved by the county governing body. If the state tax commission fails to approve a plan and if the state tax commission and the assessor and the governing body of the county involved are unable to resolve the differences, in order to receive state cost-share funds outlined in section 137.750, the county or the assessor shall petition the administrative hearing commission, by May first, to decide all matters in dispute regarding the assessment maintenance plan. Upon agreement of the parties, the matter may be stayed while the parties proceed with mediation or arbitration upon terms agreed to by the parties. The final decision of the administrative hearing commission shall be subject to judicial review in the circuit court of the county involved. In the event a valuation of subclass (1) real property within any county with a charter form of government, or within a city not within a county, is made by a computer, computer-assisted method or a computer program, the burden of proof, supported by clear, convincing and cogent evidence to sustain such valuation, shall be on the assessor at any hearing or appeal. In any such county, unless the assessor proves otherwise, there shall be a presumption that the assessment was made by a computer, computer-assisted method or a computer program. Such evidence shall include, but shall not be limited to, the following:

(1) The findings of the assessor based on an appraisal of the property by generally accepted appraisal techniques; and

(2) The purchase prices from sales of at least three comparable properties and the address or location thereof. As used in this [paragraph] **subdivision**, the word "comparable" means that:

(a) Such sale was closed at a date relevant to the property valuation; and

(b) Such properties are not more than one mile from the site of the disputed property, except where no similar properties exist within one mile of the disputed property, the nearest comparable property shall be used. Such property shall be within five hundred square feet in size of the disputed property, and resemble the disputed property in age, floor plan, number of rooms, and other relevant characteristics.

2. Assessors in each county of this state and the city of St. Louis may send personal property assessment forms through the mail.

3. The following items of personal property shall each constitute separate subclasses of tangible personal property and shall be assessed and valued for the purposes of taxation at the following percentages of their true value in money:

(1) Grain and other agricultural crops in an unmanufactured condition, one-half of one percent;

(2) Livestock, twelve percent;

(3) Farm machinery, twelve percent;

(4) Motor vehicles which are eligible for registration as and are registered as historic motor vehicles pursuant to section 301.131, RSMo, and aircraft which are at least twenty-five years old and which are used solely for noncommercial purposes and are operated less than fifty hours per year or aircraft that are home built from a kit, five percent;

(5) Poultry, twelve percent; and

(6) Tools and equipment used for pollution control and tools and equipment used in retooling for the purpose of introducing new product lines or used for making improvements to existing products by any company which is located in a state enterprise zone and which is identified by any standard industrial classification number cited in subdivision (6) of section 135.200, RSMo, twenty-five percent.

4. The person listing the property shall enter a true and correct statement of the property, in a printed blank prepared for that purpose. The statement, after being filled out, shall be signed and either affirmed or sworn to as provided in section 137.155. The list shall then be delivered to the assessor.

5. All subclasses of real property, as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, shall be assessed at the following percentages of true value:

- (1) For real property in subclass (1), nineteen percent;
- (2) For real property in subclass (2), twelve percent; and
- (3) For real property in subclass (3), thirty-two percent.

6. Manufactured homes, as defined in section 700.010, RSMo, which are actually used as dwelling units shall be assessed at the same percentage of true value as residential real property for the purpose of taxation. The percentage of assessment of true value for such manufactured homes shall be the same as for residential real property. If the county collector cannot identify or find the manufactured home when attempting to attach the manufactured home for payment of taxes owed by the manufactured home owner, the county collector may request the county commission to have the manufactured home removed from the tax books, and such request shall be granted within thirty days after the request is made; however, the removal from the tax books does not remove the tax lien on the manufactured home if it is later identified or found. A manufactured home located in a manufactured home rental park, rental community or on real estate not owned by the manufactured home owner shall be considered personal property. A manufactured home located on real estate owned by the manufactured home owner may be considered real property.

7. 8. Any amount of tax due and owing based on the assessment of a manufactured home shall be included on the personal property tax statement of the manufactured home owner unless the manufactured home has been converted to real property in compliance with section 700.111, RSMo, in which case the amount of tax due and owing on the assessment of the manufactured home as a realty improvement to the existing real estate parcel shall be included on the real property tax statement of the real estate owner.

9. The assessor of each county and each city not within a county shall use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide, or its successor publication, as the recommended guide of information for determining the true value of motor vehicles described in such publication. In the absence of a listing for a particular motor vehicle in such publication, the assessor shall use such information or publications which in the assessor's judgment will fairly estimate the true value in money of the motor vehicle.

10. Before the assessor may increase the assessed valuation of any parcel of subclass (1) real property by more than fifteen percent since the last assessment, excluding increases due to new construction or improvements, the assessor shall conduct a physical inspection of such property.

11. If a physical inspection is required, pursuant to subsection 10 of this section, the assessor shall notify the property owner of that fact in writing and shall provide the owner clear written notice of the owner's rights relating to the physical inspection. If a physical inspection is required, the property owner may request that an interior inspection be performed during the physical inspection. The owner shall have no less than thirty days to notify the assessor of a request for an interior physical inspection.

12. A physical inspection, as required by subsection 10 of this section, shall include, but not be limited to, an on-site personal observation and review of all exterior portions of the land and any buildings and improvements to which the inspector has or may reasonably and lawfully gain external access, and shall include an observation and review of the interior of any buildings or improvements on the property upon the timely request of the owner pursuant to subsection

11 of this section. Mere observation of the property via a "drive-by inspection" or the like shall not be considered sufficient to constitute a physical inspection as required by this section.

13. The provisions of subsections 11 and 12 of this section shall only apply in any county with a charter form of government with more than one million inhabitants.

14. A county or city collector may accept credit cards as proper form of payment of outstanding property tax or license due. No county or city collector may charge surcharge for payment by credit card which exceeds the fee or surcharge charged by the credit card bank, processor, or issuer for its service. A county or city collector may accept payment by electronic transfers of funds in payment of any tax or license and charge the person making such payment a fee equal to the fee charged the county by the bank, processor, or issuer of such electronic payment.

15. For the purposes of applying the provisions of this subsection, a political subdivision contained within two or more counties where at least one of such counties has opted out and at least one of such counties has not opted out shall calculate a single tax rate as in effect prior to the enactment of house bill no. 1150 of the ninety-first general assembly, second regular session. A governing body of a city not within a county or a county that has opted out under the provisions of this subsection may choose to implement the provisions of this section and sections 137.073, 138.060, and 138.100, RSMo, as enacted by house bill no. 1150 of the ninety-first general assembly, second regular session, and section 137.073 as modified by [this act] **house committee substitute for senate substitute for senate committee substitute for senate bill no. 960, ninety-second general assembly, second regular session**, for the next year of general reassessment, by an affirmative vote of the governing body prior to December thirty-first of any year.

The governing body of any city of the third classification with more than twenty-six thousand three hundred but fewer than twenty-six thousand seven hundred inhabitants located in any county that has exercised its authority to opt out under subsection 15 of this section may levy separate and differing tax rates for real and personal property only if such city bills and collects its own property taxes or satisfies the entire cost of the billing and collection of such separate and differing tax rates. 3. For purposes of this section, and to estimate the value of depreciable tangible personal property for mass appraisal purposes, each assessor shall value depreciable tangible personal property by applying the class life and recovery period to the original cost of the property according to the following depreciation schedule. The percentage shown for the first year shall be the percentage of the original cost used for January first of the year following the year of acquisition of the property, and the percentage shown for each succeeding year shall be the percentage of the original cost used for January first of the respective succeeding year as follows:

The state tax commission shall study and analyze the values established by this method of assessment and in every odd-numbered year make recommendations to the joint committee on tax policy pertaining to any changes in this methodology, if any, that are warranted.

4. Such estimate of value determined under this section shall be presumed to be correct for the purpose of determining the true value in money of the depreciable tangible personal property, but such estimation may be disproved by substantial and persuasive evidence of the true value in money under any method determined by the state tax commission to be correct, including, but not limited to, an appraisal of the tangible personal property specifically utilizing generally accepted appraisal techniques, and contained in a narrative appraisal report in accordance with the Uniform Standards of Professional Appraisal Practice or by proof of economic or functional obsolescence or evidence of excessive physical deterioration. For purposes of appeal of the provisions of this section, the salvage or scrap value of depreciable tangible personal property may only be considered if the property is not in use as of the assessment date.

5. This section shall not apply to business personal property placed in service before January 2, 2006. **Nothing in this section shall create a presumption as to the proper method of determining the assessed valuation of business personal property placed in service before January 2, 2006.**
